frontiers association of lower urinary tract symptoms and

May 22 2024

background despite previous literature exploring the factors influencing lower urinary tract symptoms luts few studies have examined the relationship between nutritional status and luts objectives the objective of this research was to evaluate the relationship between luts and geriatric nutritional risk index gnri in middle aged and older men methods we included 2 607 men in the nhanes 2005

bacteriophage mediated control of biofilm a promising new

Apr 21 2024

biofilms are complex microbial microcolonies consisting of planktonic and dormant bacteria bound to a surface the bacterial cells within the biofilm are embedded within the extracellular polymeric substance eps consisting mainly of exopolysaccharides secreted proteins lipids and extracellular dna this structural matrix poses a major

assessing the probiotic potential and safety of newly

Mar 20 2024

the human gastrointestinal tract hosts a diverse and intricate microbial community a pivotal contributor to human well being an effective strategy for exploring the diversity and potential probiotic attributes of bacillus species is to isolate them from faecal samples

herb drug interaction effects of relinqing granule on the

Feb 19 2024

relinqing granule rlq is the best selling chinese patent drug for treatment of urinary system diseases in this study the effects of rlq on the pharmacokinetics of ciprofloxacin sulfamethoxazol

understanding patient demand for and use of antibiotics for

Jan 18 2024

it was identified that the patients often relate their personal need for antibiotics when encountering an urtis symptoms to the type

severity and duration of symptoms and the interplay between necessity beliefs and concerns was observed to influence the decision to start and stop antibiotic reducing antimicrobial resistance amr is a priority for public health inappropriate patient demand

frontiers in pharmacology on linkedin **alternatives to**

Dec 17 2023

frontiers in pharmacology is thrilled to announce a new research topic therapeutic and protective approaches to gastrointestinal tract infections this is an incredible opportunity to

decreased fa values of the cst cerebrospinal tract mcp

Nov 16 2023

the alphafwe is the alpha value corrected for multiple comparison multiple parts per tract and multiple tracts the min p value is the minimal p value which was calculated for each tract

efficacy of a new immunonutrition formula with extra virgin

Sep 14 2023

frontiers in nutrition 02 frontiersin.org 1 introduction malnutrition like sarcopenia is a risk factor for complications infections and increased mortality after surgery for cancer of the upper digestive tract preoperative malnutrition in these patients is prevalent and preoperative symptoms including poor appetite early

poptract population based tractography pubmed

Aug 13 2023

white matter fiber tractography plays a key role in the in vivo understanding of brain circuitry for tract based comparison of a population of images a common approach is to first generate an atlas

by averaging after spatial normalization all images in the population and then perform tractograp

frontiers in tropical diseases

Jul 12 2023

exploring the pathophysiology and control of tropical diseases with a focus on integrative prevention control and treatment methods and the associated challenges in vulnerable populations

freepatentsonline com

Jun 11 2023

cn104473611a 2015 04 01 ?????????????????????? ep0340109 1989 11 02 anti t cell receptor determinants as autoimmune disease

driving innovation in oncology sleep jazz at asco sleep

May 10 2023

we know that the patients we serve face a difficult road ahead often with limited treatment options and suboptimal survival odds by exploring new frontiers in immune oncology and targeted oncology we are committed to improving standards of care across multiple cancer types with significant unmet needs and historically poor outcomes

frontiers your journals

Apr 09 2023

frontiers publishes articles on the most outstanding discoveries across the entire research spectrum of frontiers our aim is to bring all relevant specialties in frontiers together on a single platform
