immigrant japan sounds like a contradiction but as gracia liu farrer shows millions of immigrants make their lives in japan dealing with the tensions between belonging and not belonging in this ethno nationalist country why do people want to come to japan where do immigrants with various resources and demographic profiles fit in the economic landscape how do immigrants narrate belonging in an environment where they are other at a time when mobility is increasingly easy and belonging

increasingly complex gracia liu farrer illuminates the lives of these immigrants by bringing in sociological geographical and psychological theories guiding the reader through life trajectories of migrants of diverse backgrounds while also going so far as to suggest that japan is already an immigrant country

this volume is part of a subseries of the foreign relations of the united states that documents the most issues in the foreign policy of the 5 years 1964 1968 of the administration of lyndon b johnson this volume documents u s policy toward japan during a period of increasing change in the relations between the two allies japan was fast becoming a major economic power while still relying on the united states for its security a theme of the coverage in fact is the ongoing u s effort to

encourage japan to assume a greater role in its own military defense and to play a greater role on the world stage especially in terms of economic development of the rest of asia another major theme is u s efforts to encourage the continuation of a moderate pro western japanese government

Storm Clouds over the Pacific, 1931–1941 **2018-12-01**

what forces were behind japan s emergence as the first non western colonial power at the turn of the twentieth century peter duus brings a new perspective to meiji expansionism in this pathbreaking study of japan s acquisition of korea the largest of its colonial possessions he shows how japan s drive for empire was part of a larger goal to become the economic diplomatic and strategic equal of the western countries who had imposed a humiliating treaty settlement on the country in the 1850s duus maintains that two separate but interlinked processes one political military and the other economic propelled japan s imperialism every attempt at increasing japanese political influence licensed new opportunities for trade and each new push for japanese economic interests buttressed and sometimes justified further political advances the sword was the servant of the abacus the abacus the agent of the sword while suggesting that meiji imperialism shared much with the western colonial expansion that provided both model and context duus also argues that it was backward imperialism shaped by a sense of inferiority vis à vis the west along with his detailed diplomatic and economic history duus offers a unique social history that illuminates the motivations and lifestyles of the overseas japanese of the time as well as the views that contemporary japanese had of themselves and their fellow asians

Immigrant Japan 2020-04-15

to what extent can music be employed to shape one culture s understanding of another in the american imagination japan has represented the most alien nation for over 150 years this perceived difference has inspired fantasies of both desire and repulsion through which japanese culture has profoundly impacted the arts and industry of the u s while the influence of japan on american and european painting architecture design theater and literature has been celebrated in numerous books and exhibitions the role of music has been virtually ignored until now w anthony sheppard s extreme exoticism offers a detailed documentation and wide ranging investigation of music s role in

shaping american perceptions of the japanese the influence of japanese music on american composers and the place of japanese americans in american musical life presenting numerous american encounters with and representations of japanese music and japan this book reveals how music functions in exotic representation across a variety of genres and media and how japanese music has at various times served as a sign of modernist experimentation a sounding board for defining american music and a tool for reshaping conceptions of race and gender from the tin pan alley songs of the russo japanese war period to weezer s pinkerton album music has continued to inscribe japan as the land of extreme exoticism

The Effect of Japanese Investment on the World Economy: A Six-Country Study, 1970–1991 1966

as the u s military presence in the middle east winds down asia and the pacific are receiving increased attention from the american national security community the obama administration has announced a rebalancing of the u s military posture in the region in reaction primarily to the startling improvement in chinese air and naval capabilities over the last decade or so this timely study sets out to assess the implications of this shift for the long established u s military presence in asia and the pacific this presence is anchored in a complex basing infrastructure that scholars and americans generally too often take for granted in remedying this state of affairs this volume offers a detailed survey and analysis of this infrastructure its history the political complications it has frequently given rise to and its recent and likely future evolution american seapower requires a robust constellation of bases to support global power projection given the rise of china and the emergence of the asia pacific as the center of global economic growth and strategic contention nowhere is american basing access more important than in this region yet manifold political and military challenges stemming not least of which from rapidly improving chinese long range precision strike capabilities complicate the future of american access and security here this book addresses what will be needed to maintain the fundamentals of u s seapower and force projection in the asia pacific and where the key trend lines are headed in that regard this book demonstrates that u s asia pacific basing and access is increasingly vital yet increasingly vulnerable it demands far more attention than the limited coverage it has received to date and cannot be taken for granted more must be done to preserve capabilities and access upon which american and allied security and prosperity depend

