Life Between the Levees 2019-04-23 winner of the Donald T. Wright Award from the Herman T. Pott National Inland Waterways Library. A special collection of the St. Louis Mercantile Library. *Life Between the Levees* is a chronicle of first person reflections and folklore from pilots who have dedicated their lives to the river. The stories are as diverse as the storytellers themselves and the volume is full of drama, suspense, and a way of life a landlubber could never imagine. Although waterways and ports in the Mississippi Corridor move billions of dollars of products throughout the US and foreign markets in today's world, those who live and work on land have little knowledge of the river and the people who work there. In ten years of interviewing Melody Golding collected over one hundred personal narratives from men and women who worked and lived on brown water our inland waterways as a photographer she has taken thousands of photos of which 130 are included of the people and boats and the rivers where they spend their time. The book spans generations of river life. The oldest pilot was born in 1917 and the youngest in 1987 and includes stories from the 1920s to today. The stories begin with the pilots who were broke in by early steamboat pilots who were on the river as far back as the late 1800s. The early pilots in this book witnessed the transition from steamboat to diesel boat while the youngest grew up in the era of GPS and twenty-first century technology. Among many topics the pilots reflect movingly on the time spent away from home because of their career, a universal reality for all mariners as many pilots say when they talk about the river: I hate her when I'm with her and I miss her when I'm gone.

Bicentennial Times 1974 the Vicksburg Campaign November 1862 July 1863 continues the series of campaign brochures commemorating our national sacrifices during the American Civil War. Author Christopher R. Gabel examines the operations for the control of Vicksburg, Mississippi. President Abraham Lincoln called Vicksburg the key and indeed it was. As control of the Mississippi River depended entirely on the taking of this Confederate stronghold.

Ports of Natchez, Vicksburg, and Greenville, MS, and Ports on the Lower Mississippi River, Miles 255 to 620

AHP 1991 includes over 12 illustrations and 2 maps. The campaign for the control of Vicksburg was one of the most important contests in determining the outcome of the Civil War. As President Abraham Lincoln observed, Vicksburg is the key; the war can never be brought to a close until that key is in our pocket. The struggle for Vicksburg lasted more than a year and when it was over, the outcome of the Civil War appeared more certain. The centerpiece of the Vicksburg Campaign was

the mississippi river just as the great river is the centerpiece of the north american continent the mississippi and its tributaries drain over a million square miles of territory in the united states and canada these waterways included twenty thousand miles of navigable water extending from montana to pennsylvania and from minnesota to the gulf of mexico making possible the large scale settlement of the west between 1810 and 1860 the number of whites residing west of the appalachians swelled from one million to fifteen million thanks in large part to the availability of navigable waterways the black population mostly slaves grew from two hundred thousand to over two million concentrated along the mississippi the rivers of the mississippi basin provided an economic outlet for corn and hogs raised in iowa and ohio as well as the sugar and cotton grown on the great plantations of louisiana and mississippi by 1860 railroads were beginning to penetrate the region but access to these western rivers remained vital to the economy of both the midwest and the deep south

The Vicksburg Campaign 2013 for the first time an accomplished scholar offers a painstakingly researched examination of the united states involvement in deliberate disease spreading among native peoples in the military conquest of the west the speculation that the united states did infect indian populations has long been a source of both outrage and skepticism now there is an exhaustively researched exploration of an issue that continues to haunt u s native american relations barbara alice mann s *The Tainted Gift* the disease method of frontier expansion offers riveting accounts of four specific incidents the 1763 smallpox epidemic among native peoples in ohio during the french and indian war the cholera epidemic during the 1832 choctaw removal the 1837 outbreak of smallpox among the high plains peoples and the alleged 1847 poisonings of the cayuses in oregon drawing on previously unavailable sources mann s work is the first to give one of the most controversial questions in u s history the rigorous scrutiny it requires
