one of the least likely survivors of the jacobin purge of the national convention in early 1793 was jean baptiste louvet the author of the popular eighteenth century romance les amours du chevalier de faublas had it not been for the upheaval caused by the revolution in 1789 louvet undoubtedly would have continued to build his promising literary career few of his readers could have imagined that this frail young man would be elected as a deputy in the national assembly where he dared to oppose powerful jacobin leaders like robespierre his limited formal education and background as a bookstore clerk set louvet apart among his legally trained friends in the brissotin girondin faction yet his intelligence courage and loyalty led them to appreciate his skills and friendship louvet would be the only one among the group to survive the proscription of the girondins and life as a fugitive he returned to paris following the jacobins downfall in july 1794 to serve again in the national convention and then in the newly elected government of the directory

the cuban revolution of 1959 was a benchmark of triumph and a harbinger of tragedy to come rather than herald a new era of cuba joining the world community of nations as a paragon of democracy as many fervently hoped and believed it would it became instead a new stage in authoritarian rule in the western hemisphere for more than a half century since then cuba has been defined by the capacity of a single family to command and determine the fate of a nation and to do so with a minimum of opposition incredibly even those professing adhesion to democratic norms have been ready to forgive the dictator his excesses this volume explains the theory and practice of this absence of internal opposition and the persistence of external support for the castro family and its entourage the long night of dark intent is chronological in order with the author indicating major points in each of the five decades covered the volume covers five centers of system analysis economics politics society military and ideology who or what determines events and decisions is the stuff of real history it is precisely due to variability in causal chains in society that we have huge variance in levels of predictability the course of the cuban revolution gives strong support for such an approach to the castro era this is a unique unflinching account with a strong emphasis on the importance of u s policy decisions over time

the seventeenth century was one of the most dramatic periods in scotland s history with two political revolutions intense religious strife culminating in the beginnings of toleration and the modernisation of the state and its infrastructure this book focuses on the history that the scots themselves made previous conceptualisations of scotland s seventeenth century have tended to define it as falling between 1603 and 1707 the union of crowns and the union of parliaments in contrast this book asks how seventeenth century scotland would look if we focused on things that the scots themselves wanted and chose to do here the key organising dates are not 1603 and 1707 but 1638 and 1689 the covenanting revolution and the glorious revolution within that framework the book develops several core themes one is regional and local the book looks at the highlands and the anglo scottish borders the increasing importance of money in politics and the growing commercialisation of scottish society is a further theme addressed chapters on this theme like those on the nature of the scottish revolution also discuss central government and illustrate the growth of the state a third theme is political thought and the world of ideas the intellectual landscape of seventeenth century scotland has often been perceived as less important and less innovative and such perceptions are explored and in some cases challenged in this volume two stories have tended to dominate the

edmund burke's reflections on the revolution in france is considered by many to be a masterpiece of political analysis and a compelling rationale against the french revolution originally written as a letter in response to a young parisian and later expanded upon and published in book format in january 1790 the work has greatly influenced conservative and classic liberal intellectuals and stands as a powerful argument against violent revolutions lawlessness and unrest prior to 1790 burke was a well known member of the british house of commons and a vocal supporter of the american revolution his condemnation of the french revolution shocked many of his peers and supporters burke viewed the french revolution as a violent and chaotic war without any guiding ideology or respect for the rule of law and feared it would lead to a situation that was both dangerous and corrupt many of burke's predictions came true as the revolution devolved into bloodshed and anarchy with the reign of terror beginning in 1793 and then leading to the eventual military dictatorship of napoleon bonaparte burke's work stands as an enduring statement in support of tradition hereditary power property rights duty and the monarchy

harold j laski saw world war two as a period of revolutionary change as profound as any in the modern history of the human race in his view the period s inner nature was as significant in its essentials as those which saw the fall of the roman empire the birth in the reformation of capitalist society or as in 1789 the final chapter in the dramatic rise of the middle class to power all of these were not revolutions made by thinkers though some of them may have foreseen its coming but of ordinary people who shaped the large outlines of the direction of these changes laski held that revolutions of our time have been rooted in all that goes to give its present character to our society we can recognize its advent and prepare

for it in that event we might build a civilization richer and more secure than any of which we so far have knowledge or we may chose to resist its onset in which case it will appear to some future generation that our age has sought rather to sweep back the tides of the ocean than to oppose the decrees of men the curse of our social order is its persistent inequalities either we must find ourselves able to co operate in their removal or we shall move rapidly to conflict about them laski argues that the middle class must co operate with workers in essential revisions as the aristocracy was wise enough to do a century ago over the reform bill or violent revolution will be unleashed by means that transforms the ends of either party to the conflict in view this is the choice that lies before us just how accurate or wide of the mark laski was is brilliantly articulated in the critical introduction by sidney a pearson jr

it is nearly impossible to separate contemporary iranian cinema from the islamic revolution that transformed film production in the country in the late 1970s as the aims of the revolution shifted and hardened once khomeini took power and as an eight year war with iraq dragged on iranian filmmakers confronted new restrictions in the 1990s however the reformist movement led by mohammad khatami and the film industry developed an unlikely partnership that moved audiences away from revolutionary ideas and toward a discourse of reform in reform cinema in iran blake atwood examines how new industrial and aesthetic practices created a distinct cultural and political style in iranian film between 1989 and 2007 atwood analyzes a range of popular art and documentary films he provides new readings of internationally recognized films such as abbas kiarostami s taste of cherry 1997 and mohsen makhmalbaf s time for love 1990 as well as those by rakhshan bani masud kiami and other key iranian directors at the same time he also considers how filmmakers and the film industry were affected by larger political and religious trends that took shape during mohammad khatami s presidency 1997 2005 atwood analyzes political speeches religious sermons and newspaper editorials and pays close attention to technological developments particularly the rise of video to determine their role in democratizing filmmaking and realizing the goals of political reform he concludes with a look at the legacy of reform cinema including films produced under mahmoud ahmadinejad whose neoconservative discourse rejected the policies of reform that preceded him
