composed around 1250 by an unknown author in the region of orleans the vulgate commentary on ovid s metamorphoses is the most widely disseminated and reproduced medieval work on ovid s epic compendium of classical mythology and materialist philosophy this commentary both preserves the rich store of twelfth century glossing on the metamorphoses and incorporates new material of literary interest while the marginal glosses in many respects reflect the scholar interests of an early thirteenth century schoolmaster the vulgate commentary is always transmitted as a series of interlinear and marginal glosses surrounding the text manuscript whereas other earlier commentaries were independent of a full text of the poem the vulgate commentary exercised a wide ranging influence on the understanding and presentation of ovid s metamorphoses in the high middle ages and renaissance and the commentary exists in both french and italian manuscripts an investigation into the various ways in which renaissance writers comment on present and defend their own works and at the same time themselves in britain france italy spain poland and the dutch republic the renowned scholar poet john of garland wrote the integumenta ovidii allegories on ovid in early thirteenth century paris at a time of renewed interest in classical latin literature in this short poem john offers a series of dense highly allusive allegories on various greek and roman myths in ovid s metamorphoses the text is here edited and translated for the first time in 90 years drawing on the evidence of over two dozen manuscripts comprehensive explanatory notes help readers to understand john s condensed allegories in their medieval context textual notes discuss the various difficulties in the transmitted text of the poem and offer several improvements on the texts of the older editions in italian readers of ovid from the origins to petrarch julie van peteghem examines ovid s influence on italian poetry from its beginnings through dante to petrarch situating it within the history of reading ovid in medieval and early modern italy brunetto latini s la rettorica is the first italian translation of cicero s early and widely influential de inventione and this volume is a translation of latini s translation including both cicero s work and brunetto s commentary many commentaries on the apocalypse were produced in the early middle ages this book provides translations of two apocalypse commentaries from the seventh and eighth centuries on the mysteries of the apocalypse of john is part of a large one volume reference bible composed about 750 written probably by an irish teacher residing in northern france it answers difficulties arising from the biblical text the handbook on the apocalypse of the apostle john attributed erroneously to jerome and written before 767 contains brief moral and allegorical interpretations of particular words and phrases of the apocalypse the introduction highlights the unique features of each commentary and the interrelationship of the three texts the study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated it would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature while modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works in light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches the old english literary works traditionally associated with king alfred are furnished with an array of prologues epilogues and other frame texts these texts give fascinating glimpses into the ideas and contexts underlying the composition and reception of the alfredian corpus they draw attention to the ways in which authority and authorship interacted in the period and to contemporary perceptions of poetry and prose this new edition addresses the contextual critical and theoretical issues raised by the frame texts including their relationship to earlier traditions of prologue and epilogue their engagement with english as a literary language and their implications for the authorship debate the texts are edited here for the first time in a single volume with a facing page modern english translation and a wide range of explanatory material medieval commentaries typically included an accessus a standardized introduction to an author or book in the twelfth century these introductions were anthologised referred to now as accessus ad auctores they served as the first handbooks of literary criticism the earliest and most comprehensive example bayerische staatsbibliothek clm 19475 starters teaching plan and more great for lay teachers and pastors alike the secular contract seeks to defend the european enlightenment s secularization of political philosophy by promoting an understanding of enlightenment secular liberalism and extending it to contemporary issues the work proposes that the enlightenment united the secularizing trends that occurred at the time across all areas of knowledge into a secular contract for modern politics it argues that this was a normatively valuable enterprise whose aims and arguments need to be recovered today especially in light of the challenges faced by the west including fundamentalist christianity in the us and radical islam in europe looking at the works of many thinkers such as hobbes jefferson madison rousseau the book then shifts to the present day to argue for a different liberalism as suggested by such contemporary thinkers as william galston or stephen macedo an engaging read the secular contract will appeal to anyone interested in political theory and the history of ideas is it true that christianity is being marginalised by the secular media at the expense of islam are the mass media islamophobic is atheism on the rise in media coverage media portrayals of religion and the secular sacred explores such questions and argues that television and newspapers remain key sources of popular information about religion they are particularly significant at a time when religious participation in europe is declining yet the public visibility and influence of religions seems to be increasing based on analysis of mainstream media the book is set in the context of wider debates about the sociology of religion and media representation the authors draw on research conducted in the 1980s and 2008 10 to examine british media coverage and representation of religion and contemporary secular values and to

