Politics, Economy and Law in Developing Asia: A Reflection on Law and Development 2022-10-15

1960s and 1970s, the author discusses the impact of international law and the role of the state in the development of the legal system in developing Asia. The book is a valuable resource for scholars and practitioners alike.

Essential Principles of Contract and Sales Law in the Northern Pacific 2005-08-23

taking an anthropological approach essential principles of contract and sales law in the northern pacific highlights how regional customary and traditional law interact with anglo american concepts of contract and sales law to produce a unique amalgam of substantive law in this pacific region author and law professor daniel p ryan compiles and discusses the current contract and sales law applicable in the pacific region including the republics of palau and the marshall islands hawaii guam northern mariana islands american samoa and the federated states of micronesia ryan compares and contrasts this regional law to international standards including the un sale of goods convention the unidroit principles of contract law uncitral model law for e commerce the uniform commercial code the revised uniform commercial code and the restatement second of contracts essential principles of contract and sales law in the northern pacific is essential reading for members of the judiciary academics practitioners students and businesses within the region and their major trade partners

A History of the Laws of War: Volume 2 2011-10-07

this unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day relying on written records from as far back as 2400 bce and using sources ranging from the bible to security council resolutions the author pieces together the history of a subject which is almost as old as civilisation itself the author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict thus it is that this work is divided into three substantial parts volume 1 on the laws affecting combatants and captives volume 2 on civilians and volume 3 on the law of arms control this second book on civilians examines four different topics the first topic deals with the targetting of civilians in times of war this discussion is one which has been largely governed by the developments of technologies which have allowed projectiles to be discharged over ever greater areas and attempts to prevent their indiscriminate utilisation have struggled to keep pace the second topic concerns the destruction of the natural environment with particular regard to the utilisation of starvation as a method of warfare and unlike the first topic this one has rarely changed over thousands of years although contemporary practices are beginning to represent a clear break from tradition the third topic is concerned with the long standing problems of civilians under the occupation of opposing military forces where the practices of genocide collective punishments and or reprisals and rape have occurred the final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage or the intentional devastation of the cultural property of the opposition as a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare it also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

State Laws Governing Local Government Structure and Administration 1993

this is a short and succinct summary of the unique position of roman law in european culture by one of the world s leading legal historians peter stein s masterly study

assesses the impact of roman law in the ancient world and its continued unifying influence throughout medieval and modern europe roman law in european history is unparalleled in lucidity and authority and should prove of enormous utility for teachers and students at all levels of legal history comparative law and european studies award winning on its appearance in german translation this english rendition of a magisterial work of interpretive synthesis is an invaluable contribution to the understanding of perhaps the most important european legal tradition of all

The Irish Yearbook of International Law, Volumes 4-5, 2009-10 2017-11-11

raises concerns about the degree to which the rule of law and emergency powers have become fundamentally entangled using israel as a case study contemporary debates on states of emergency have focused on whether law can regulate emergency powers if at all these studies base their analyses on the premise that law and emergency are at odds with each other in between the rule of law and states of emergency yoav mehozay offers a fundamentally different approach demonstrating that law and emergency are mutually reinforcing paradigms that compensate for each other s shortcomings through a careful dissection of israel s emergency apparatus mehozay illustrates that the reach of israel s emergency regime goes beyond defending the state and its people against acts of terror in fact that apparatus has had a far greater impact on israel s governing system and society as a whole than has traditionally been understood

mehozay pushes us to think about emergency powers beyond the war on terror and consider the role of emergency with regard to realms such as political economy

International Encyclopedia of Comparative Law 1966

in the fiscal year ended june 30 1917 the foreign trade of the united states in raw and manufactured furs reached nearly if not fully the high level of years preceding the war the imports were valued at 21 553 375 while the exports amounted to 15 729 160 a sum exceeded in only one previous year 1913 when they were 28 389 586 home manufacture and utilization of american furs has grown enormously since the beginning of the war the large export trade of the past year shows therefore a production of pelts of unprecedented value in spite of the fact that the actual number of skins collected must have been less than in previous years many former trappers were more profitably employed in other industries and many were deterred from plying their vocation by the increased restrictions on trapping especially the costly nonresident licenses trapping restrictions properly enforced and limiting the taking of fur to prescribed seasons will result not only in conserving the fur supply but in greatly increasing the quality and value of the annual catch p 2

The General Principles of the Law of Evidence, Vol. 2 of 2 1873

this book expounds the theory of international arbitration law it explains in easily accessible terms all the fundamentals of arbitration from separability of the arbitration agreement to competence competence over procedural autonomy finality of the award and many other concepts it does so with a focus on international arbitration law and jurisprudence in switzerland a global leader in the field with a broader reach than a commentary of chapter 12 of the swiss private international law act the discussion contains numerous references to comparative law and its developments in addition to an extensive review of the practice of international tribunals written by two well known specialists professor kaufmann kohler being one of the leading arbitrators worldwide and professor rigozzi one of the foremost experts in sports arbitration the work reflects many years of experience in managing arbitral proceedings involving commercial investment and sports disputes this expertise is the basis for the solutions proposed to resolve the many practical issues that may arise in the course of an arbitration it also informs the discussion of the arbitration rules addressed in the book from the icc arbitration rules to the swiss rules of international arbitration the cas code and the uncitral rules while the book covers commercial and sports arbitrations primarily it also applies to investment arbitrations conducted under rules other than the icsid framework

