in the era of covid 19 many people have suffered
high levels of stress and mental health problems
to cope with the widespread of suffering physical
psychological social and economical the positive
psychology of personal happiness is no longer the
sole approach to examine personal wellbeing other
approaches such as viktor frankl s theory of self
transcendence provide a promising framework for
research and intervention on how to achieve
resilience wellbeing and happiness through
overcoming suffering and self transcendence the
existential positive psychology of suffering
complements the positive psychology of happiness
which is championed by martin seligman as two
equal halves of the circle of wellbeing and
optimal mental health this research  **New perspectives on the history and**
topical history **examining the different approaches to positive and**
psychology and their influence on individual
wellbeing during the covid 19 era one of the
exciting developments in the positive psychology of
wellbeing is the mounting research on the adaptive
benefits of negative emotions such as shame guilt
and anger as well as the dialectical process of
