## Failure to Flourish

exploring the connection between families and inequality failure to flourish how law undermines family relationships argues that the legal regulation of families stands fundamentally at odds with the needs of families strong stable positive relationships are essential for both individuals and society to flourish but from transportation policy to the criminal justice system and from divorce rules to the child welfare system the legal system makes it harder for parents to provide children with these kinds of relationships exacerbating the growing inequality in america failure to flourish contends that we must re orient the legal system to help families avoid crises and when conflicts arise intervene in a manner that heals relationships to understand how wrong our family law system has gone and what we need to repair it failure to flourish takes us from ancient greece to cutting edge psychological research and from the chaotic corridors of local family courts to a quiet revolution under way in how services are provided to families in need incorporating the latest insights of positive psychology and social science research the book sets forth a new more emotionally intelligent vision for a legal system that not only resolves conflict but actively encourages the healthy relationships that are at the core of a stable society

## Divorced from Reality

2015-06-26

over the past thirty years there has been a dramatic shift in the way the legal system approaches and resolves family disputes traditionally family law dispute resolution was based on an adversary system two parties and their advocates stood before a judge who determined which party was at fault in a divorce and who would be awarded the rights in a custody dispute now many family courts are opting for a problem solving model in which courts attempt to resolve both legal and non legal issues at the same time american families have changed dramatically divorce rates have leveled off and begun to drop while the number of children born and raised outside of marriage has increased sharply fathers are more likely to seek an active role in their children s lives while this enhanced paternal involvement benefits children it also increases the likelihood of disputes between parents as a result the families who seek legal dispute resolution have become more diverse and their legal situations more complex in divorced from reality jane c murphy and jana b singer argue that the current problem solving model fails to address the realities of today s families

more adversary predecessor it is built largely around the model of a divorcing nuclear family with lawyers representing all parties a model that fits poorly with the realities of today s disputing families to serve the families it is meant to help the legal system must adapt and reshape itself

## Getting the Runaround

getting the runaround takes readers into the bureaucratic spaces of prisoner reentry examining how returning citizens navigate the institutional circuit of parole offices public assistance programs rehabilitation facilities shelters and family courts drawing on three years of ethnographic fieldwork and forty five in depth interviews with formerly incarcerated men returning to new york city john m halushka argues that the very institutions charged with facilitating the transition from incarceration to community life perversely undermine reintegration by imposing a litany of bureaucratic obstacles this runaround is not merely a series of inconveniences but rather an extension of state punishment that exacerbates material poverty and diminishes citizenship rights by telling the stories of men caught in vicious cycles of poverty bureaucratic processing and social control halushka demonstrates the urgent need to shift reentry away from an austerity driven compliance based framework and toward a vision of social justice and inclusion