Japanese American Internment: Charles Kikuchi, *Japanese books 1934*

following japan s attack on pearl harbor in 1941 the u s government rounded up more than one hundred thousand japanese americans and sent them to internment camps one of those internees was charles kikuchi in thousands of diary pages he documented his experiences in the camps his resettlement in chicago and drafting into the army on the eve of hiroshima and nagasaki and his postwar life as a social worker in new york city kikuchi s diaries bear witness to a watershed era in american race relations and expose both the promise and the hypocrisy of american democracy jim and jap crow follows kikuchi s personal odyssey among fellow japanese american intellectuals immigrant activists chicago school social scientists everyday people on chicago s south side and psychologically scarred veterans in the hospitals of new york the book chronicles a remarkable moment in america s history in which interracial alliances challenged the limits of the elusive democratic ideal and in which the nation was forced to choose between civil liberty and the fearful politics of racial hysteria it was an era of world war and the atomic bomb desegregation in the military but jim and jap crow elsewhere in america and a hopeful progressivism that gave way to cold war paranoia jim and jap crow looks at kikuchi s life and diaries as a lens through which to observe the possibilities failures and key conversations in a dynamic multiracial america

2015-06-09

this is an in depth analysis of the u s japan security alliance and its implications for japan and the asia pacific region it moves away from the official line that the alliance is a vital aspect of japan s security policy and introduces issues and arguments that are often overlooked american security policy has failed to achieve its goals japan s interests are not fully served by the alliance the alliance itself is a source of instability in the region and the arrangement has placed constraints on japan s own political development the author measures current developments in u s foreign policy against japan s role in the region and japan s own political development he assesses the consequences of the alliance for the current regional situation in northeast asia looks at future policy options for japan and makes the case for a neutralist security policy

invasive species have a critical and growing effect upon natural areas they can modify degrade or destroy wildland ecosystem structure and function and reduce native biodiversity landscape level solutions are needed to address these problems conservation biologists seek to limit such damage and restore ecosystems using a variety of approaches one such approach is biological control the deliberate importation and establishment of specialized natural enemies which can address invasive species problems and which should be considered as a possible component of restoration biological control can be an effective tool against many invasive insects and plants but it has rarely been successfully employed against other groups safety is of paramount concern and requires that the natural enemies used be specialized and that targeted pests be drivers of ecological degradation while modern approaches allow species to be selected with a high level of security some risks do remain however as in all species introductions these should be viewed in the context of the risk of failing to reduce the impact of the invasive species this unique book identifies the balance among these factors to show how biological control can be integrated into ecosystem restoration as practiced by conservation biologists jointly developed by conservation biologists and biological control scientists it contains chapters on matching tools to management goals tools in action measuring and evaluating ecological outcomes of biological control introductions managing conflict over biological control and includes case studies as well as an ethical framework for integrating biological control and conservation practice integrating biological control into conservation practice is suitable for graduate courses in invasive species management and biological control as well as for research scientists in government and non profit conservation organizations

this study explores the japanese motivations in raising the proposal for racial equality at the 1919 paris peace conference this is the first comprehensive analysis of an historically significant event which has not been given adequate scholarly attention in the past the story which

unfolds underlines the complexity of politics and diplomacy surrounding the racial equality proposal and analyses the effect of the failure of the proposal on japan s politics in the 1920s and 1930s

Foreign relations of the United States, 1964-1968, V. 29, Pt. 2: Japan 2019-09-20

reports of general macarthur are the official after action reports of general of the army douglas macarthur long out of print this facsimile edition contains not only macarthur s own perspective of his operations against the japanese in the southwest pacific area during world war ii but also the enemy s unique account of imperial army campaigns against macarthur s forces collectively the reports have substantial and enduring value for military historians and students of military affairs providing an illuminating record of momentous events influenced in large measure by a distinguished soldier and towering figure in american historiography history army mil

