of international peace and security this book analyses resistance to security council resolutions and puts forward a theory of lawful resistance sufyan droubi takes a positivist approach to the un charter regarding it as a constitution special emphasis is placed on the construction of the charter s meaning through the practice of both organs and members of the un and on the need to enhance the effectiveness of the organization with due respect to the rule of law the book proposes that nonviolent resistance to a mandatory resolution of the security council on grounds that the latter is incompatible with the charter or jus cogens norms may be considered lawful under the charter if some elements are present in exploring a number of case studies of individual and collective state resistance to mandatory council resolutions the book proposes that resistance may function as a rudimentary instrument of accountability and protection of the charter and jus cogens in the absence of more mature mechanisms of judicial review the book will be of excellent use and interest to scholars and students of constitutional international law and international relations

national security at its simplest means the nation s control of its borders and the preservation of its territorial integrity including its airspace and territorial waters above all it means the protection of national institutions of governance and the freedom of the people without subversion infiltration and disruption on the other hand there can be no real national security without international security diplomacy is an instrument of establishing and maintaining the equilibrium of national and international security both diplomacy and national security have their roots in the conceptual scheme and operational aspects of sovereignty which is the hallmark of states national security and diplomacy are inextricably interwoven indeed defence and diplomacy the diplomat and the soldier have much in common except that their battle lines and locations their target areas their weapons and equipment and their strategies and tactics are distinct and are tackled differently diplomacy is the defence of one s country and its interests beyond its frontiers but in a sense diplomacy only an extension of national security the intelligence network of the country both within the country and overseas plays a vital role in both in diplomacy and for national security
