this book looks at current research and future directions in e lexicography online dictionaries and reference tools are increasingly prevalent in a digitized and internet led era in language study that has embraced computational linguistics this book responds with theoretical and practical analysis of key topics from a global range of contributors since cobuild in the 1980s lexicographers have found it essential to engage with and utilize electronic computational tools internet dictionaries online reference tools and even search engine optimization demand a knowledge of electronic lexicography and force a reassessment of the field this volume looks at amongst other topics polyfunctional versus monofunctional dictionary tools developing theories of lexicography for electronic mediums distinguishing between the database and the dictionary online dictionaries not as data repositories but as sophisticated search engines this volume will appeal to scholars in lexicography and to practicing lexicographers

A Qualitative Approach to Translation Studies 2023-12-22

this collection invites readers to explore innovative or underexploited ways of working qualitatively with what in translation studies may be termed as elusive constructs the volume adopts a functionalist approach to focus on one such concept namely the notion of translation problem using case studies to illustrate how a significant elusive construct can be addressed empirically it explores different qualitative research methodologies which although well established in other fields are yet to be extensively used in ts but which may nevertheless prove to be of significance for future studies as they allow elusive concepts typically found in ts to be worked with more coherently chapters are structured around two core ideas first the qualitative systematic analysis of source text content with emphasis on the detection of translation problems as a means of creating efficient frameworks for coherent decision making from a functional perspective and secondly the practical process of stereotyping and

profiling specific problems within different contexts content types or services to help identify manage and resolve them in a number of settings from research to professional translator training and assessment environments this book will be of interest to scholars in translation studies particularly those with an interest in qualitative approaches

les lexicologues terminologues et traducteurs savent très bien qu il n est pas facile d arriver à un consensus large sur des concepts pourtant fondamentaux comme la lexie le lemme le terme ou l unité de traduction on connaît parfaitement aussi pour les avoir souvent subis les inconvénients sérieux que présente le manque d une définition formelle et largement acceptée par la communauté scientifique de ces notions clés cependant la question de l unité ne s épuise pas là la double face du signe saussurien a cédé progressivement la place à une conception triadique comprenant signifié signifiant et combinatoire il va de soi que cette formule compositionnelle s applique aux autres unités linguistiques segmentales les morphes mais également aux unités suprasegmentales les prosodèmes dont la description pose des problèmes sérieux et exige des outillages théoriques et méthodologiques qui ne sont disponibles que pour un nombre restreint de spécialistes par ailleurs les morphologues connaissent bien deux types d unités linguistiques dont le signifiant n est pas directement perceptible puisqu il s agit d une opération les modifications répliques et alternances et les conversions et les syntacticiens à leur tour semblent encore loin d avoir épuisé la description des syntagmes spécialement dans une perspective contrastive telle est la thématique abordée dans ces actes des 9es journées scientifiques du réseau ltt organisées à villetaneuse les 15 et 16 septembre 2011

in quanto segno il patrimonio materiale è la traccia più visibile del passato nella nostra vita quotidiana in costante dialettica con il patrimonio immateriale esso costituisce una presenza fisica che ci costringe a prese di coscienza concrete la conoscenza dei testi e delle storie che è per vitruvio la strada maestra per l ideazione e la costruzione di un edificio è fondamentale anche nei processi di decostruzione secondo le varie tappe e le differenti percezioni attraverso le epoche e i costumi fino a ripercorrere il processo che ha trasformato un bene in patrimonio il lessico e la terminologia dei beni culturali sono in questo senso il vettore più importante di conoscenza di valorizzazione e di diffusione del patrimonio il volume cerca di riunire coloro che studiano la lingua del patrimonio da diversi paesi e attraverso metodologie diverse e coloro che sono coinvolti nella sua gestione al fine di offrire punti di vista e

idee sulla narrazione e la percezione dei beni culturali materiali e immateriali in mediazione attraverso le epoche le culture e le identità

das berufsfeld für Übersetzerinnen und Dolmetscher wird immer breiter ihre Einsatzgebiete werden vielfältiger wie kann und soll die akademische Ausbildung auf gesellschaftlichen Wandel, technischen Fortschritt und deren Folgen reagieren wie kann sie diese integrieren und für sich nutzen? Expertinnen und Experten aus Graz, Innsbruck und Wien thematisieren allgemeine Entwicklungen in einschlägigen Studienplänen der Translationswissenschaft und stellen innovative lokale Bildungs- und Studienangebote vor zum Beispiel zum noch relativ jungen Schriftdolmetschen. Sie diskutieren den Umgang mit maschineller Übersetzung aus didaktischer und curriculärer Perspektive sowie als Herausforderung in Bezug auf die theoretische Konzeption von Translation zukunftsorientiert. Ist auch die Auseinandersetzung mit dem Thema Leichte Sprache im Rahmen der translationsorientierten Sprachdidaktik sowie mit der Nutzung von Translationsplattformen und offenen Bildungsressourcen?

a importância dos estudos neológicos está diretamente relacionada a observação da dinâmica da língua ou seja a verificação das mudanças linguísticas por meio de processos vernaculares ou a incorporação de estrangeirismos ao léxico considerando a importância desses estudos e certa carença de materiais teóricos sobre o tema. Esta obra foi elaborada e aborda os princípios dos estudos neológicos.

Translation im Wandel: Gesellschaftliche, konzeptuelle und didaktische Perspektiven 2022-01-10

qu ont en commun Denis Diderot 1713-1784, Joseph Évariste Prince 1851-1925, l'ingénieur autrichien Eugen Wüster 1898-1977, le sémanticien John Lyons 1932-2020 et Robert Dubuc 1930-2019. Ils ont chacun à sa manière posé les pierres d'une nouvelle discipline. Diderot à travers le vocabulaire réhabiliter les arts et les métiers, Prince par son travail sur les chemins de fer donnera la chiquenaude initiale de cette discipline, ce sera à Wüster que reviendra la paternité de la science de la terminologie. Sans Robert Dubuc, cette science serait restée une singularité européenne. Inspiré par sa double formation de grammairien et de traducteur, Robert Dubuc fondera la terminologie la mettant au service d'une société désireuse de travailler, de créer et de vivre dans une langue française soustraite à l'influence de l'anglais. John Lyons est le père de la sémantique structurale, la démarche terminologique exposée dans le présent ouvrage est largement inspirée de celle de Robert Dubuc. Approche à laquelle on a reproché de manquer d'assise théorique, claire, l'ouvrage la recentre sur la sémantique lexicale structuraliste qui lui fournit et l'appareil conceptuel et les outils méthodologiques pour une meilleure description des termes et de leurs sens.
