by the mid nineteenth century britain celebrated its possession of a unique empire of liberty that propagated the rule of

private property free trade and free labor across the globe the british also knew that their empire had been built by conquering overseas territories trading slaves and extorting tribute from other societies set in the context of the early modern british empire colonial capitalism and the dilemmas of liberalism paints a striking picture of these tensions between the illiberal origins of capitalism and its liberal imaginations in metropolitan thought onur ulas ince combines an analysis of political economy and political theory to examine the impact of colonial economic relations on the development of liberal thought in britain he shows how a liberal self image for the british empire was constructed in the face of the systematic expropriation exploitation and servitude that built its transoceanic capitalist economy the resilience of britain s self image was due in large part to the liberal intellectuals of empire such as john locke edmund burke and edward gibbon wakefield and their efforts to disavow the violent transformations that propelled british colonial capitalism ince forcefully demonstrates that liberalism as a language of politics was elaborated in and through the political economic debates around the contested meanings of private property market exchange and free labor weaving together intellectual history critical theory and colonial studies this book is a bold attempt to reconceptualize the historical relationship between capitalism liberalism and empire in a way that continues to resonate with our present moment

dilemmas of allyship investigates the political phenomenon of social justice allyship in the form of white anti racism from a novel perspective the book argues that 21st century allyship is best understood as a set of socially mediated personal problems and challenges and that these problems and challenges furnish the material with which many allies identities are formed through an analysis of in depth interviews with white american anti racist activists dilemmas of allyship provides a picture of the ambivalent struggles with which allies grapple tracing the theoretically irreducible contradictions they regularly encounter these contradictions or dilemmas are central to the ongoing project of many white activists allyship presenting them again and again with challenges that test their authenticity and commitment the book also investigates how these same dilemmas can become practically reducible through a set of mitigating factors and strategies that intervene in and redefine allyship crises taken together these analyses present a picture of allyship rarely seen one of a lifestyle intrinsically marked by the kinds of challenges people typically avoid dilemmas of allyship takes allies on their own terms paying attention to the true ambivalence of their struggles refusing to reduce these experiences to mere success or failure

as a result it is able to contribute to discussions of identity politics and white fragility by presenting a clear picture of the existential stakes of allyship with this picture in hand we can better appreciate what challenges exist within the 21st century movement for racial justice and we can also learn something more fundamental about what it means to be a person in a contested conflictual social world

## **The Dilemmas of Choice 1985**

first published in 1980 street level bureaucracy received critical acclaim for its insightful study of how public service workers in effect function as policy decision makers as they wield their considerable discretion in the day to day implementation of public programs three decades later the need to bolster the availability and effectiveness of healthcare social services education and law enforcement is as urgent as ever in this thirtieth anniversary expanded edition michael lipsky revisits the territory he mapped out in the first edition to reflect on significant policy developments over the last several decades despite the difficulties of managing these front line workers he shows how street level bureaucracies can be and regularly are brought into line with public purposes street level bureaucrats from teachers and police officers to social workers and legal aid lawyers interact directly with the public and so represent the frontlines of government policy in street level bureaucracy lipsky argues that these relatively low level public service employees labor under huge caseloads ambiguous agency goals and inadequate resources when combined with substantial discretionary authority and the requirement to interpret policy on a case by case basis the difference between government policy in theory and policy in practice can be substantial and troubling the core dilemma of street level bureaucrats is that they are supposed to help people or make decisions about them on the basis of individual cases yet the structure of their jobs makes this impossible instead they are forced to adopt

practices such as rationing resources screening applicants for qualities their organizations favor rubberstamping applications and routinizing client interactions by imposing the uniformities of mass processing on situations requiring human responsiveness occasionally such strategies work out in favor of the client but the cumulative effect of street level decisions made on the basis of routines and simplifications about clients can reroute the intended direction of policy undermining citizens expectations of evenhanded treatment this seminal award winning study tells a cautionary tale of how decisions made by overburdened workers translate into ad hoc policy adaptations that impact peoples lives and life opportunities lipsky maintains however that these problems are not insurmountable over the years public managers have developed ways to bring street level performance more in line with agency goals this expanded edition of street level bureaucracy underscores that despite its challenging nature street level work can be made to conform to higher expectations of public service
