Community-Based Urban Development

2016-12-04

the book compares different approaches to urban development in singapore and seoul over the past decades by focusing on community participation in the transformation of neighbourhoods and its impact on the built environment and communal life singapore and seoul are known for their rapid economic growth and urbanisation under a strong control of developmental state in the past however these cities are at a critical crossroads of societal transformation where participatory and community based urban development is gaining importance this new approach can be seen as a result of a changing relationship between the state and civil society where an emerging partnership between both aims to overcome the limitations of earlier urban development the book draws attention to the possibilities and challenges that these cities face while moving towards a more inclusive and socially sustainable post developmental urbanisation by applying a comparative perspective to understand the evolving urban paradigms in singapore and seoul this unique and timely book offers insights for scholars professionals and students interested in contemporary asian urbanisation and its future trajectories

Manual of Romance Languages in Africa

2023-12-18

with more than two thousand languages spread over its territory multilingualism is a common reality in africa the main official languages of most african countries are indo european in many instances romance as they were primarily brought to africa in the era of colonization the areas discussed in this volume are thirty five states that were once ruled by belgium france italy portugal or spain and the african regions still belonging to three of them twenty six states are presented in relation to french four to italian six to portuguese and two to spanish they are considered in separate chapters according to their sociolinguistic situation linguistic history external language policy linguistic characteristics and internal language policy the result is a comprehensive overview of the romance languages in modern day africa it follows a coherent structure offers linguistic and sociolinguistic information and illustrates language contact situations power relations as well as the cross fertilization and mutual enrichment emerging from the interplay of languages and cultures in africa

introductory courses in linear algebra can be taught in a variety of ways and the order of topics offered may vary based on the needs of the students linear algebra with applications alternate eighth edition provides instructors with an additional presentation of course material in this edition earlier chapters cover systems of linear equations matrices and determinants the more abstract material on vector spaces starts later in chapter 4 with the introduction of the vector space \mathbb{R}^n this leads directly into general vector spaces and linear transformations this alternate edition is especially appropriate for students preparing to apply linear equations and matrices in their own fields clear concise and comprehensive the alternate eighth edition continues to educate and enlighten students leading to a mastery of the mathematics and an understanding of how to apply it new and key features of the alternate eighth edition updated and revised throughout with new section material and exercises included in every chapter provides students with a flexible blend of theory important numerical techniques and interesting relevant applications includes discussions of the role of linear algebra in many areas such as the operation of the google search engine and the global structure of the worldwide air transportation network a matlab manual that ties into the regular course material is included as an appendix these ideas can be implemented on any matrix algebra software package a graphing calculator manual is also included a student solutions manual that contain solutions to selected exercises is available as a supplement an instructor complete solutions manual containing worked solutions to all exercises is also available

Urban Transformations in Rio de Janeiro

2017-04-18

cities across the globe are looking to develop affordable environmentally friendly and socially responsible transportation solutions that can meet the accessibility needs of expanding metropolitan populations and support future economic and urban development when appropriately planned and properly implemented as part of a larger public transportation network urban rail systems can provide rapid mobility and vital access to city centers from surrounding districts high performing urban rail services when carefully approached as development projects can help enhance quality of life by giving citizens access to employment opportunities essential services urban amenities and neighboring communities the purpose of this handbook is to synthesize and disseminate knowledge to inform the planning implementation and operations of urban rail projects with a view towards emphasizing the need for early studies and project planning making projects more sustainable economically socially and environmentally improving socioeconomic returns and access to opportunities for users maximizing the value of private participation where appropriate and building capacity within project implementing and managing institutions this handbook provides experiential advice to tackle the technical institutional and financial challenges faced by decision makers considering urban rail projects it brings together the expertise of world bank staff and the input of numerous specialists to synthesize international good practices and recommendations that are independent of commercial financial political or other interests the material presented is intended as an honest broker guide to maximize the impact and manage the challenges of urban rail systems in cities in both developed and developing countries rather than identify a single approach this handbook acknowledges the complexities and context necessary when approaching an urban rail development by helping to prepare decision makers to ask the right questions

consider the key issues perform the necessary studies apply adequate tools and learn from international good practice all at the right time in the project development process
