**the doctor patient
relationship pmc national
center for Feb 17 2024**

we describe problems that exist and are said
to exist we promulgate principles for
safeguarding what is good and improving that
which requires remediation and we finish with
a brief discussion of practical ways that the
doctor patient relationship can be enhanced in
managed care

**new insights into possible
causes of male infertility
human Jan 16 2024**

male subfertility infertility is acknowledged
to contribute significantly to infertility
problems experienced by couples in some
instances morphological and or physiological
defects known to interfere with normal sperm
function can be identified

microbiological safety of drinking water united states and Dec 15 2023

to accurately assess risks from waterborne disease it is necessary to understand pathogen distribution and survival strategies within water distribution systems and to apply methodologies that can detect not only the presence but also the viability and infectivity of the pathogen
