Gone are the days when teachers used to be in the centre of education but now the focus is on the students now teachers cannot carry out punishments and act with extreme strictness today there is no correlation between age and knowledge with the explosion of facts and information nobody can claim that by virtue of age or by the mere fact that they were born earlier they know more now the things will move with courtesy and humbleness the present teacher cannot be student's father he should prepare himself to play the role of an elder brother sister or of a friend who will facilitate and encourage the child the knowledge acquired in this environment will travel long distance with the student teachers will develop shared understanding with which knowledge will be created for the holistic development of a child it is imperative to develop a book which not only deals with the principles and innovations but also throws light on the practical approach of teaching skills such a book should emphasise on the importance of learning skills rather than memorising by rote mechanism if a child is unable to develop learning skills then we would have to reorient our teaching techniques a complete book on how to impart quality education knowledge to students

Harold I. Saperstein served as rabbi of Temple Emanu-El of Lynbrook, N.Y. from 1933 until his retirement in 1980. The specific contours of his career reflect a sustained effort to use the pulpit of this suburban temple to communicate a Jewish perspective based on personal encounters with great issues of the day including the rise of Nazism and the Holocaust, the Civil Rights era, the McCarthy era, and other turning points in American history. The fifty-two sermons in this book have been selected, introduced, and annotated by Marc Saperstein, whose award-winning books on the history of Jewish preaching have established him as a leading expert on this subject. No other book illustrates as effectively the value of the sermon as a resource for understanding the challenges faced by American Jews at some of the most dramatic moments in the turbulent history of this century.

Is God Still at the Bedside? 2005-05

When I see a thing it is not a play for me but when I write something that somebody else can see then it is a play for me. Gertrude Stein, in the more than seventy-five plays Gertrude Stein wrote between 1913 and 1946, she envisioned a new dramaturgy beginning with her pictorial conception of a play as a landscape she drew into her plays the daily flow of life around her including the natural world and turned cities, villages, parts of the dramatic structure, and even her own friends into characters. She made punctuation and typography part of her compositional style and chose words for their joyful impact as sound and wordplay. For Stein, the writing process itself was always important in developing the continuous present at the heart of her work. Long out of print, last opera and plays again makes available many of Stein's most important and most produced works as a special feature. It also included her thought-provoking essay plays in which she reflects on the experience in the theater of seeing and hearing and on emotion and time. Now, nearly a half-century after her death, writes Bonnie Marranca in her introduction, it is indisputable that Gertrude Stein is the great American modernist mind. No American author has been more influential for more generations of artists in the worlds of theater, dance, music, poetry, painting, and fiction.