consider what has changed in the last 25 years exploring the portrayal of christianity and public life islam and religious diversity atheism and secularism and popular beliefs and practices several media events are also examined in detail the papal visit to the uk in 2010 and the ban of the controversial dutch mp geert wilders in 2009 religion is shown to be deeply embedded in the language and images of the press and television and present in all types of coverage from news and documentaries to entertainment sports reporting and advertising a final chapter engages with global debates about religion and media romans is almost universally celebrated to be one of the greatest christian writings ever penned it is the most detailed explanation of the gospel and the relationship between faith and righteousness in the new testament paul accomplishes this by relying heavily on old testament passages that provided a foundation for many of the arguments he used to enlighten the israelites of god s plan to include the gentiles as his people along with them it takes one on a journey to explore how that gospel works to bring man to a place of salvation through obedience by baptism into christ gal 3 27 its impact on the lives of many noted religious leaders throughout history during the protestant reformation and restoration movements cannot be underestimated such leaders as augustine john chrysostom john and charles wesley martin luther john calvin and thomas and alexander campbell have all expressed the profound impact romans had on their lives luther sparked the greatest religious revival at the time the protestant reformation at wittenberg in 1517 when he nailed 95 theses to the door of castle church which he said was inspired by his reading of the book of romans the campbells began the restoration movement during the early 19th century around the time of the great awakening in the early frontier days with a call of restoring the pure gospel that paul explained in the book of romans the overarching theme throughout its 16 chapters is to reveal god s sovereign plan of justification and sanctification to both jew and gentile in the church through the gospel where the righteousness of god is revealed romans 1 17 it is god s blueprint as to how we obtain and maintain faith and what it means to live a righteous life before god this is the nation s authority invested in them the more the accountability and transparency expected by both health professionals their patients and the public what can atheists tell us about religious life russian archives contain a wealth of information on religiosity during the soviet era but most of it is written from the hostile perspective of officials and scholars charged with promoting atheism based on archival research in locations as diverse as the multi religious volga region moscow and texas sonja luehrmann argues that we can learn a great deal about soviet religiosity when we focus not just on what documents say but also on what they did especially during the post war decades 1950s 1970s the puzzle of religious persistence under socialism challenged atheists to develop new approaches to studying and theorizing religion while also trying to control it taking into account the logic of filing systems as well as the content of documents the book shows how documentary action made religious believers firmly a part of soviet society while simultaneously casting them as ideologically alien when juxtaposed with oral printed and samizdat sources the records of institutions such as the council of religious affairs and the communist party take on a dialogical quality in distanced and carefully circumscribed form they preserve traces of encounters with religious believers by contrast collections compiled by western supporters during the cold war sometimes lack this ideological friction

