Happy Days Are Here Again 2010-05-14 political conventions in years past were more than pep rallies for preselected candidates they were suspenseful no holds barred battles for the nomination in 1932 franklin delano roosevelt the man who would become one of america s most beloved presidents was far from a shoo in for the democratic nomination at the party s convention in chicago using new sources of information award winning reporter steve neal weaves the compelling story of how fdr finally got the nod along with the personalities of the day who influenced the decision including joseph p kennedy al smith huey long and william randolph hearst

□□□□ 1934 political conventions in years past were more than pep rallies for preselected candidates they were suspenseful no holds barred battles for the nomination in 1932 franklin delano roosevelt the man who would become one of america s most beloved presidents was far from a shoo in for the democratic nomination at the party s convention in chicago using new sources of information award winning reporter steve neal weaves the compelling story of how fdr finally got the nod along with the personalities of the day who influenced the decision including joseph p kennedy al smith huey long and william randolph hearst photos a rousingly good read and a fascinating study of a

critical turning point in american history
Happy Days Are Here Again 2009-06 this
handbook explores anti communism as an
overarching phenomenon of twentieth century
global history showing how anti communist
policies and practices transformed societies
around the world it advances research on anti
communism by looking beyond ideologies and
propaganda to uncover how these ideas were put
into practice case studies examine the role of
states and non state actors in anti communist
persecutions and cover a range of topics
including social crises capitalist
accumulation and dispossession political
clientelism and warfare through its
comparative perspective the handbook reveals
striking similarities between different cases
from various world regions and highlights the
numerous long term consequences of anti
communism that exceeded by far the struggle
against communism in a narrow sense
contributing to the growing body of work on
the social history of mass violence this
volume is an essential resource for students
and scholars interested to understand how
twentieth century anti communist persecutions
have shaped societies around the world today

god created the integers stephen hawking Copy

containing 609 encyclopedic articles written by more than 200 prominent scholars the oxford companion to the history of modern science presents an unparalleled history of the field invaluable to anyone with an interest in the technology ideas discoveries and learned institutions that have shaped our world over the past five centuries focusing on the period from the renaissance to the early twenty first century the articles cover all disciplines biology alchemy behaviorism historical periods the scientific revolution world war ii the cold war concepts hypothesis space and time ether and methodologies and philosophies observation and experiment darwinism coverage is international tracing the spread of science from its traditional centers and explaining how the prevailing knowledge of non western societies has modified or contributed to the dominant global science as it is currently understood revealing the interplay between science and the wider culture the companion includes entries on topics such as minority groups art religion and science s practical applications one hundred biographies of the most iconic historic figures chosen for their contributions to science and the interest of their lives are also included above all the oxford companion to the history of modern science is a companion to world history modern in coverage generous in breadth and

cosmopolitan in scope the volume s utility is enhanced by a thematic outline of the entire contents a thorough system of cross referencing and a detailed index that enables the reader to follow a specific line of inquiry along various threads from multiple starting points each essay has numerous suggestions for further reading all of which favor literature that is accessible to the general reader and a bibliographical essay provides a general overview of the scholarship in the field lastly as a contribution to the visual appeal of the companion over 100 black and white illustrations and an eight page color section capture the eye and spark the imagination

Rooms with a View 2017-11-02 the swiss theologian adolf keller was the leading ecumenist on the european continent between the two world wars in this book the historian marianne jehle wildberger delineates his life and its achievements based on research in forty archives in europe and the united states a picture emerges that shows a wonderful man who was a personal friend of karl barth c g jung thomas mann and albert schweitzer and thus who was influenced by the spiritual tendencies of the twentieth century keller cooperated closely with the national council of churches his central bureau of relief in geneva inter church aid was supported by

american churches his lectures at princeton theological seminary on religion and revolution 1933 in which he was one of the first commentators to denounce national socialism in germany set a new standard of political discussion and are unsurpassed marianne jehle wildbergers s book is an important contribution to twentieth century church history and to the history of the twentieth century in general

Encyclopedia of U.S. Political History 1933

one of germany s leading historians presents an ambitious and masterful account of the years encompassing the two world wars characterized by global war political revolution and national crises the period between 1914 and 1945 was one of the most horrifying eras in the history of the west a noted scholar of modern german history heinrich august winkler examines how and why germany so radically broke with the normative project of the west and unleashed devastation across the world in this total history of the thirty years between the start of world war one and the dropping of atomic bombs on hiroshima and nagasaki winkler blends historical narrative with political analysis and encompasses military strategy national identity class conflict economic development and cultural change the book includes astutely observed chapters on the united states japan

russia britain and the other european powers and winkler s distinctly european perspective offers insights beyond the accounts written by his british and american counterparts as germany takes its place at the helm of a unified europe winkler s fascinating account will be widely read and debated for years to come

