The Federal Dredge Permitting Process and Its Effect on Ports of the Gulf Coast Region 1994

special edition of the federal register containing a codification of documents of general applicability and future effect with ancillaries

Monthly Catalog of United States Government Publications 1994

heat flow estimates at two sites on the u s atlantic continental margin are presented an estimate of the heat flowing from the basement also has been obtained about 4 8 km of sediments penetrated at the cost b 2 and 4 0 km at the cost b 3 were deposited since the upper jurassic well logs were used to evaluate thermal gradients and sedimentation rates whereas thermal conductivities and radiogenic heat productions were measured on drill cuttings samples a procedure to estimate in situ thermal conductivity from drill cuttings and well logs is described a substantial set of samples in the form of drill cuttings were sorted in four major lithologies sandstones siltstones shales and limestones laboratory measurements of density porosity thermal conductivity quartz potassium uranium ppm and thorium ppm were performed on 128 reorganized and pulverized samples a significant correlation of the matrix thermal conductivity to quartz and potassium content was found in situ porosity and volume fraction of each lithology determined mainly from well logs were used to calculate in situ mean thermal conductivity finally the mean in situ vertical component of the thermal conductivity as required for heat flow values has been estimated from a correction factor for the anisotropy of each lithology the in situ temperature and anisotropy effects substantially decrease estimates of thermal conductivity at depth below the uppermost 1 km in both wells the best estimate of the thermal gradient is 26 3 c km 1 at cost b 2 and 26 1 c km 1 at cost b 3 whereas in situ mean thermal conductivities range between about 1 8 and 1 9 w m 1 k 1 4 3 4 5 t c u the average heat flow is estimated as about 45 mwm 2 1 07 h f u at cost b 2 and 44 mwm 2 1 06 h f u at cost b 3 with an uncertainty of about 20 25 the mean radiogenic production in sediments at the two sites has been estimated as 1 83 cost b 2 and 1 44 cost b 3 10 6wm 3 with a 12 14 km thick sedimentary sequence a radioactive contribution of 20 25 mwm 2 can be expected the effects of sediment deposition compaction pore water advection and radiogenic heat production have been combined in a numerical model hutchison 1985 to estimate the undisturbed basement heat flux although the sedimentation depresses the basement heat flux by 15 20 this effect is more than compensated by radioactive heat production in the sediments so that the surface flux is estimated to be higher than that from the basement the latter is calculated at about 33 39 mwm 2 0 8 0 9 h f u a relatively low value the overall uncertainty is about 20 25 and other estimates on continental margins with thick sediments e g reiter and jessop 1985 probably have at least a similar uncertainty

Resources in Education 1991-05

the code of federal regulations is the codification of the general and permanent rules published in the federal register by the executive departments and agencies of the federal government

EDS, Environmental Data Service 1975

parts 30 40 of title 46 of the code of federal regulations varies

Scientific and Technical Aerospace Reports 1977

diving scientific diving and diver safety are specialized subject areas not generally well represented in even the largest of academic libraries largely because of difficulties in locating appropriate items to include in the collection however in order to adequately fulfill his her responsibilities the diving safety officer of a scientific diving program needs easy access to a broad range of books reports and journals covering all aspects of diving this bibliography outlines a comprehensive collection appropriate to the needs of a scientific diving program in a research or academic institution items are grouped in broad subject areas corresponding to various aspects of the diving program both title and author indexes are also included

EPA Publications Bibliography 1991

includes part 1 number 2 books and pamphlets including serials and contributions to periodicals july december

Contract Appeals Decisions 1956

the congressional record is the official record of the proceedings and debates of the united states congress it is published daily when congress is in session the congressional record began publication in 1873 debates for sessions prior to 1873 are recorded in the debates and proceedings in the congress of the united states 1789 1824 the register of debates in congress 1824 1837 and the congressional globe 1833 1873

Impact of Open-water Disposal of Black Rock Harbor Dredged Material on Benthic Recolonization at the FVP Site 1987
