1965 the high water moment for liberalism and ending with the national disillusionment that set in after hurricane katrina ravaged new orleans the right path effortlessly blends american political history with astute analysis and pithy no holds barred commentary both a bracing call to arms and a commonsense history the right path provides an illuminating look at conservatism and its discontents and why the gop must regain its former tone and tradition if it hopes to survive praise for the right path this concise history of modern republican politics might just leave you optimistic about the chances that conservatives can govern again in the world of commentary we tend to obsess over the quotidian ebbs and flows assuming that every little bump in the road is a disaster but there s something about reading the history that allows one to take a longer view and put things in context and that s precisely what this book does very well the daily caller the right path is the right book at the right time to spark a much needed conversation about the future of the republican party doris kearns goodwin if you re interested in the republican future you need to read the right path i don t agree with all of it but joe scarborough has written a book that s both thought provoking and fun william kristol joe scarborough s lively provocative and instructive history of the modern republican party will stir up the gop which is exactly what he has in mind as the grand old party searches for a path to victory joe offers some important lessons to be learned tom brokaw joe scarborough s incisive original provocative and well argued book deploying american political history both distant and recent deserves to be widely read carefully considered and energetically debated michael beschloss this new study brings together leading experts to show how the modern world began with the coming of the railway they clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world while the effect of railways on economic development is self evident little attention has been paid to their impact on international relations this is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the great powers this took many forms often as in east asia the competition for railway concessions reflected the clash of rival imperial interests the success or failure of this competition could determine which of the european powers was to dominate and exploit the markets of china and siam just as often railways were linked with military matters prussia s success in the wars of german unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of german military thinking before the first world war so too did they for the russians whose vast empire required

elementary number theory and its applications 4th edition

rail links capable of moving the tsarist army quickly and competently just as importantly railways could be vital for imperial defence as the british discovered on the north west frontier of india this book will be of much interest to students of international history military history and strategic studies 1960

the years of lyndon johnson is the political biography of our time no president no era of american politics has been so intensively and sharply examined at a time when so many prime witnesses to hitherto untold or misinterpreted facets of a life a career and a period of history could still be persuaded to speak the path to power book one reveals in extraordinary detail the genesis of the almost superhuman drive energy and urge to power that set lbj apart chronicling the startling early emergence of johnson s political genius it follows him from his texas boyhood through the years of the depression in the texas hill country to the triumph of his congressional debut in new deal washington to his heartbreaking defeat in his first race for the senate and his attainment nonetheless of the national power for which he hungered we see in him from earliest childhood a fierce unquenchable necessity to be first to win to dominate coupled with a limitless capacity for hard unceasing labor in the service of his own ambition caro shows us the big gangling awkward young lyndon raised in one of the country s most desperately poor and isolated areas his education mediocre at best his pride stung by his father s slide into failure and financial ruin lunging for success moving inexorably toward that ultimate impossible goal that he sets for himself years before any friend or enemy suspects what it may be we watch him while still at college instinctively and ruthlessly creating the beginnings of the political machine that was to serve him for three decades we see him employing his extraordinary ability to mesmerize and manipulate powerful older men to mesmerize and sometimes almost enslave useful subordinates we see him carrying out before his thirtieth year his first great political inspiration tapping and becoming the political conduit for the money and influence of the new oil men and contractors who were to grow with him to immense power we follow close up the radical fluctuations of his relationships with the formidable mr sam rayburn who loved him like a son and whom he betrayed and with fdr himself and we follow the dramas of his emotional life the intensities and complications of his relationships with his family his contemporaries his girls his wooing and winning of the shy lady bird his secret love affair over many years with the mistress of one of his most ardent and

Paths to International Political Economy 1984 how and why countries become democracies remain intriguing questions this innovative volume provides a theoretically informed comparative investigation of the links between revolutions totalitarianism and democracy it will appeal to those interested in the relationship between history and democracy and the implications for the understanding of democracy today

Paths to Democracy 2004 examines how many free societies have fallen to tyranny and looks at the possibility that the united states could be next

Paths to International Political Economy 1984 the path to power is a memoir by former prime minister of the united kingdom margaret thatcher covering her life from her birth in 1925 until she became prime minister in 1979 margaret thatcher s government was she says about the application of a philosophy not the implementation of an administrative programme these ideas and beliefs were propelled throughout her time in office by a forcefulness and conviction particularly in critical moments in her premiership the falklands war the miner s strike the brighton bomb and her three election victories in the second volume of her memoirs following the downing street years she reveals the inspiration behind many of her philosophies she discusses

the formative years of her childhood in Grantham the values she learnt at home the profound influence of her shopkeeping father and of her own schooling on future conservative education policies she recounts her days at Oxford her academic work as a scientist marriage to Dennis and the beginning of her career as a politician when in 1959 she was selected to stand at Finchley she gives her views on the governments of Harold Macmillan Alec Douglas Home Harold Wilson Edward Heath and Jim Callaghan and sets out the development of her ideas during her time in opposition