recruiting soviet believers into a deceptively simple binary of religion versus communism through careful readings and comparisons of different documentary genres and depositories this book opens up a difficult set of sources to students of religion and secularism in this volume four leading thinkers of our times confront the paradoxes and dilemmas attending the supposed stand off between islam and liberal democratic values taking the controversial danish cartoons of mohammad as a point of departure talal asad wendy brown judith butler and saba mahmood inquire into the evaluative frameworks at stake in understanding the conflicts between blasphemy and free speech between religious taboos and freedoms of thought and expression and between secular and religious world views is the language of the law an adequate mechanism for the adjudication of such conflicts what other modes of discourse are available for the navigation of such differences in multicultural and multi religious societies what is the role of critique in such an enterprise these are among the pressing questions this volume addresses in the mid eleventh century secular byzantine poetry attained a hitherto unseen degree of wit vividness and personal involvement chiefly exemplified in the poetry of christophoros mitylenaios ioannes mauropous and michael psellos this is the first volume to consider this poetic activity as a whole critically reconsidering modern assumptions about byzantine poetry and focusing on byzantine conceptions of the role of poetry in society by providing a detailed account of the various media through which poetry was presented to its readers and by tracing the initial circulation of poems this volume takes an interest in the byzantine reader and his her reading habits and strategies allowing aspects of performance and visual representation rarely addressed to come to the fore it also examines the social interests that motivated the composition of poetry establishing a connection with the extraordinary social mobility of the time self representative strategies are analyzed against the background of an unstable elite struggling to find moral justification which allows the study to raise the question of patronage examine the discourse used by poets to secure material rewards and explain the social dynamics of dedicatory epigrams finally gift exchange is explored as a medium that underlines the value of poetry and confirms the exclusive nature of intellectual friendship a trinitarian exposition of the new testament this series is designed with the serious trinitarian pentecostal student in mind with a foundational commitment to the inspiration and infallibility of scripture each passage is explained in terms of its theological and practical significance in addition the distinctive pentecostal pneumatology is sustained key doctrines are identified and expounded important cross references within scripture are noted historical connections in church history are mentioned erroneous teachings are scrutinized comments are based on the king james version the kjv text is printed in the body of the commentary with a modern style of readability this commentary series is appropriate for anyone seeking to grow and understand the truths of scripture and is especially helpful to pastors as well as college and seminary students author s foreward as a pentecostal student attending a pentecostal bible college i went to the college bookstore to purchase my textbooks without knowing that the commentaries on my book list were written by non pentecostals even though my classes required commentaries from various publishers none of the publishers were pentecostal i often wondered why a pentecostal bible school would use non pentecostal commentaries for class what i did not know at the time was that there really was no such thing as a pentecostal commentary written for and by pentecostals since then there have been a few pentecostals who have written on individual books but there are significant portions of even the new testament that have had little or no pentecostal voice as a result serious pentecostal students have no other choice but to learn at the feet of non pentecostals i am not opposed to non pentecostal commentaries indeed i have gained considerable insights from reading such but there are two points of theology that i must consciously filter out every time i read them the most important concern to a pentecostal is that the pneumatology the study of the holy spirit presented by non pentecostals is very different than that of a pentecostal the second point is the emphasis on calvinistic doctrines especially eternal security with which most pentecostals do not agree in addition there are other theological differences and substantially different hermeneutical principals that can dramatically alter the interpretation of texts in non pentecostal ways in my studies i have always desired to have a commentary that was thoroughly pentecostal but i never imagined that i would write one from one pentecostal to another i hope you will find this series to be a breath of fresh spirit anointed air series preface while it is hoped that bible students from other theological traditions will study and benefit from its contents it is first and foremost pentecostal as such this commentary does not include surveys of other viewpoints unless such inclusion is necessary for clarity of argument in addition with all due respect to our charismatic brethren it may be said that this series is not meant to be inclusive of charismatic interpretations related to pneumatology the pentecostal commentary series intentionally excludes views of scripture that do not hold to its inspiration inerrancy and infallibility and also excludes modern liberal arguments of authorship date purpose and so on traditional viewpoints on these subjects will be discussed without confusing the issue in addition 19th century criticism methods and concerns over source documents will not often be discussed in other words this series assumes that the biblical text is as god wants it to be and that it was written by the person and at the time traditionally ascribed an introduction to the old testament books of ezra and nehemiah is followed by a verse by verse commentary on the text explore the rich heritage contemporary culture and society The Secular Contract 2011-06-23 the secular contract seeks to defend the european enlightenment s secularization of political philosophy by promoting an understanding of enlightenment secular liberalism and extending it to contemporary issues the work proposes that the enlightenment united the secularizing trends that occurred at the time across all areas of knowledge into a secular contract for modern politics it argues that this was a normatively valuable enterprise whose aims and arguments need to be recovered today especially in light of the challenges faced by the west including fundamentalist christianity in the us and radical islam in europe looking at the works of many thinkers such as hobbes jefferson madison rousseau the book then shifts to the present day to argue for a different liberalism as suggested by such contemporary thinkers as william galston or stephen macedo an engaging read the secular contract will appeal to anyone interested in political theory and the history of ideas

Religion in Secular Archives 2015-07-15 what can atheists tell us about religious life russian archives contain a wealth of information on religiosity during the soviet era but most of it is written from the hostile perspective of officials and scholars charged with promoting atheism based on archival research in locations as diverse as the multi religious volga region moscow and texas sonja luehrmann argues that we can learn a great deal about soviet religiosity when we focus not just on what documents say but also on what they did especially during the post war decades 1950s 1970s the puzzle of religious persistence under socialism challenged atheists to develop new approaches to studying and theorizing religion while also trying to control it taking into account the logic of filing systems as well as the content of documents the book shows how documentary action made religious believers firmly a part of soviet society while simultaneously casting them as ideologically alien when juxtaposed with oral printed and samizdat sources the records of institutions such as the council of religious affairs and the communist party take on a dialogical quality in distanced and carefully circumscribed form they preserve traces of encounters with religious believers by contrast collections compiled by western supporters during the cold war sometimes lack this ideological friction recruiting soviet believers into a deceptively simple binary of religion versus communism through careful readings and comparisons of different documentary genres and depositories this book opens up a difficult set of sources to students of religion and secularism