Circular 1945 vol 6 includes reports of cases dealing with national insurance and general insurance other than marine

FBI Law Enforcement Bulletin 1950 the germany between the two world wars which produced some of the greatest literary lights of the century also produced a forum worthy of them the brilliantly edited crusading left oriented but not party affiliated *weltbühne* the present book tells the history of this weekly berlin journal discusses the men that ran it and wrote it and outlines the causes for which it fought the *weltbühne* had three editors the uncompromising style conscious siegfried jacobsohn the sharp tongued satirical kurt tucholsky and the enigmatic aristocratic carl von ossietzky martyred by the nazis the radical intellectual elite of germany and to come extent outside germany contributed to the journal heinrich mann alfred polgar erich kästner alfred doblin bertolt brecht leonhard frank theodor plievier rene schickele lion feuchtwanger ernst toller arnold zweig also

arthur koestler remain rolland henry barbusse and leon trotsky these men stood for the demilitarization of germany the purge of the reactionary administration and judiciary the end of all restraints on human rights including the restraints on abortion and homosexuality complete equality of women pacifist educational policies the intellectualization of politics and politicization of the intellectuals unity of the working class parties and socialism when on may 11 1933 on opera square in berlin the stormtroopers burned books of fifteen authors sinning against the german volk thirteen of them had made contribution to the weltbühne and since many of them were jews the auto da fé gave special pleasure to the mob mr deak recreates with unusual empathy the atmosphere of the era characterized by terrific social and political issues which eventually lead to the disaster of the thirties the campaigns of the weltbühne failed and the contributors were killed or went into exile with the journal itself moving from berlin to vienna to prague to paris before it died mr deak makes a lasting contribution to history by opening to a broader public the records preserved in the pages of this important but largely ignored journal by selecting and interpreting the issues and by bringing to life the personalities that gave the era its

intellectual profile and understanding of the weltbühne campaigns is indispensable for an appraisal of central european politics in the first half of our century mr deak in this readable book written with the passionate interest of a person who seems to have been a participant rather than a chronicler makes this understanding possible by a lucid exposition and a searching analysis of the events this title is part of uc press s voices revived program which commemorates university of california press s mission to seek out and cultivate the brightest minds and give them voice reach and impact drawing on a backlist dating to 1893 voices revived makes high quality peer reviewed scholarship accessible once again using print on demand technology this title was originally published in 1968 **Congressional Record** 2003-02-14 this work offers a unique contribution to gender and scottish history breaking new ground on several fronts there is no history of inter war women in scotland very little labour or popular political history and virtually nothing published on women the home and family this book is a history of women in the period which integrates class and gender history as well as linking the public and private spheres using a gendered approach to history it transforms and shifts our knowledge of the scottish past unearthing the previously

unexplored role which women played in inter war socialist politics the general strike and popular political protest it re evaluates these areas and demonstrates the ways in which gender shaped the experience of class and class struggle importantly the book also explores the links between the public and private spheres and addresses the concept of masculinity as well as femininity and pays particular reference to domestic violence the strength of the book is the ways in which it illuminates the complex interconnections of culture and economic and social structure although the research is based on scottish evidence it also uses material to address key debates in gender history and labour history which have wider relevance and will appeal to gender historians labour historians and social and cultural historians as well as social scientists

The Oxford Companion to the History of Modern Science 1933 this book provides a study of the transformation of the latin american oil system from one in which the international oil companies dominated to one which is dominated by the main state oil companies and an account of how some of the more important of the state companies have operated this comprehensive guide to the evolution of the latin american oil system combines in one volume a synthesis of material from secondary sources and

original research and thus provides an invaluable reference for all concerned with the history and economy of latin america and with the development and functioning of the international oil industry

Agricultural Situation 2013-07-25 when boxing mattered is a fact based history of boxing covering the classic era from 1880 to 1980 beginning with john l sullivan and the bare knuckle beginnings of the modern sport the author takes the reader through all the greats and some of the not so greats who make up the fascinating history of professional boxing the book utilizes a decade by decade approach focusing on the original eight weight divisions all timers jack johnson stanley ketchel joe gans barbados joe walcott jack dempsey willie pep sugar ray robinson rocky marciano panama al brown archie moore and muhammad ali as well as many many more are covered in detail aided by historical photographs the author also takes on the various sanctioning bodies that govern professional boxing and whom he feels have had a largely negative influence on the sweet science

