works explains how surrealist paintings and poems employed mythology gnostic principles tarot voodoo alchemy and other hermetic sciences to seek out unexplored regions of the mind and recover lost psychic and magical powers provides many examples of esoteric influence in surrealism such as how picasso s demoiselles d avignon was originally titled the bath of the philosophers not merely an artistic or literary movement as many believe the surrealists rejected the labels of artist and author bestowed upon them by outsiders accepting instead the titles of magician alchemist or in the case of leonora carrington and remedios varo witch their paintings poems and other works were created to seek out unexplored regions of the mind and recover lost psychic and magical powers they used creative expression as the vehicle to attain what andré breton called the supreme point the point at which all opposites cease to be perceived as contradictions this supreme point is found at the heart of all esoteric doctrines including the great work of

alchemy and enables communication with higher states of being drawing on an extensive range of writings by the surrealists and those in their circle of influence patrick lepetit shows how the surrealists employed mythology gnostic principles tarot voodoo and alchemy not simply as reference points but as significant elements of their ongoing investigations into the fundamental nature of consciousness he provides many specific examples of esoteric influence among the surrealists such as how picasso s famous demoiselles d avignon was originally titled the bath of the philosophers how painter victor brauner drew from his father s spiritualist vocation as well as the kabbalah and tarot and how doctor and surrealist author pierre mabille was a freemason focused on finding initiatory paths where it is possible to feel a new system connecting man with the universe lepetit casts new light on the connection between key figures of the movement and the circle of adepts gathered around fulcanelli he also explores the relationship between surrealists and freemasonry martinists and the elect cohen as well as the grail mythos and the arthurian brotherhood techniques technologies and applications the arts and sciences of interrogating criminal suspects their victims and the witnesses to their crimes sounds exciting donâ t it adâ verâ saÂ â ial â œooooooooh â kindâ a gets you all tingly wow and doesnâ t it just set you to thinking about gladiators locked in the deadly dance of hand to hand combat secrets takes you through the entire process of interrogation from start to finish but if you were expecting â waterboardingâ and other inefficient methods of torture â forget it the adversarial interview not only works but itâ s legal tombs are sealed shut for a reason opening them can have terrifying consequences john tolworth is delighted when he is hired to help investigate a collection of mummified bodies found in the notorious gold tomb in egypt not only is he intrigued by the work but the collection is stored in an ancient castle in devon where john spent his childhood he looks forward to revisiting the area and to showing his family the place he grew up but when john and his family arrive at baverstock castle john starts to remember things things he had forgotten what happened the last time he was there and why is philip kemmis the former owner of the castle and john s childhood companion now a raving madman as the mummified bodies begin to reveal their ancient secrets john begins to think the unthinkable this is the first full translation of marino sanudo torsello s secreta fidelium crucis to be made into english the work itself is a piece of crusading propaganda following the fall of acre in 1291 written between 1300 and 1321 but it includes much of historical relevance along with interesting observations on the early history of jerusalem and the crusader kingdom the translation is based upon the text edited by jacques bongars in 1611 there is an introduction that contextualises the book its author his sources and his audience the notes provide essential information to clarify internal textual references and allusions as well as the role of biblical references in sanudo s grand design the index is designed to make this detailed text usable and accessible in this his major work sanudo advocated the conquest of egypt as the means to regain jerusalem for the latins and worked through his points with considerable detail alongside references to 13th century mediterranean history especially involving louis ix of france and charles of anjou king of naples books i and ii give considerable detailed discussion of the concept plan and costs of his proposed crusade book iii provides an outline history of the crusades and the crusader states it is derived from a wide reading of other sources especially of william of tyre and for events after 1184 on the eracles the letters of james of vitry and sanudo s own experiences in the east throughout the work contains a staggering amount of cartographical ethnographical geographical and nautical information as well as numerous unique insights into historical events and personalities of the late 13th century not only in outremer but in western europe
