Lekstugan 1897 dance has been connected to the practices and ideologies that have shaped notions of a nordic region for more than a century and it is ingrained into the culture and society of the region this book investigates different dance phenomena that have either engaged with or dismantled notions of nordicness looking to the motion of dancers and dance forms between different locations organizations and networks of individuals its authors discuss social dancing as well as historical processes associated with collaborations in folk dance and theatre dance they consider how similarities and differences between the nordic countries may be discerned for instance in patterns of reception at the arrival of dance forms from outside the nordic countries and vice versa how dance from the nordic countries is received in other parts of the world as seen for example in the nordic cool festival at the kennedy centre in 2013 the book opens a rare window into nordic culture seen through the prism of dance while it grants the reader new insights into the critical role of dance in the formation and imagining of a region it also raises questions about the interplay between dance practices and politics

Folkdans inom folkdansrörelsen, folklig dans? 1990 lions of the north explores the ways anti immigrant anti liberal activists in the nordic countries are transforming their identities through music focusing on the role of new music in their attempts to escape association with skinhead hooliganism and forge alternative reputations as refined activists author benjamin teitelbaum not only exposes the dynamic relationship between music and politics but also the ways radical nationalism is adapting to succeed in some of the most liberal societies in the world

Finlands svenska folkdiktning, VI: Folkdans, A: Instrumentalmusik 1975 from folk devils to ballroom dancers waltzing through europe explores the changing reception of fashionable couple dances in europe from the eighteenth century onwards a refreshing intervention in dance studies this book brings together elements of historiography cultural memory folklore and dance across comparatively narrow but markedly heterogeneous localities rooted in investigations of often newly discovered primary sources the essays afford many opportunities to compare sociocultural and political reactions to the arrival and practice of popular rotating couple dances such as the waltz and the polka leading contributors provide a transnational and affective lens onto strikingly diverse topics ranging from the evolution of romantic couple dances in croatia and strauss s visits to hamburg and altona in the 1830s to dance as a tool of cultural preservation and expression in twentieth century finland waltzing through europe creates openings for fresh collaborations in dance historiography and cultural history across fields and genres it is essential reading for researchers of dance in central and northern europe while also appealing to the general reader who wants to learn more about the vibrant histories of these familiar dance forms

Folkdanser. I. Norden 1981 the tenth edition of dance a while continues the 65 year legacy of a textbook that has proven to be the standard of all recreational dance resources the authors have poured decades of experience and knowledge onto its pages providing a wealth of direction on american square contra international and social dance each chapter is packed with expertly written instruction coupled with clear and detailed diagrams and informative history to provide students with well rounded training on over 260 individual dances the book also contains a music cd to allow for convenience when practicing outside of the classroom helping to make it an invaluable resource for students of dance at all levels

Dansbeskrivningar 1938 there is great concern nowadays regarding the character and position of university studies all over europe as the result of a possible coordination of university studies within this context the subject of this book is the teaching and research activities of universities and other european institutions in the field of church state relations four university scholars basdevant gaudemet puza kotiranta and garcia pardo report along similar lines on the situation of university studies in this field in the different countries of the european union the first report also contains a historical description of the origins and development of the university studies of church state relations
