The Library Bulletin of Cornell University 1886 this anthology of international scholarship offers new critical approaches to the study of the many manifestations of the paranormal in the middle ages the guiding principle of the collection is to depart from symbolic or reductionist readings of the subject matter in favor of focusing on the paranormal as human experience and essentially on how these experiences are defined by the sources the authors work with a variety of medieval icelandic textual sources including family sagas legendary sagas romances poetry hagiography and miracles exploring the diversity of paranormal activity in the medieval north this volume questions all previous definitions of the subject matter most decisively the idea of saga realism and opens up new avenues in saga research

Library Bulletin of Cornell University 1886 an analysis that offers evidence to challenge the widely held assumption that urbanization and environmental quality are necessarily at odds conventional wisdom about the environmental impact of cities holds that urbanization and environmental quality are necessarily at odds cities are seen to be sites of ecological disruption consuming a disproportionate share of natural resources producing high levels of pollution and concentrating harmful emissions precisely where the population is most concentrated cities appear to be particularly vulnerable to natural disasters to be inherently at risk from outbreaks of infectious diseases and even to offer dysfunctional and unnatural settings for human life in this book william meyer tests these widely held beliefs against the evidence borrowing some useful terminology from the public health literature meyer weighs instances of urban penalty against those of urban advantage he finds that many supposed urban environmental penalties are illusory based on commonsense preconceptions and not on solid evidence in fact greater degrees of urbanness often offer advantages rather than penalties the characteristic compactness of cities for example lessens the pressure on ecological systems and enables resource consumption to be more efficient on the whole meyer reports cities offer greater safety from environmental hazards geophysical technological and biological than more dispersed settlement does in fact the city defining characteristics widely supposed to result in environmental penalties do much to account for cities environmental advantages as of 2008 according to u n statistics more people live in cities than in rural areas meyer s analysis clarifies the effects of such a profound shift covering a full range of environmental issues in urban settings

"The" Library of Cornell University 1882 rising income inequality and concentrated poverty threaten the social sustainability of north american cities suburban growth endangers sensitive ecosystems water supplies and food security existing urban infrastructure is crumbling while governments struggle to pay for new and expanded services can our inherited urban governance institutions and policies effectively respond to these problems in shaping the metropolis zack taylor compares the historical development of american and canadian urban governance both at the national level and through specific metropolitan case studies examining minneapolis st paul and portland oregon in the united states and toronto and vancouver in canada taylor shows how differences in the structure of governing institutions in american states and canadian provinces cumulatively produced different forms of urban governance arguing that since the nineteenth century american state governments have responded less effectively to rapid urban growth than canadian provinces he shows that the concentration of authority in canadian provincial governments enabled the rapid adoption of coherent urban policies after the second world war while dispersed authority in american state governments fostered indecision and catered to parochial interests most contemporary policy problems and their solutions are to be found in cities shaping the metropolis shows that urban governance encompasses far more than local government and that states and provinces have always played a central role in responding to urban policy challenges and will continue to do so in the future

Chess Competitions, 1971-2010 2016-01-21 its outstanding feature is the inclusion of journal articles for more than 50 years

the periodicals have been indexed as well as compilations such as festschriften and the proceedings of congresses

Bulletin 1886 the present volume is the first anthology devoted to the icelandic theologian and religious author magnús eiríksson 1806 81 a forgotten contemporary of søren kierkegaard in golden age denmark with his remarkably modern views thoughts and ideas of society politics and religion eiríksson has taken on the role of a widely unknown pioneer in various contexts as early as in his debut book on baptists and infant baptism 1844 eiríksson made a name for himself as a devoted advocate of tolerance and freedom of thought and conscience in matters of religion although eiríksson s numerous and multifaceted writings provoked a wide spectrum of reactions by members of the danish society the central figures at that time constantly took care to avoid engaging eiríksson or his ideas in public debate and instead met him with lofty silence the present volume aims to end this silence which has continued after eiríksson s death and it marks the beginning of a serious discussion of eiríksson s works and ideas the articles featured in this anthology are written by international scholars from different fields with its strategic organization the collection covers the key topics of eiríksson s writings and provides insights into his historical cultural background understanding eiríksson s polemics with his copenhagen contemporaries such as hans lassen martensen henrik nicolai clausen n f s grundtvig and søren kierkegaard on some of the main theological issues of the day sheds light on the period as a whole and provides a new perspective on the complex and diverse discussions concerning religion in the golden age

Library Bulletin 1886 provides up to date profiles on the careers of leading and emerging poets

Paranormal Encounters in Iceland 1150-1400 2020-03-23 includes part 1 number 1 books and pamphlets including serials and contributions to periodicals january june

The Environmental Advantages of Cities 2013-03-15 provides a comprehensive and up to date review of the development of the science behind the psychology of false confessions four decades ago little was known or understood about false confessions and the reasons behind them so much has changed since then due in part to the diligent work done by gisli h gudjonsson this eye opening book by the icelandic british clinical forensic psychologist who in the mid 1970s had worked as detective in reykjavik offers a complete and current analysis of how the study of the psychology of false confessions came about including the relevant theories and empirical experimental evidence base it also provides a reflective review of the gradual development of the science and how it can be applied to real life cases based on gudjonsson s personal account of the biggest murder investigations in iceland s history as well as other landmark cases the psychology of false confessions forty years of science and practice takes readers inside the minds of those who sit on both sides of the interrogation table to examine why confessions to crimes occur even when the confessor is innocent presented in three parts the book covers how the science of studying false confessions emerged and grew to become a regular field of practice it then goes deep into the investigation of the mid 1970s assumed murders of two men in iceland and the people held responsible for them it finishes with an in depth psychological analysis of the confessions of the six people convicted written by an expert extensively involved in the development of the science and its application to real life cases covers the most sensational murder cases in iceland s history deep analysis of the reykjavik confessions adds crucial evidence to understanding how and why coerced internalized false confessions occur and their detrimental and lasting effects on memory the psychology of false confessions forty years of science and practice is an important source book for students academics criminologists and clinical forensic and social psychologists and psychiatrists

