distributed to some depository libraries in microfiche this valuable and accessible work provides comprehensive information on america s top public companies listing over 10 000 publicly traded companies from the new york nasdaq and otc exchanges all companies have assets of more than 5 million and are filed with the sec each entry describes business activity 5 year sales income earnings per share assets and liabilities senior employees major shareholders and directors are also named the seven indices give an unrivalled access to the information the energy industry is boiling over with changes this title offers a reference tool to the energy industry that covers various things from major oil companies to independents utilities pipelines coal lng oil field services and refiners it includes over a dozen statistical tables and profiles of the energy 500 firms for more than 40 years computerworld has been the leading source of technology news and information for it influencers worldwide computerworld s award winning site computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global it media network an international approach to sustainability was written by steven p driver ph d to educate anyone interested in reducing operational costs in buildings with an interest in making a difference in climate change through the application of energy conservation techniques whether it s your home or workplace this e book can help you reduce energy consumption this e book was written to educate home owners building managers real estate developers university and campus facility maintenance personnel employees and anyone else with an interest in helping our environment this publication offers an understanding of some available technologies to mitigate energy waste having overcome proprietary barriers which restricted the full understanding of how to combine artificial and human intelligence with respect to building commissioning is what makes this publication unique after completing several years of post doctoral research to understanding differences and benefits between ongoing and retroactive commissioning we now have a better vision of what is required to make our buildings sustainable with respect to energy consumed this publication includes over 30 years of experience in energy management and formed the basis for a u s trademark on sustainable commissioning a concept explained in this e book the journey continues in researching new energy reduction technologies and piloting them confirming further effectiveness of the concept the content in this e book was validated through the deployment of several case studies applying the sustainable commissioning concept the results from those case studies have validated an average return on investment of 62 with a 75 internal rate of return resulting in an 18 month simple pay back the results demonstrate not only how to save operational cost but environmental benefits averaging 1 009 metric tons of carbon emissions avoided annually for each case study infotech being any technology that moves or manages voice data or video whether that movement be via wireless methods fiber optics traditional copper wire telephony computer network or emerging methods each industry segment the most outstanding corporations within those industries are featured it includes dozens of tables indexes by product services geography plus corporate rankings for sales profits research budgets complete profiles on plunkett s infotech 500
