The Publishers' Trade List Annual 1896

for almost fifty years much has been written concerning mark 16 9 20 during the same time period evidence once counted against mark 16 9 20 was shown to be otherwise in this study david w hester surveys modern scholarship 1965 2011 surrounding the passage he examines the passage itself the external evidence with particular attention paid to the manuscripts and the patristics especially those of the second and third centuries and the internal evidence featuring details that are problematic as well as those that favor markan authorship finally a proposal concerning the origin of the passage is

presented the first edition of mark s gospel ended at 16 8 resulting in the manuscript tradition that omits the passage but this was not his intended ending later his associates attached mark s notes and published a second edition of the gospel with the last twelve verses this led to its inclusion given that the passage is cited by second and third century witnesses and attributed to mark along with the biblical prohibition against adding to or taking from scripture it is doubtful that an anonymous second century author could have been successful in adding his own composition and it being widely accepted by the early church

The Law Students' Journal 1889

the story of the woman taken in adultery features a dramatic confrontation between jesus and the pharisees over whether the adulteress should be stoned as the law commands in response jesus famously states let him who is without sin be the first to throw a stone at her to cast the first stone traces the history of this provocative story from its first appearance to its enduring presence today likely added to the gospel of john in the third century the passage is often held up by modern critics as an example of textual corruption by early christian scribes and editors yet a judgment of corruption obscures the warm embrace the story actually received jennifer knust and tommy wasserman trace the story s incorporation into gospel books liturgical practices storytelling and art overturning the mistaken perception that it was either peripheral or suppressed even in the greek east the authors also explore the story s many different meanings taken as an illustration of the expansiveness of christ s mercy the purported superiority of christians over jews the necessity of penance and more this vivid episode has invited any number of creative receptions this history reveals as much about the changing priorities of audiences scribes editors and scholars as it does about an original text of john to cast the first stone calls attention to significant shifts in christian book cultures and the enduring impact of oral tradition on the preservation and destabilization of scripture