Adolf Keller 2015-01-01 based in part on documents seldom used by previous historians this history of the third reich shows how the dramatic improbable rise of the nazis happened because of tragic miscalculations and blunders

then documents what life was like for ordinary germans as the nazis precipitated the horrors of world war ii and the holocaust

State of New York Supreme Court Appellate

Division 1934 learn how the united states can stop and reverse its relative economic decline in this fascinating analysis of american money credit and capital in the money revolution how to finance the next american century economist and bestselling author richard duncan lays out a farsighted strategy to maximize the united states unmatched financial and technological potential in compelling fashion the author shows that the united states can and should invest in the industries and technologies of the future on an unprecedented scale in order to ignite a new technological revolution that would cement the country s geopolitical preeminence greatly enhance human wellbeing and create unimaginable wealth in this book you will find an important new history of the federal reserve that details the transformation of the country s central bank from the passive lender of last resort created by its founders in 1913 into the world s most powerful economic institution today a fascinating discussion of the evolution of money and monetary policy in the united states over the past century an examination of the role that credit has played in generating economic growth especially since dollars

ceased to be backed by gold five decades ago a detailed description of the country s capital structure and its dangerous deficiencies an urgent call to action for the united states to begin a multi trillion dollar investment program targeting industries of the future the money revolution how to finance the next american century is a page turning read ideal for anyone interested in the future of the united states its gripping thesis offers anyone with a personal or professional interest in america s economy financial system or geopolitical position in the world an engrossing intellectual journey

The Age of Catastrophe 2022-03-25 this book examines the geography of partisan polarization or the reds and blues of the political landscape in the united states it places the current schism between democrats and republicans within a historical context and presents a theoretical framework that offers unique insights into the american electorate the authors focus on the demographic and political causes of polarization at the local level across space and time this is accomplished with the aid of a comprehensive dataset that includes the presidential election results for every county in the continental united states from the advent of jacksonian democracy in 1828 to the 2016 election in addition coverage applies

spatial diagnostics spatial lag models and spatial error models to determine why contemporary and historical elections in the united states have exhibited their familiar but heretofore unexplained political geography both popular observers and scholars alike have expressed concern that citizens are becoming increasingly polarized and as a consequence that democratic governance is beginning to break down this book argues that once current levels of polarization are placed within a historical context the future does not look quite so bleak overall readers will discover that partisan division is a dynamic process in large part due to the complex interplay between changing demographics and changing politics

Weimar Germany's Left-Wing Intellectuals

2010-05-15 hitler was one of the few
politicians who understood that persuasion was
everything deployed to anchor an entire regime
in the confections of imagery rhetoric and
dramaturgy the nazis pursued propaganda not
just as a tool an instrument of government but
also as the totality the raison d être the
medium through which power itself was
exercised moreover nicholas o shaughnessy
argues hitler not goebbels was the prime mover
in the propaganda regime of the third reich
its editor and first author under the reich
everything was a propaganda medium a building
block of public consciousness from typography
to communiqués to architecture to weapons
design there were groups to initiate rumours

and groups to spread graffiti everything could be interrogated for its propaganda potential every surface inscribed with polemical meaning whether an enemy city's name an historical epic or the poster on a neighbourhood wall but hitler was in no sense an innovator his ideas were always second hand rather his expertise was as a packager fashioning from the accumulated mass of icons and ideas the historic debris the labyrinths and byways of the german mind a modern and brilliant political show articulated through deftly managed symbols and rituals the reich would have been unthinkable without propaganda it would not have been the reich

Official Congressional Directory 1945 georges simenon 1903 1989 was a phenomenally successful author of crime fiction his 75 maigret novels and 28 maigret short stories were published between 1931 and 1972 to great international acclaim he is the only non anglophone crime writer to have achieved such renown his maigret stories are regarded by many as having established a new direction in crime fiction emphasizing social and psychological portraiture rather than focussing on a puzzle to be solved or on action this book examines the importance of social class and social change in the maigret stories giving a particular emphasis to the early formative novels and the development of

plot characterization and setting the author seeks to establish the extent to which simenon s portrait of french society is historically accurate and the nature of the influence of the author s own class position and ideology on his fiction
