this book considers the problem of providing maximum access to transport services and to roads for the rural population of the world s developing countries when limited funds are available access is a key factor in both social and economic development it promotes social intercourse and opens up markets for both the rural and urban populations access connotes the ability to travel and to transport goods the components of access include both the

Aeroplane and Commercial Aviation News

1957

this report assesses an array of transportation policies designed to reduce energy use and describes the intersection of these policies with general transportation problems such as congestion and air pollution the report describes the u s transportation system and its energy use presents and evaluates forecasts of energy use to 2010 compares and contrasts u s and european travel and energy use patterns discusses reasons governments may choose to intervene in transportation markets and describes and evaluates a range of policy options to reduce u s transport energy use from gasoline taxes to urban planning its objective is to provide a balanced qualitative perspective of issues and problems rather than a highly quantified analysis

the process of integrating multiple senses and media into computer systems accelerated recently this has broaden the applications of multimedia from the traditional areas of information organization presentation and learning to the new fields of simulation and virtual reality applications that have benefited from the introduction of multimedia include training demonstration of products for sales or inventory education computer aided design and engineering medicine weather and entertainment this volume is devoted to the discussion of effective modeling of multimedia information and systems for a wide range of applications it is perhaps the only book that devotes entirely to this important but much neglected topic

Bulletin of the International Railway Congress Association [English Edition]

1908

cch s u s master excise tax guide provides a thorough explanation of federal excise taxes and follows the style of the u s master tax guide this convenient reference serves as an indispensable resource for accountants and tax professionals who work in the increasingly important and complex area of excise taxes the new edition fully reflects changes brought about by recent tax legislation including the significant excise tax code changes made the tax relief and health care act of 2006 and the tax technical corrections act of 2007 as well as new regulations rulings and significant court decisions

Aero Digest

1948

working practices between the uk and welsh assembly governments in relation to cross border policies appear much improved since the committee s earlier reports on this subject but a number of outstanding issues remain in transport health and further and higher education on transport the committee welcomes the planned electrification of the great western main line however the department for transport appears to have washed its hands of any strategic responsibility for cross border roads the a483 is the clearest example of a road vital for travel within wales but which is not important to the english region in which it is located and as a result loses out on funding the committee stresses the need for comparative data on which to build solid research comparing nhs performance in the devolved nations more needs to be done to raise public awareness of the differences in services people can expect to receive on both sides of the border transparency of information is vital research proposals in the uk government s higher ambitions strategy for higher education make no reference to nations other than england despite the uk wide research remit of the department for business innovation and skills the committee calls for details about how research funding proposals apply to all four nations
