from the moment he began medical school people thought swango was peculiar he seemed woefully incompetent in classwork showed no empathy for patients and was obsessed with violent death when he interned at ohio state patients started dying mysteriously then swango was jailed for poisoning several co workers incredibly after his release from prison he secured hospital positions in south dakota and new york and the body count continued to rise although suspected by the fbi of possibly 60 murders swango has never been convicted of anything worse than fraud stewart s remarkable reporting is a horrifying yet fascinating and incredibly important look at flaws in the medical profession that possibly allowed dozens of murders to go unpunished

from the award winning author of mrs and the fundamentals of play comes a brilliant and biting short story collection about pride privilege and our nagging need to belong in an era of hot takes and easy generalizations this collection reclaims the absurdities and paradoxes of life as it is actually lived from the american fantasy of niceness in macy s world human desires and fatal blind spots slam headlong into convenient social media driven narratives that would sort us into neat boxes of insider or

outsider good or bad with us or against us time and again whether at home or in the age old role of americans abroad macy s women see their good intentions turn awry a woman who tries to do a good deed for an underprivileged child sees it go horribly wrong a wife attempting to be a good host to a friend s strange ex boyfriend finds herself in a compromised situation and in the title story a newlywed fancies herself a euro sophisticate until an accident reminds her just how truly foreign she really is in tales where shocking and sometimes brutal events disabuse characters of their most cherished beliefs macy forgoes easy moralization in favor of uncomfortable truths that reveal the complexity of what it means to be human
