in 1631 at the epicenter of the worst excesses of the european witch hunts friedrich spee a jesuit priest published the cautio criminalis a book speaking out against the trials that were sending thousands of innocent people to gruesome deaths spee who had himself ministered to women accused of witchcraft in germany had witnessed firsthand the twisted logic and brutal torture used by judges and inquisitors combined these harsh prosecutorial measures led inevitably not only to a confession but to denunciations of supposed accomplices spreading the circle of torture and execution ever wider driven by his priestly charge of enacting christian charity or love spee sought to expose the flawed arguments and methods used

by the witch hunters his logic is relentless as he reveals the contradictions inherent in their arguments showing there is no way for an innocent person to prove her innocence and he questions if the condemned witches truly are guilty how could the testimony of these servants and allies of satan be reliable speaks insistence that suspects no matter how heinous the crimes of which they are accused possess certain inalienable rights is a timeless reminder for the present day the *cautio criminalis* is one of the most important and moving works in the history of witch trials and a revealing documentation of one man's unexpected humanity in a brutal age marcus hellyer's accessible translation from the latin makes it available to english speaking audiences for the first time studies in early modern german history
