the era of the aging worker is here the forces driving the first decades of the 21st century globalization technology societal aging and jarring economic instability have made later retirement a necessity for many but those who choose to stay in the workforce are frustrated by a job market that fails to take advantage of their talents as government s ability to finance retirement and health care declines making space for older workers in the labor force has emerged as a chief challenge for the coming century veteran international correspondent joseph coleman spent three years traveling to

various places in japan france sweden and across the united states to profile this aging global workforce from the rice paddies of japan to the heart of the american rust belt coleman takes readers inside the lives of older workers clear eyed portraits of individuals illuminate the aging of the world labor force and introduce readers to the factories offices and fields where older workers toil and the societies in which they live unfinished work explores a world in the midst of a revolution that will have far reaching consequences for present and coming generations coleman maps out the problems we confront shows us avenues forward and illustrates the dangers of inaction the engaging narrative reveals how accommodating our aging workforce can usher in humane policies that benefit workers across the spectrum of age improving conditions for older workers is critical for ensuring success and prosperity for society as a whole for years to come