Shaping the Metropolis 2019-05-23 new music of the nordic countries describes the music of denmark finland iceland norway and sweden composed during the latter half of the twentieth century along with providing biographical material on most of the living nordic composers the book discusses in detail the major trends in scandinavian contemporary music as well as many of the recent musical works the 800 page volume is edited by john d white a former scholar to iceland and a fellow of the american scandinavian foundation white is the author of part iii new music in iceland and has enlisted five other distinguished nordic musical scholars to write the remaining sections of the book bound together philosophically geographically and to a significant extent ethnically the five nordic countries hold a unique place in today s world they are populated by talented creative achievers and each nation possesses its own special qualities this is certainly true in its

music yet little of nordic tone art of the late twentieth century is widely known outside of northern europe thus this comprehensive volume will serve a valuable purpose in disseminating knowledge about this important body of music literature *Catalogue: Authors* 1963 this encyclopedia is the first to compile pseudonyms from all over the world from all ages and occupations in a single work some 500 000 pseudonyms of roughly 270 000 people are deciphered here besides pseudonyms in the narrower sense initials nick names order names birth and married names etc are included the volumes 1 to 9 list persons by their real names in alphabetical order to make the unequivocal identification of a person easier year and place of birth and death are provided where available as are profession nationality the pseudonym under which the person was known and finally the sources used the names of professions given in the source material have been translated into english especially for this encyclopaedia in the second part covering the volumes 10 to 16 the pseudonyms are listed alphabetically and the real names provided approx 500 000 pseudonyms of about 270 000 persons first encyclopedia including pseudonyms from all over the world all times and all occupations essential research tool for anyone wishing to identify persons and names for his research within one single work

Magnús Eiríksson 2017-03-06 a cumulative index to biographical material in books and magazines

International Who's Who in Poetry 2004 2003 annotated selected list of florals and floristic works relating to vascular plants including bibliographies and publications dealing with useful plants and vernacular names

New Pseudonyms and Nicknames 1981 the routledge handbook of european sociology explores the main aspects of the work and scholarship of european sociologists during the last sixty years 1950 2010 a period that has shaped the methods and identity of the sociological craft european social theory has produced a vast constellation of theoretical landscapes with a far reaching impact at the same time there has been diversity and fragmentation the influence of american sociology and the effect of social practice and transformations the guiding question is does european sociology really exist today and if the answer is positive what does this really mean divided into four parts the handbook investigates intellectual and institutional settings regional variations thematic variations european concerns the handbook will provides a set of state of the art accounts that break new ground each contribution teasing out the distinctively european features of the sociological theme it explores it will be of interest to students and scholars across the social sciences and humanities

Catalog of Copyright Entries. Third Series 1959 this book offers a systematic exploration of the role of religion and religiosity in electoral politics in catholic protestant and religiously mixed countries across western europe and in the united states the chapters approach the relationship between religion religiosity and electoral behaviour from a variety of different angles they include analyses of secularization trends comparative studies of the links between vote choice and religiosity longitudinal single country studies and a novel discussion of the theoretical underpinnings of the politicization of religion that provides a radically new framework for the analysis of the role of religiosity in election studies the volume shows that despite the expectations of secularization theory religiosity remains relevant when casting votes it also argues that the traditional notion of religious cleavages should be replaced with the more accurate idea of religious voting chapters draw on national election studies data and comparative datasets such as european values studies evs european social surveys ess and european election studies ees to empirically test expectations regarding religious voting the results show that variations in religious voting are conditional on both the agency of political and ecclesiastical leaders when politicizing religious issues and the legacies of previous societal and political religious conflicts regardless of whether the original party system had a predominant religious cleavage

The Psychology of False Confessions 2018-04-24 vol 14 no 5 may 1926 is special issue devoted to john ericsson

New Music of the Nordic Countries 2002 this 2007 book analyzes how why and when pre modern europeans documented their marriages through property deeds marital settlements dotal charters church court depositions wedding liturgies and other indicia of marital consent the authors consider both the function of documentation in the process of marrying and what the surviving documents say about pre modern marriage and how people in the day understood it drawing on archival evidence from classical rome medieval france england iceland and ireland and renaissance florence douai and geneva the volume provides a rich interdisciplinary analysis of the range of marital customs laws and practices in western christendom the chapters include

freshly translated specimen documents that bring the reader closer to the actual practice of marrying than the normative literature of pre modern theology and canon law

Enciclopedia Internacional de Pseudónimos 2006 english summary

Biography Index 1949 includes entries for maps and atlases

Scientific and Technical Aerospace Reports 1990 this volume celebrates the 50th anniversary of the universal declaration of human rights udhr in so doing it offers a comprehensive and systematic treatment of the rights and duties contained in the udhr in the light of its history the intentions of its drafters and the standard setting activities and monitoring efforts which have grown out of its existence each article of the udhr is treated in a separate chapter each chapter is written by different authors all scholars from or associated with the nordic countries all active in human rights work either academically or in the field a consolidated bibliography completes the collection the subtitle of this volume is a common standard of achievement a phrase drawn from the preamble of the udhr in many ways this collection is intended to demonstrate that this phrase has to a considerable extent come true