Is Critique Secular? 2009-11 in this volume four leading thinkers of our times confront the paradoxes and dilemmas attending the supposed stand off between islam and liberal democratic values taking the controversial danish cartoons of mohammad as a point of departure talal asad wendy brown judith butler and saba mahmood inquire into the evaluative frameworks at stake in understanding the conflicts between blasphemy and free speech between religious taboos and freedoms of thought and expression and between secular and religious world views is the language of the law an adequate mechanism for the adjudication of such conflicts what other modes of discourse are available for the navigation of such differences in multicultural and multi religious societies what is the role of critique in such an enterprise these are among the pressing questions this volume addresses

Writing and Reading Byzantine Secular Poetry, 1025-1081 2014-07-17 in the mid eleventh century secular byzantine poetry attained a hitherto unseen degree of wit vividness and personal involvement chiefly exemplified in the poetry of christophoros mitylenaios ioannes maupous and michael psellos this is the first volume to consider this poetic activity as a whole critically reconsidering modern assumptions about byzantine poetry and focusing on byzantine conceptions of the role of poetry in society by providing a detailed account of the various media through which poetry was presented to its readers and by tracing the initial circulation of poems this volume takes an interest in the byzantine reader and his/her reading habits and strategies allowing aspects of performance and visual representation rarely addressed to come to the fore it also examines the social interests that motivated the composition of poetry establishing a connection with the extraordinary social mobility of the time self representative strategies are analyzed against the background of an unstable elite struggling to find moral justification which allows the study to raise the question of patronage examine the discourse used by poets to secure material rewards and explain the social dynamics of dedicatory epigrams finally gift exchange is explored as a medium that underlines the value of poetry and confirms the exclusive nature of intellectual friendship

The Pentecostal Commentary 101-01-01 a trinitarian exposition of the new testament this series is designed with the serious trinitarian pentecostal student in mind with a foundational commitment to the inspiration and infallibility of scripture each passage is explained in terms of its theological and practical significance in addition the distinctive pentecostal pneumatology is sustained key doctrines are identified and expounded important cross references within scripture are noted historical connections in church history are mentioned erroneous teachings are scrutinized comments are based on the king james version the kjv text is printed in the body of the commentary with a modern style of readability this commentary series is appropriate for anyone seeking to grow and understand the truths of scripture and is especially helpful to pastors as well as college and seminary students author's foreward as a pentecostal student attending a pentecostal bible college i went to the college bookstore to purchase my textbooks without knowing that the commentaries on my book list were written by non

pentecostals even though my classes required commentaries from various publishers none of the publishers were pentecostal i often wondered why a pentecostal bible school would use non pentecostal commentaries for class what i did not know at the time was that there really was no such thing as a pentecostal commentary written for and by pentecostals since then there have been a few pentecostals who have written on individual books but there are significant portions of even the new testament that have had little or no pentecostal voice as a result serious pentecostal students have no other choice but to learn at the feet of non pentecostals i am not opposed to non pentecostal commentaries indeed i have gained considerable insights from reading such but there are two points of theology that i must consciously filter out every time i read them the most important concern to a pentecostal is that the pneumatology the study of the holy spirit presented by non pentecostals is very different than that of a pentecostal the second point is the emphasis on calvinistic doctrines especially eternal security with which most pentecostals do not agree in addition there are other theological differences and substantially different hermeneutical principals that can dramatically alter the interpretation of texts in non pentecostal ways in my studies i have always desired to have a commentary that was thoroughly pentecostal but i never imagined that i would write one from one pentecostal to another i hope you will find this series to be a breath of fresh spirit anointed air series preface while it is hoped that bible students from other theological traditions will study and benefit from its contents it is first and foremost pentecostal as such this commentary does not include surveys of other viewpoints unless such inclusion is necessary for clarity of argument in addition with all due respect to our charismatic brethren it may be said that this series is not meant to be inclusive of charismatic interpretations related to pneumatology the pentecostal commentary series intentionally excludes views of scripture that do not hold to its inspiration inerrancy and infallibility and also excludes modern liberal arguments of authorship date purpose and so on traditional viewpoints on these subjects will be discussed without confusing the issue in addition 19th century criticism methods and concerns over source documents will not often be discussed in other words this series assumes that the biblical text is as god wants it to be and that it was written by the person and at the time traditionally ascribed
