vol. 4 2003 what is craft how is it different from fine art or design in a theory of craft howard risatti examines these issues by comparing handmade ceramics glass metalwork weaving and furniture to painting sculpture photography and machine made design from bauhaus to the memphis group he describes craft s unique qualities as functionality combined with an ability to express human values that transcend temporal spatial and social boundaries modern design today has taken over from craft the making of functional objects of daily use by employing machines to do work once done by hand understanding the aesthetic and social implications of this transformation forces us to see craft as well as design and fine art in a new perspective risatti argues without a way of understanding and valuing craft on its own terms the field languishes aesthetically being judged by fine art criteria that automatically deny art status to craft objects craft must articulate a role for itself in contemporary society says risatti otherwise it will be absorbed by fine art or design and its singular approach to understanding the world will be lost a theory of craft is a signal contribution to establishing a craft theory that recognizes defines and celebrates the unique blend of function and human aesthetic values embodied in the craft object

Applications Interface Programming Using Multiple Languages 1999-01-01 grounded in primary source research this boldly revisionist book examines the doctrine of salvation in oneness pentecostalism united pentecostal church from its origins through its several developmental stages the gradual rise of a literal interpretation of acts 2 38 eliminated a tradition of doctrinal diversity within oneness thought which regarded salvation as occurring at repentance prior to water and spirit baptism with this development a main link to the wider stream of evangelical christianity was severed the water and spirit theology resulted in a form of christianity which does not necessarily require the cross in any meaningful sense for salvation this study recovers the lost theological tradition associated with important figures such as howard a goss a d gurley w m greer c h tadon wynn t stairs earl jacques e p wickens john paterson and the pentecostal church incorporated combining traditional historical methodology and theological research with the principles of a broadly based oral history this study argues for a theological diversity within the history of oneness pentecostalism and in so doing bridges an important gap in the history and theology of the united pentecostal church