The Abacus and the Sword 2014-05-15

groundbreaking study demonstrating how japan s leaders play an important role in diplomacy a political leader is most often a nation s most high profile foreign policy figure its chief diplomat but how do individual leadership styles personalities perceptions or beliefs shape diplomacy in japanese diplomacy the question of what role leadership plays in diplomacy is applied to japan a country where the individual is often viewed as being at the mercy of the group and where prime ministers have been largely thought of as reactive and weak in challenging earlier simplified ideas of japanese political leadership h d p envall argues that japan s leaders from early cold war figures such as yoshida shigeru to the charismatic and innovative koizumi jun ichirō to the present leadership of abe shinzō have pursued leadership strategies of varying coherence and rationality often independent of their political environment he also finds that different japanese leaders have shaped japanese diplomacy in some important and underappreciated ways in certain environments individual difference has played a significant role in determining japan s diplomacy both in terms of the country s strategic identity and summit diplomacy what emerges from japanese diplomacy therefore is a more nuanced overall picture of japanese leadership in foreign affairs h d p envall is research fellow in the department of international relations at the australian national university

Extreme Exoticism 1992

this book presents a comprehensive picture of reflexive pronouns from both a theoretical and experimental perspective using the well researched languages of english german dutch chinese japanese and korean in order to understand the data from varying theoretical perspectives the book considers selected syntactic and pragmatic analyses based on their current importance in the field the volume consequently introduces the emergentist reflexivity approach which is a novel theoretical synthesis incorporating a sentence and pragmatic processor that accounts for reflexive pronoun behaviour in these six languages moreover in support of this model a vast array of experimental literature is considered including first and second language acquisition bilingual psycholinguistic neurolinguistic and clinical studies it is through both the intuitive and experimental data linguistic theorizing relies upon that brings out the strengths of the modelling adopted here paving new avenues for future research in sum this volume unites a diverse array of the literature that currently sits largely divorced between the theoretical and experimental realms and when put together a better understanding of reflexive pronouns under the auspices of the emergentist reflexivity approach is forged

Rebalancing U.S. Forces 2013-12-26

japanese film is enduringly fascinating challenging and rewarding this book provides a cultural historical and philosophical study of japanese film from the silent era to the present day focusing on its expansive consciousness the author examines masterpieces by ozu mizoguchi oshima and many other directors discussing their influence on the japanese culture of esoteric zen buddhism and relating them to recent neuroscientific theories of brain trauma

□□□□□□□□ 1943

the fukuda doctrine has been the official blueprint to japan s foreign policy towards southeast asia since 1977 this book examines the fukuda doctrine in the context of japan southeast asia relations and discusses the possibility of a non realist approach in the imagining and conduct of international relations in east asia the collapse of 54 years of liberal democratic party rule and the advent of a new democratic party of japan raises the question of whether the fukuda doctrine is still relevant as a framework to analyse tokyo s policy and behaviour towards southeast asia looking at its origins and norms amidst three decades of

change the book argues that the fukuda doctrine is still relevant to japan southeast asian relations and should be extended to relations between china and japan if an east asian community is to be built the book goes on to discuss the fukuda doctrine in relation to the power shift in asia including the revitalization of japan s security role by providing a detailed understanding of a non western perspective of japan s relationship with southeast asia this book is a useful contribution for students and scholars of asian studies politics and international relations

Jim and Jap Crow 1978

how do teachers who have chosen to settle down in one country manage the difficulties of living and teaching english in that country how do they develop and sustain their careers and what factors shape their identity this book answers these questions by investigating the personal and professional identity development of ten western women who teach english in various educational contexts in japan all of whom have japanese spouses the book covers issues of interracial relationships expatriation equality and employment practices as well as the broader topics of gender and identity the book also provides a useful overview of english language teaching and learning in japan

