A master of realistic fiction, Leo Tolstoy is widely regarded as one of the world's greatest novelists. He is best known for his two longest works, *War and Peace* and *Anna Karenina*, commonly regarded as among the finest novels ever written. During his later years, Tolstoy also achieved world renown as a moral and religious teacher. His doctrine of non-resistance to evil had an important influence on Gandhi. Some viewed him as the embodiment of nature and pure vitality, others saw him as the incarnation of the world's conscience, while all regarded him as a living symbol of the search for life's meaning. This eBook presents Tolstoy's complete fictional works with numerous illustrations, rare texts, informative introductions, and the usual Delphi bonus material. Leo Strauss's Defense of the Philosophic Life

2013-01-04

born in rural hesse germany leo strauss 1899 1973 became
an active zionist and philosopher during the tumultuous and
fractious weimar republic as eugene r sheppard
demonstrates in this groundbreaking and engaging book
strauss gravitated towards such thinkers as franz rosenzweig
martin heidegger and carl schmitt as he sought to identify
and overcome fundamental philosophical political and
theological crises the rise of nazism impelled strauss as a
young jewish migr first in europe and then in america to
grapple with and accommodate his thought to the pressing
challenges of exile in confronting his own state of exile
strauss enlisted premodern jewish thinkers such as moes
maimonides and baruch spinoza who earlier addressed the
problem of reconciling their competing loyalties as
philosophers and jews this is the first study to frame strauss
s political philosophy around his critique of liberalism and the
problem of exile sheppard follows strauss from europe to the
united states a journey of a conservative weimar jew
struggling with modern liberalism and the existential and
political contours of exile strauss sought to resolve the

conflicts of a Jew unwilling to surrender loyalty to his ancestral community and equally unwilling to adhere to the strictures of orthodox observance Strauss saw truth and wisdom as transcending particular religious and national communities as well as the modern enlightened humanism in which he himself had been nurtured in his efforts to navigate between the Jewish and the philosophical the ancient and the modern Berlin and New York Strauss developed a distinctively programmatic way of reading and writing between the lines Sheppard recaptures the complexity and intrigue of this project which has been ignored by those who both reject and claim Strauss's legacy

the political philosophy of leo strauss has been the subject of significant scholarly and media attention in recent years particularly in the context of the decision to invade iraq in 2003 allegations that a group of strauss inspired neo conservatives intervened in the foreign policy establishment of the us in order to realise the policy of regime change began to emerge soon after the invasion and unanswered questions remain a decade later this book addresses these

claims focusing specifically on a group of straussians active in the spheres of intelligence production think tanks and the media during the period from the 9 11 attacks to the invasion in 2003 such an examination is intended not simply to identify and expose their activities promoting the policy of regime change in iraq during this period but also to challenge them and the straussian logics underpinning them utilising the thought of jacques derrida the book enacts a deconstructive challenge to strauss political philosophy which unsettles the fundamental assumptions it relies upon in doing so it exposes the securitising imperative underpinning straussian thought and the straussian interventions it thereby simultaneously addresses crucial issues in political theory and contemporary foreign policy studies while asserting that these dimensions of international politics can and should be dealt with in conjunction with each other this book would be of interest to students and scholars of global politics political theory security studies and us foreign policy and those outside the academy interested in neo conservatism and the 2003 invasion of iraq
