It's Time for Joy! 2016-06-23

in 1888 mark twain reflected on the writer s special feel for words to his correspondent george bainton noting that the difference between the almost right word and the right word is really a large matter we recognize differences between a politician who is willful and one who is willing even though the difference does not cross word stems or parts of speech we recognize that being held up evokes different experiences depending upon whether its direct object is a meeting a bank or an example although we can notice hundreds of examples in the language where small differences in wording produce large reader effects the authors of the power of words argue that these examples are random glimpses of a hidden systematic knowledge that governs how we as writers or speakers learn to shape experience for other human beings over the past several years david kaufer and his colleagues have developed a software program for analyzing writing called docuscope this book illustrates the concepts and rhetorical theory behind the software analysis examining patterns in writing and showing writers how their writing works in different categories to accomplish varying objectives reflecting the range and variety of audience experience that contiguous words of surface english can prime the authors present a theory of language as an instrument of rhetorically priming audiences and a catalog of english strings to implement the theory the project creates a comprehensive map of the speaker and writer s implicit knowledge about predisposing audience experience at the point of utterance the book begins with an explanation of why studying language from the standpoint of priming not just meaning is vital to non question begging theories of close reading and to language education in general the remaining chapters in part i detail the steps taken to prepare a catalog study of english strings for their properties as priming instruments part ii describes in detail the catalog of priming categories including enough examples to help readers see how individual words and strings of english fit into the catalog the final part describes how the authors have applied the catalog of english strings as priming tools to conduct textual research

The Speaker's Toolbox 2017-03-14

the dreams the fears the death of a son just breathe is the true journey of this author s personal tragedy it is a story of growth of lost dreams and new dreams realized of fighting to save a child through insurmountable odds it is a story of letting go and in the end instead of saving her son one mother is able to save herself