A History of English Law: Book 1 [i.e. 2] (449-1066) Anglo-Saxon antiquities. Book 2 [i.e. 3] (1066-1485) The mediaeval common law 2016-10-20

vols 65 96 include central law journal s international law list

The Law of Contracts 1917

described as ground breaking in kent mcneil s foreword this book develops an alternative approach to conventional aboriginal title doctrine it explains that aboriginal customary law can be a source of common law title to land in former british colonies whether they were acquired by settlement or by conquest or cession from another colonising power the doctrine of common law aboriginal customary title provides a coherent approach to the source content proof and protection of aboriginal land rights which overcomes problems arising from the law as currently understood and leads to more just results the doctrine s applicability in australia canada and south africa is specifically demonstrated while the jurisprudential underpinnings for the doctrine are consistent with fundamental common law principles the author explains that the australian high court s decision in mabo provides a broader basis for the doctrine a broader basis which is consistent with a re evaluation of case law from former british colonies in africa as well as from the united states new zealand and

canada in this context the book proffers a reconceptualisation of the crown's title to land in former colonies and a reassessment of conventional doctrines including the doctrine of tenure and the doctrine of continuity with rare exceptions the existing literature does not probe as deeply or question fundamental assumptions as thoroughly as dr secher does in her research she goes to the root of the conceptual problems around the legal nature of indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the crown this book is a formidable contribution that i expect will be influential in shifting legal thinking on indigenous land rights in progressive new directions from the foreword by professor kent mcneil to read the foreword please click on the sample chapter link

Between the Rule of Law and States of Emergency 2015-10-22

this book analyses the common law's approach to retroactivity the central claim is that when a court considers whether to develop or change a common law rule the retroactive effect of doing so should explicitly be considered and informed by the common law's approach to statutory construction presumptively be resisted as a platform for this claim a definition of retroactivity is established and a review of the history of retroactivity in the common law is provided it is then argued that certainty particularly in the form of an ability to rely on the law and a conception of negative liberty constitute rationales for a general presumption against retroactivity at a level of abstraction applicable both to the construction of statutes and to developing or changing common law rules the presumption against retroactivity in the construction of statutes is analysed and one conclusion reached is that the presumption is a principle of the common law independent of legislative intent across private public and criminal law the retroactive effect of judicial decisions that develop or change common law rules is then considered in detail prospective overruling is examined as a potential means to control the retroactive effect of some judicial decisions but it is argued that prospective overruling should be regarded as constitutionally impermissible the book is primarily concerned with english and australian law although cases from other common law jurisdictions particularly canada and new zealand are also discussed the conclusion is that in statutory construction and the adjudication of common law rules there should be a consistently strong presumption against retroactivity motivated by the common law's concern for certainty and liberty and defeasible only to strong reasons ben juratowitch not only gives an account of the operation of the presumption but also teases out the policies which underlie the different rules this is particularly welcome lawyers and judges often seem less than sure footed when confronted by questions in this field by giving us an insight into the policies the author provides a basis for more satisfactory decision making in the future the author not only discusses the recent cases but examines the question in the light of authority in other commonwealth jurisdictions and with due regard to the more theoretical literature this is a valuable contribution to what is an important current debate in the law happily ben juratowitch has succeeded in making his study not only useful but interesting and enjoyable from the foreword by lord roder of earlsferry

Laws Relating to Fur-bearing Animals, 1918 1981

among the most significant legal developments of our time is the emergence of a european private law the european union enacts directives which profoundly affect the practice teaching and study of core areas of classical private law internationally commissions have formulated principles of european trusts contract and commercial law furthermore uniform private law can be found in a number of international conventions this book gathers together fundamental texts from these three sources into one convenient volume its emphasis is on general civil and commercial law particularly on the obligations and property aspects of these fully updated it contains the recent directives in the areas of e commerce electronic signatures and late payments it also makes available for the first time english language versions of a number of texts by international commissions this book is a sister volume to the original german and the subsequent spanish version with full references to the implementation of the directives in denmark eire finland sweden and the united kingdom this book will be a useful resource for practitioners students and teachers working in the field of european private law

this book is a fascinating exploration of the legacy of roman law in contemporary legal systems focusing on the ways in which the roman legal tradition has influenced the development of modern civil law it analyzes the main features of roman law such as its conceptual framework sources and principles and shows how they have been adapted and transformed in different legal systems around the world written in a lucid and engaging style it offers a unique perspective on the history and evolution of law and will appeal to anyone interested in legal theory and comparative law this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

The Central Law Journal 2008-02-15

criminal law a comparative approach presents a systematic and comprehensive analysis of the substantive criminal law of two major jurisdictions the united states and germany presupposing no familiarity with either u s or german criminal law the book will provide criminal law scholars and students with a rich comparative understanding of criminal law s foundations and central doctrines all foreign language sources have been translated into english cases and materials are accompanied by heavily cross referenced introductions and notes that place them within the framework of each country s criminal law system and highlight issues ripe for comparative analysis divided into three parts the book covers foundational issues such as constitutional limits on the criminal law before tackling the major features of the general part of the criminal law and a selection of offences in the special part throughout readers are exposed to alternative approaches to familiar problems in criminal law and as a result will have a chance to see a given country s criminal law doctrine on specific issues and in general from the critical distance of comparative analysis

Aboriginal Customary Law: A Source of Common Law Title to Land 2003-10-31

the relevance and importance of the rule of law to the international legal order cannot be doubted and was recently reaffirmed by the declaration of the high level meeting of the general assembly on the rule of law at the national and international level s solemn commitment to it on behalf of states and international organizations in this edited collection leading scholars and practitioners from the fields of global governance resources investment and trade examine how the commitment to the rule of law manifests itself in the respective fields the book looks at cutting edge issues within each field and examines the questions arising from the interplay between them with a clear three part structure it explores each area in detail and addresses contemporary challenges while trying to assure a commitment to the rule of law the contributions also consider how the rule of law has been or should be reconceptualised taking a multi disciplinary approach the book will appeal to international lawyers from across the spectrum including practitioners in the field of international investment and trade law
