Survival Preppers Booby Trap Handbook 2017-04 preface by enrolling in this
self study course you have demonstrated a desire to improve yourself and the
navy remember however this self study course is only one part of the total navy
training program practical experience schools selected reading and your desire to
succeed are also necessary to successfully round out a fully meaningful training
program course overview in completing this nonresident training course you will
demonstrate a knowledge of the subject matter by correctly answering questions
on the following history and organization of the seabees and laws of war special
clothing and equipment service rifle and pistol marksmanship combat maneuvers
formations patrols and ambushes land navigation evasion survival and escape
individual protective measures entanglements chemical biological and
radiological cbr defense first aid and field sanitation grenades land mines and
booby traps organic support weapons m203 and machine guns and organic
support weapons 60 mm mortar and at4 the course this self study course is
organized into subject matter areas each containing learning objectives to help
you determine what you should learn along with text and illustrations to help you
understand the information the subject matter reflects day to day requirements
and experiences of personnel in the rating or skill area it also reflects guidance
provided by enlisted community managers ecms and other senior personnel
technical references instructions etc and either the occupational or naval
standards which are listed in the manual of navy enlisted manpower personnel
classifications and occupational standards navpers 18068 the questions the
questions that appear in this course are designed to help you understand the
material in the text value in completing this course you will improve your military
and professional knowledge importantly it can also help you study for the navy
wide advancement in rate examination if you are studying and discover a
reference in the text to another publication for further information look it up

Technical Manual 1943 customary international humanitarian law volume i rules
is a comprehensive analysis of the customary rules of international humanitarian
law applicable in international and non international armed conflicts in the
absence of ratifications of important treaties in this area this is clearly a
publication of major importance carried out at the express request of the
international community in so doing this study identifies the common core of
international humanitarian law binding on all parties to all armed conflicts

Enemy Land Mines and Booby Traps 1943 pocket manuals bring together a
wealth of information from a wide variety of training manuals and tactical
documents between 1964 and 1975 2 6 million american personnel served within
the borders of south vietnam during the vietnam war of whom an estimated 1 1 6
million actually fought in combat at the tip of the spear was the infantry the
grunts who entered an extraordinary tropical combat zone completely alien to the
world they had left behind in the united states in south vietnam and occasionally
spilling over into neighboring laos and cambodia they fought a relentless
counterinsurgency and conventional war against the north vietnamese army nva
and viet cong vc the terrain was as challenging as the enemy soaring mountains
or jungle choked valleys bleached sandy coastal zones major urban centers
riverine districts their opponents fought them with relentless and terrible
ingenuity with ambushes booby traps and mines then occasionally with full force
offensives on a scale to rival the campaigns of world war ii this pocket manual
draws its content not only from essential u s military field manuals of the vietnam
era but also a vast collection of declassified primary documents including rare
after action reports intelligence analysis firsthand accounts and combat studies
through these documents the pocket manual provides a deep insight into what it
was like for infantry to live survive and fight in vietnam whether conducting a
major airmobile search and destroy operation or conducting endless hot and
humid small unit patrols from jungle firebases the book includes infantry
intelligence documents about the nva and vc threats plus chapters explaining
hard won lessons about using weaponry surviving and moving through the jungle
tactical maneuvers and applications of the ubiquitous helicopter for combat and
support
