*Business Central Europe* 2000-02 the mergers acquisitions review edited by mark zerdin of slaughter and may seeks to provide a richer understanding of the shape of m a in the global markets together with the challenges and opportunities facing market participants this comes at a time when the international market has seen a boom in dealmaking with many markets reaching post crisis peaks and some recording all time highs mega deals have been at the heart of the expanding market with companies tapping into cash piles and cheap debt to fund transformational deals looking behind the headline figures however a number of factors suggest dealmaking may not continue to grow as rapidly as it has done recently this book examines this topic and more across over 55 jurisdictions as well as providing more general interest chapters covering the european union european private equity m a litigation and offshore private equity contributors include didier marti bredin prat heinrich knepper hengeler mueller javier ruiz camara bayo uria menendez

Mergers & Acquisitions Review 2017-10-31 in may 2004 the fifth enlargement of the european union saw the accession of eight central and eastern european states the a8 countries of the czech republic estonia hungary latvia lithuania poland slovakia and slovenia with cyprus and malta joining at the same time this was the largest expansion in the eu s history adding ten member states and 75 million people in january 2007 the accession of bulgaria and romania the a2 countries added a further 30 million people the committee s report examines the impact on uk business of the accession of the a8 and a2 countries following on from two previous inquiries industrial and trade relations with central europe hcp 893 session 1997 98 isbn 9780105550785 and industrial and trade relations with the baltic states hcp 835 session 1999 2000 isbn 9780102524000 the committee s report concludes that the eu accession of these countries has been beneficial to the uk economy and business chiefly through the plugging of gaps in the uk labour market as well as through increased opportunities for exports and investment however these benefits could be greater if businesses were better informed about the resulting opportunities and the government should consider what it can do to reduce the fear factor of investing outside uk businesses comfort zones particularly in the new member states which are accessible to small and medium sized companies the committee also highlights the importance of improving the skills base of the domestic workforce if uk business wishes to remain globally competitive

2006-02-27 with the rising economic importance of human resources and skills employment and training agencies are now often expected to play a more important role in local strategies to support new job creation facilitate restructuring and increase productivity
