practitioners of modern western magic by exploring how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview starting with an introduction to the study of magic in the western academy the book then presents the author's own participant observation of five ethnographic case studies of modern western magic the focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self-legitimise and self-represent as magicians it concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic this is a unique insight into the lived experience of practitioners of modern magic as such it will be of keen interest to aleister crowley introduced for the first time by one of the world's leading experts on western esoteric traditions stephen skinner *do what thou wilt* written in the early twentieth century the four books contained within this collection make up one of the most complete and groundbreaking works on the practice of magick ever written they are considered to be the masterpiece of occultist magician and philosopher aleister crowley and the core texts for the religion of thelema their influence on alternative western thought and philosophy cannot be exaggerated also known as *book four* or *liber aba* the four parts bring together many rituals received texts theorems and unequalled insights into the practice of magick culminating in the *book of the law* the central sacred text dictated to crowley by a preternatural entity anyone interested in yoga ceremonial magic esoteric thought invocation divination and beyond or those looking to delve into the fascinating playful and illuminating writings of a unique man will find inspiration for the first time one of the world's leading experts on western esoteric traditions and magic dr stephen skinner introduces the text sharing his insights into crowley's take on yoga ceremonial magick and thelema his long involvement with magick both as an academic and as a practitioner enabled dr skinner to highlight the differences between the psychological and the spirit-orientated approaches to magick and to show how that dilemma shaped crowley's practice and his founding of thelema enlightening the reader to many previously unknown connections explore lovecraft's deep connections to the dark arts modern practicing occultists have argued that renowned horror writer h p lovecraft was in possession of in-depth knowledge of black magick literary scholars claim that he was a master of his genre and craft and his findings are purely psychological nothing more was lovecraft a practitioner of the dark arts himself was he privileged to knowledge that cannot be otherwise explained weaving the life story of lovecraft in and out of an analysis of various modern magickal systems scholar john l steadman has found direct and concrete examples that demonstrate that lovecraft's works and specifically his *cthulhu* mythos and his creation of the *necronomicon* are a legitimate basis for a working magickal system whether you believe lovecraft had supernatural powers or not no one can argue against lovecraft's profound influence on many modern black arts and the darker currents of western occultism founded upon the revolutionary premise that high magick can be distilled to a few powerful and efficient steps louis t culling's original edition of this classic magick book broke all the rules llewellyn is proud to present an updated and expanded edition of this pioneering work the *g b g* or *great brotherhood of god* was a magickal order founded by acclaimed magician *frater genesthai* louis t culling one of the initial members of the *g b g* in california was instructed by *genesthai* to reveal the order's magickal curriculum when the time was right carl llewellyn weschcke publisher of culling's original edition of this book offers illuminating commentary definitions and discussion points to render these profound magickal philosophies and practices even more accessible and relevant for contemporary magickal practice this new edition is also an interesting philosophical commentary answering a number of questions about historical occult orders and figures like aleister crowley the techniques fundamental principles do what thou wilt shall be the whole of the law and love is the law love under will lon milo duquette this volume is the first comprehensive examination of one of the twentieth century's most distinctive iconoclasts aleister crowley 1875 1947 was a study in contradictions born into a fundamentalist christian family and educated at cambridge he was vilified as a traitor drug addict and debaucher yet revered as perhaps the most influential thinker in contemporary esotericism moving beyond the influence of contemporary psychology and the modernist understanding of the occult crowley declared himself the revelator of a new age of individualism crowley's occult bricolage magick was an eclectic combination of spiritual exercises drawn from western european magical ceremonies and indic sources for meditation and yoga this journey of self liberation culminated in harnessing sexual power as a magical discipline a sacralization of the self as practiced in crowley's mixed masonic group the ordo templi orientis the religion crowley created thelema legitimated his role as a charismatic revelator and herald of a new age of freedom aleister crowley's lasting influence can be seen in the counter culture movement of the late 1960s and early 1970s and in many forms of alternative spirituality and popular culture the essays in this volume offer crucial insight into crowley's foundational role in the study of western esotericism new religious movements and sexuality note this is the paperback edition fresh fever from the skies the collected writings topics on thelema magick aleister crowley and the occult many of his writings have not been available in published form previously and now they are all collected together in fresh fever from the skies this volume is a multidisciplinary peer reviewed print publication covering all areas of magic witchcraft paganism and all geographical regions and all historical periods in the conventional dichotomy of chaste pure madonna and libidinous whore the former has usually been viewed as the ideal form of femininity however there is a modern religious movement in which the negative stereotype of the harlot is inverted and exalted the eloquent blood focuses on the changing construction of femininity and feminine sexuality in interpretations of the goddess babalon a central deity in thelema the religion founded by the notorious british occultist aleister crowley 1875 1947 babalon is based on crowley's favorable reinterpretation of the biblical whore of babylon and is associated with liberated female sexuality and the spiritual ideal of passionate union with existence analyzing historical and contemporary written sources qualitative interviews and ethnographic fieldwork in the anglo american esoteric milieu the study traces interpretations of babalon from the works of crowley and some of his key disciples including the rocket scientist john jack whiteside parsons and the enigmatic british occultist kenneth grant until the present from the 1990s onwards this study shows female and lgbtq esotericists have challenged historical interpretations of babalon drawing on feminist and queer thought and conceptualizing femininity in new ways tracing the trajectory of a particular gendered symbol from the fin de si cle until today manon hedenborg white explores the changing role of women in western esotericism and shows how evolving constructions of gender have shaped the development of esotericism combining research on historical and contemporary western esotericism with feminist and queer theory the book sheds new light on the ways in which esoteric movements and systems of thought have developed over time in relation to political movements the western magical traditions are currently undergoing an international resurgence in stealing fire from heaven neville drury offers an overview of the modern occult revival and seeks to explain this growing interest in ancient magical belief systems gnosticism and the hermetica the medieval kabbalah tarot and alchemy and more recently rosicrucianism and freemasonry collectively laid the basis for the modern magical revival which first began to gather momentum in europe at the end of the nineteenth century western magic has since become increasingly eclectic drawing on such diverse sources as classical greco roman mythology celtic cosmology kundalini yoga and tantra shamanism chaos theory and the various spiritual traditions associated in many different cultures with the universal goddess drury traces the rise of various forms of magical belief and practice from the influential hermetic order of the golden dawn to the emergence of wicca and goddess worship as expressions of contemporary feminine spirituality he also explores chaos magick and the occult practices of the so called left hand path as well as twenty first century magical forays into cyberspace he believes that the rise of modern western magic stems

essentially from the quest for personal spiritual transformation and direct experience of the sacred a quest which the trance occultist and visionary artist austin osman spare once referred to as stealing fire from heaven considered in this light drury argues modern western magic can be regarded as a form of alternative spirituality in which the practitioners seek direct engagement with the mythic realm this volume brings together key findings of the long term research project religious individualisation in historical perspective max weber centre for advanced cultural and social studies erfurt university combining a wide range of disciplinary approaches methods and theories the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods in particular in asia the mediterranean and europe from antiquity to the recent past contrary to standard theories of modernisation which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially western or christian phenomenon the chapters reveal processes of religious individualisation in a large variety of non western and pre modern scenarios furthermore the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency the pluralisation of religious options dynamics of de traditionalisation and privatisation the development of elaborated notions of the self the facilitation of religious deviance and on the notion of dividuality over 3000 authoritative cross referenced entries covering magical traditions from all around the world a practical and in depth manual on