Papers Relating to the Foreign Relations of the United States 2015-06-03

a valuable reexamination booklist starred review of the event that changed twentieth century america pearl harbor based on years of research and new information uncovered by a new york times bestselling author the america we live in today was born not on july 4 1776 but on december 7 1941 when an armada of 354 japanese warplanes supported by aircraft carriers destroyers and midget submarines suddenly and savagely attacked the united states killing 2 403 men and forced america s entry into world war ii pearl harbor from infamy to greatness follows the sailors soldiers pilots diplomats admirals generals emperor and president as they engineer fight and react to this stunningly dramatic moment in world history beginning in 1914 bestselling author craig nelson maps the road to war when franklin d roosevelt then the assistant secretary of the navy attended the laying of the keel of the uss arizona at the brooklyn navy yard writing with vivid intimacy nelson traces japan s leaders as they lurch into ultranationalist fascism which culminates in their scheme to terrify america with one of the boldest attacks ever waged within seconds the country would never be the same

backed by a research team's five years of work as well as Nelson's thorough re-examination of the original evidence assembled by federal investigators. This page-turning and definitive work weaves archival research, interviews, and personal experiences from both sides into a blow-by-blow narrative of destruction liberally sprinkled with individual heroism, bizarre escapes, and equally bizarre tragedies. Kirkus Reviews: Nelson delivers all the terror, chaos, violence, tragedy, and heroism of the attack in stunning detail and offers surprising conclusions about the tragedy's unforeseen and resonant consequences that linger even today.

The MAGIC background of Pearl Harbor 1954

For the British Empire, it was a military disaster, but for Imperial Japan, the conquest of Malaya was one of the pivotal campaigns of World War II, giving birth to the myth of the Imperial Japanese Army's invincibility. The victory left both Burma and India open to invasion, although heavily outnumbered, the Japanese Army fought fiercely to overcome the inept and shambolic defence offered by the British and Commonwealth forces. Detailed analysis of the conflict, combined with a heavy focus on the significance of the aerial campaign, help tell the fascinating story of the Japanese victory from the initial landings in Thailand and Malaya through to the destruction of the Royal Navy's Force Z and the final fall of Singapore itself.

The Challenges of the US-Japan Military

Arrangement: Competing Security Transitions in a Changing International Environment 2018-05-31

Japan achieved its present economic position by rejecting free trade theory and instead mastering neomercantilist policies which target strategic industries for development with a range of government-sponsored cartels, subsidies, import barriers, and export incentives. These policies stimulated an economic growth rate which averaged ten percent before 1973 and five percent since, rates four and two times greater than America's during the same periods. This book analyzes the policy-making process, implementation, successes, occasional shortcomings, and challenges posed by Tokyo's neomercantilist policies toward its trade rivals.

A monograph of the mammals of Japan 2016-05-17

During World War II, Japan was vilified by America as our hated enemy in the East. Though we distinguished good Germans from the Nazis, we

condemned all japanese indiscriminately as fanatics and savages as the cold war heated up however the u s government decided to make japan its bulwark against communism in asia but how was the american public made to accept an alliance with japan so soon after the japs had been demonized as subhuman bucktoothed apes with coke bottle glasses in this revelatory work naoko shibusawa charts the remarkable reversal from hated enemy to valuable ally that occurred in the two decades after the war while general macarthur s occupation forces pursued our nation s strategic goals in japan liberal american politicians journalists and filmmakers pursued an equally essential though long unrecognized goal the dissemination of a new and palatable image of the japanese among the american public with extensive research from occupation memoirs to military records from court documents to hollywood films and from charity initiatives to newspaper and magazine articles shibusawa demonstrates how the evil enemy was rendered as a feminized submissive nation as an immature youth that needed america s benevolent hand to guide it toward democracy interestingly shibusawa reveals how this obsession with race gender and maturity reflected america s own anxieties about race relations and equity between the sexes in the postwar world america s geisha ally is an exploration of how belligerents reconcile themselves in the wake of war but also offers insight into how a new superpower adjusts to its role as the world s preeminent force
