monsters ghosts fantastic beings and supernatural phenomena of all sorts haunt the folklore and popular culture of japan broadly labeled yokai these creatures come in infinite shapes and sizes from tengu mountain goblins and kappa water spirits to shape shifting foxes and long tongued ceiling lickers currently popular in anime manga film and computer games many yokai originated in local legends folktales and regional ghost stories drawing on years of research in japan michael dylan foster unpacks the history and cultural context of yokai tracing their roots interpreting their meanings and introducing people who have hunted them through the ages in this delightful and accessible narrative readers will explore the roles played by these mysterious beings within japanese culture and will also learn of their abundance and variety through detailed entries some with original illustrations on more than fifty individual creatures the book of yokai provides a lively excursion into japanese folklore and its ever expanding influence on global popular culture it also invites readers to examine how people create transmit and collect folklore and how they make sense of the mysteries in the world around them by exploring yokai as a concept we can better understand broader processes of tradition innovation storytelling and individual and communal creativity É this book addresses the issues concerned with the achievement of world class competitiveness by major international companies it is the story of creating success where failure was endemic and demonstrating that so called japanese management techniques can be applied elsewhere by other western companies to attain market supremacy it is a book based on personal experience but related to theory and thus is of use to the reader trying to change where they work for the better as well as providing answers to a number of commonly asked questions why are the japanese so

consistently successful can we compete and become world class using our culture and japanese management techniques is there a manufacturing future for the uk and europe in the face of competition from the pacific basin how do we achieve world class competitiveness how do you start this in your business surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record september 2022 issue vol 99 no 9

carbohydrate chemistry provides review coverage of all publications relevant to the chemistry of monosaccharides and oligosaccharides in a given year the amount of research in this field appearing in the organic chemical literature is increasing because of the enhanced importance of the subject especially in areas of medicinal chemistry and biology in no part of the field is this more apparent than in the synthesis of oligosaccharides required by scientists working in glycobiology glycomedicinal chemistry and its reliance on carbohydrate synthesis is now very well established for example by the preparation of specific carbohydrate based antigens especially cancer specific oligosaccharides and glycoconjugates coverage of topics such as nucleosides amino sugars alditols and cyclitols also covers much research of relevance to biological and medicinal chemistry each volume of the series brings together references to all published work in given areas of

the subject and serves as a comprehensive database for the active research chemist specialist periodical reports provide systematic and detailed review coverage in major areas of chemical research compiled by teams of leading authorities in the relevant subject areas the series creates a unique service for the active research chemist with regular in depth accounts of progress in particular fields of chemistry subject coverage within different volumes of a given title is similar and publication is on an annual or biennial basis

lyrical school china 20 following the rapid development of connected technologies which are now highly sophisticated and spread across the globe society 5 0 has emerged and brought with it a dramatic societal shift in 1998 kodak the world leader in photographic film had 170 000 employees it thus seemed unthinkable that just 3 years later the majority of people would stop taking photographs to paper film and that kodak would have disappeared these are the stakes of this new society that is taking shape this book which does not seek to critique current politics management or marketing literature aims to fight against the excesses of this often misunderstood society 5 0 and to present the ideas and associated technologies that comprise it all working towards societal improvement among these technologies artificial intelligence robotics digital platforms and 3d printing are undoubtedly the most important and thus receive the greatest focus
