Evaluation of the Zimbabwe Livelihoods and Food Security Programme

2022-06-24

this report presents the results of the evaluation of the zimbabwe livelihoods and food security programme lfsp gcp zim 025 uk implemented by the food and agriculture organization of the united nations fao between 2013 and 2021 the programme sought to contribute to poverty reduction by actively addressing the specific constraints that smallholder farmers particularly women faced in raising the productivity of their farms and participating in markets

Spore 195: Smart farming - Transforming Agriculture with Artificial Intelligence

2019-12-01

transforming agriculture with artificial intelligence at a time where the world needs to produce more with fewer resources artificial intelligence ai could help to transform agriculture worldwide spore is the quarterly magazine of the technical centre for agricultural and rural cooperation cta offering a global perspective on agribusiness and sustainable agriculture cta operates under the cotonou agreement between the countries of the africa caribbean and pacific acp group and the european union and is financed by the eu

Language and Identity in a Multilingual, Migrating World

2023-02-20

multilingualisms vary given such variation how can those from essentially mono chromatic monolingual backgrounds begin to appreciate the colorful multilingual realities of the majority world this question led to the symposium language and identity in a multilingual migrating world may 10 15 2018 in penang malaysia this resulting four part collection of papers j stephen quakenbush

Shifting Mobility

2023-12-01

in the face of resource depletion environmental changes lifestyle changes demographic and digital adaptation old ideologies of

city building and expensive and complex automobility solutions are in freefall these changes are creating severe friction between the old and new paradigms this book provides new perspectives through the process of ideological disassociation and concepts of human mobility code the basic premise of the book human mobility is an essential component of our creativity that comes from our unconscious desire to become a part of a community several new concepts in the book starts with the hallmark of new discovery of human mobility code and its implications of urban mobility boundary systems to stay within safe planetary zone a new discovery of human mobility code from comprehensive research finding prove that each individual develops a unique mobility footprint and become our mobility identity beyond individual hallmarks human develops collective mobility codes through interaction with the third space on which entire mobility systems lie and are created by the fundamentals of city planning and the design process readers are introduced to an innovative mobility planning process and reinvention of multimodal mobility approaches based on new mobility code while formulating new concepts practical solutions and implementation techniques tools policies and processes to reinforce low carbon mobility options while addressing social equity environmental and health benefits finally the book arms us with knowledge to prevent the disaster of full technological enlightenment against our natural human mobility code

a compelling argument that the extractive practices of today s tech giants are the continuation of colonialism and a crucial guide to collective resistance large technology companies like meta amazon and alphabet have unprecedented access to our daily lives collecting information when we check our email count our steps shop online and commute to and from work current events are concerning both the changing owners and names of billion dollar tech companies and regulatory concerns about artificial intelligence underscore the sweeping nature of big tech s surveillance and the influence such companies hold over the people who use their apps and platforms as trusted tech experts ulises a mejias and nick couldry show in this eye opening and convincing book this vast accumulation of data is not the accidental stockpile of a fast growing industry just as nations stole territories for ill gotten minerals and crops wealth and dominance tech companies steal personal data important to our lives it s only within the framework of colonialism mejias and couldry argue that we can comprehend the full scope of this heist like the land grabs of the past today s data grab converts our data into raw material for the generation of corporate profit against our own interests like historical colonialism today s tech corporations have engineered an extractive form of doing business that builds a new social and economic order leads to job precarity and degrades the environment these methods deepen global inequality consolidating corporate wealth in the global north and engineering discriminatory algorithms promising convenience connection and scientific progress tech companies enrich themselves by encouraging us to relinquish details about our personal interactions our taste in movies or music and even our health and medical records do we have any other choice data grab affirms that we do to defy this new form of colonialism we will need to learn from previous forms of resistance and work together to imagine entirely new ones mejias and couldry share the stories of voters workers activists and marginalized

communities who have successfully opposed unscrupulous tech practices an incisive discussion of the digital media that s transformed our world data grab is a must read for anyone concerned about privacy self determination and justice in the internet age
