Encyclopedia of African Peoples 2013-11-26

africa is a vast continent home to many millions of people its history stretches back millennia and encompasses some of the most ancient civilizations in the world modern africa boasts a rich cultural heritage the legacy of many diverse influences from all around the world reflecting the central role african plays in world history encyclopedia of african peoples provides extensive information about africa s cultures history geography economics and politics it provides an invaluable overview of the whole continent region by region ethnic group by ethnic group nation by nation personality by personality sections include africa today the peoples of africa culture and history the nations of africa biographies past to present glossary index

Peoples of Africa 1965

a reference guide to the peoples of africa including both indigenous and immigrant groups featuring individual entries on each of sixty african nations with discussion of religion housing clothing language health and education food family and social life arts and music

The People of Africa 1975

the peoples of africa are neither ethnically culturally nor religiously homogeneous european colonial powers took little note of this reality in carving up the continent a fact reflected in the periodic outbreak of civil war since decolonialization likewise western european models of development whether in their liberal or marxist manifestations have so far failed to meet african development needs the path to stability in africa is through its people s character and goals almanac of african peoples and nations provides an essential guide to the major ethnic groups of the african continent highlighting the major contributions and basic features of each the almanac reviews africa s language families and their respective national and geographic concentrations explaining ethnic classification based on linguistic difference and including language groups that are not indigenous to africa the major african peoples are then listed by country with a statistical breakdown on their respective shares in the total population of each country and maps indicating their concentration the major section of the volume includes a comprehensive listing and descriptive profile of each ethnic national and tribal group detailing their history customs economic systems and political and social organizations the almanac points out as well which groups support revisionist political aspirations and shows the internal and external pressures they are subject to yakan notes that african societies are not highly integrated and must support multitudes of influential sub cultures with conflicting agendas and loyalties arguing that tribalism reflects africa s historical experience and cultural heritage he sees the resolution of the continent s problems in consociational democracy proportional representation federalism or some form of autonomous rule

Peoples of Africa 2001

routledge is proud to be re issuing this landmark series in association with the international african institute the series published between 1950 and 1977 brings together a wealth of previously un coordinated material on the ethnic groupings and social conditions of african peoples concise critical and for its time accurate the ethnographic survey contains sections as follows physical environment linguistic data demography history traditions of origin nomenclature grouping cultural features religion witchcraft birth initiation burial social political organization kinship marriage inheritance slavery land tenure warfare justice economy trade domestic architecture each of the 50 volumes will be available to buy individually and these are organized into regional sub groups east central africa north eastern africa southern africa west central africa western africa and central africa belgian congo the volumes are supplemented with maps available to view on routledge com or available as a pdf from the publishers

The Peoples of Africa 2021-09-09

this authoritative work examines 500 years of interaction between the races in a country that during the apartheid era became a byword for racial disharmony nelson mandela s release from prison in february 1990 was the defining moment in south africa s transition from apartheid to democracy but as this fascinating study shows the racial history of south africa is much more complex than a simple struggle between black and white how did south africa become a crossroads for peoples as diverse as the zulu the xhosa the dutch and the chinese did the end of apartheid really herald a new dawn in race relations or have the scars of those years yet to truly heal to answer these questions this timely volume examines south africa s ethnic history over 500 years from the earliest contacts between europeans and africans to the country s changing role in the post apartheid era this reference work traces the fascinating racial history of south africa before during and after the apartheid years

Peoples of South-West Ethiopia and Its Borderland 2019-01-02

this book consists mainly of accounts about the anthropology of black africa as it is today and as it has been during the past thirty years or so it is not about prehistoric or medieval africa nor about the traditional africa or pre colonial days about which we know very little due to lack of records not that the general life of the mass of africans would seem to have altered in its totality all that much since those days but of course it has changed often radically and irrevocably but this is as yet not easily noticeable throughout the continent its changes have various baselines some dating from the fifteenth century others from the second world war

West African Countries and Peoples 1969

the rapid changes taking place in central africa are reflected in the completely revised edition of this successful o level geography book

Most of the World 1952

this work focuses on the early years of independence and the problems african countries faced soon after the end of colonial rule many of those problems still exist today they include poverty and underdevelopment adoption of alien ideologies and economic and political systems structural flaws of the modern african state and its institutions inherited at independence nation building democratization national integration and ethnoregional rivalries among others it is also a historical study of the continent since the partition of africa by the imperial powers and of the struggle for independence it also focuses on the continent s demographic composition shedding some light on the complexity and diversity of the world s second largest continent the history of africa s indigenous peoples and their earliest contact with foreigners provides a background to

motorcycle fuel systems techbook all carburettor types along with fuel injection from the basic theory to practical tuning haynes techbook
~~this telescopic survey the sixties was one of the most important decades in the history of africa~~
and this work provides a balanced perspective on those years when africans celebrated the end of colonial rule on their continent it is a compact study covering a vast expanse of territory from the advent of imperial rule to the attainment of sovereign status for african countries during the sixties and the problems they faced in those years as a demographic portrait it excels in depicting the continent as a tapestry that reflects the racial diversity and multiethnic composition of this vast land mass the second largest after asia and as a historical and political analysis it addresses some of the most important issues in the post colonial era including the cold war with the congo figuring prominently in the analysis as the first theatre of combat and super power rivalry in the early sixties on the african continent the dawn of freedom provided opportunities and challenges for the young african nations as they tried to modernize and consolidate their independence in a world dominated by major powers and contending ideologies it was a rude awakening to the harsh realities of nationhood one of these was the desire by the major powers to turn african countries into client states as the two ideological camps east and west competed for world domination as julius nyerere warned we are not going to allow our friends to choose our enemies for us one of the most contentious grounds for this hegemonic control was of course the congo right in the middle of the continent it became the bleeding heart of africa as the country was turned into a combat theatre mainly between the surrogate forces of the west and the congolese nationalist forces supported by a number of african countries and by the soviet union and the people s republic of china the congo imbroglio since the turbulent sixties mainly as a result of foreign intrigue and intervention is one of the most important subjects addressed in this book and it raises serious questions that have profound implications even today for a continent mired in conflict this time ignited by the africans themselves in many but not in all cases yet prospects for the world s poorest and most embattled continent are not bleak if africans seek their own solutions to their own problems in this post cold war era of globalization dominated by the industrialized nations the book includes many photos from the early sixties the dawn of a new era when african countries won independence which oginga odinga described as not yet uhuru