The Path to Tyranny 2010-05-17 a new edition of a book that takes a comprehensive look at the ways economic processes affect global environmental outcomes this comprehensive and accessible book fills the need for a political economy view of global environmental politics focusing on the ways international economic processes affect environmental outcomes it examines the main actors and forces shaping global environmental management particularly in the developing world moving beyond the usual emphasis on international agreements and institutions it strives to capture not only academic theoretical debates but also views on politics economics and the environment within the halls of global conferences on the streets during antiglobalization protests and in the boardrooms of international agencies nongovernmental organizations and industry associations the book maps out an original typology of four contrasting worldviews of environmental change those of market liberals institutionalists bioenvironmentalists and social greens and uses them as a framework to examine the links between the global political economy and ecological change this typology provides a common language for students instructors and scholars to discuss the issues across the classical social science divisions the second edition of this popular text has been thoroughly revised and updated to reflect recent events including the food crisis of 2007-2008 the financial meltdown of 2008 and the Copenhagen climate conference of 2009 topics covered include the environmental implications of globalization wealth poverty and consumption global trade transnational corporations and multilateral and private finance

Paths to a Green World: The Political Economy of the Global Environment 2008 this book provides a cross country study of the consequences of the expansion of intra party democracy the trend towards more inclusive methods of selection for party candidates and leaders and the impact of these on political elites in terms of sociopolitical profile and patterns of careers it explores the link between political organizations and political elites by studying the role of parties in parliamentary and political selection and its impact on the political

leadership appointed putting an emphasis on primary elections it analyses the party elites that emerge from those selection processes and those democratized organizational settings it focuses not only on the analysis of the processes through which party elites are selected and the consequences at the level of the party but also at the level of party elites themselves i e what impact party primaries have on the characteristics parties candidates and leaders the book offers a theoretical comparative and empirical account of the internal electoral processes of parties and their impact on political recruitment this book will be of key interest to scholars and students of political elites political parties and party systems electoral politics democracy populism and leadership and more broadly to comparative politics

The Path to Power 1995 in the last ten years there has been a resurgence of interest in repression and violence within states paths to state repression improves our understanding of why states use political repression highlighting its relationship to dissent and mass protest the authors draw upon a wide variety of political economic contexts methodological approaches and geographic locales including cuba nicaragua peru sri lanka indonesia israel eastern europe and africa this book is invaluable to all who wish to better understand why central authorities violate and restrict human rights and how states can break their cycles of conflict

Paths to a Green World, second edition 2011-03-11 a groundbreaking account of how prolonged grassroots mobilization lays the foundations for durable democratization when protests swept through the middle east at the height of the arab spring the world appeared to be on the verge of a wave of democratization yet with the failure of many of these uprisings it has become clearer than ever that the path to democracy is strewn with obstacles mohammad ali kadivar examines the conditions leading to the success or failure of democratization shedding vital new light on how prodemocracy mobilization affects the fate of new democracies drawing on a wealth of new evidence kadivar shows how the longest episodes of prodemocracy protest give rise to the most durable new democracies he analyzes more than one hundred democratic transitions in eighty countries between 1950 and 2010 showing how more robust democracies emerge from lengthier periods of unarmed mobilization kadivar then analyzes five case studies south africa poland pakistan egypt and tunisia to investigate the underlying mechanisms he finds that organization building during the years of struggle develops the leadership needed for lasting democratization and strengthens civil society after dictatorship popular politics and the path to durable democracy challenges the prevailing wisdom in american

foreign policy that democratization can be achieved through military or coercive interventions revealing how lasting change arises from sustained nonviolent grassroots mobilization

New Paths for Selecting Political Elites 2021-05-15 pope francis recounts his early life including his relationship with his mother and his grandmothers former girlfriends and childhood sweethearts as well as the psychoanalysis he underwent aged 42 dominique wolton asks pope francis about his decision not to live at the grand apostolic palace about his views on the future of europe all within the context of politics society and the role of the church no subject is taboo with paedophile priests divorce and the role of women in the church all coming into the discussion dominique wolton french sociology and politics specialist reveals the fascinating inner thoughts of his holiness including personal truths and stories from his early life never before made public recorded over the course of a year these warm and human encounters freely address the major issues of our time peace and war politics and religion globalization and cultural diversity fundamentalism and secularism europe and migrants ecology inequalities in the world ecumenism and inter religious dialogue the individual family time trust and joy

Women's Paths to Power 2021-03-25 after two decades of marketizing an array of national and international actors have become concerned with growing global inequality the failure to reduce the numbers of very poor people in the world and a perceived global backlash against international economic institutions this new concern with poverty reduction and the political participation of excluded groups has set the stage for a new politics of inclusion within nations and in the international arena the essays in this volume explore what forms the new politics of inclusion can take in low and middle income countries the contributors favor a polity centered approach that focuses on the political capacities of social and state actors to negotiate large scale collective solutions and that highlights various possible strategies to lift large numbers of people out of poverty and political subordination the contributors suggest there is little basis for the radical polycentrism that colors so much contemporary development thought they focus on how the political capabilities of different societal and state actors develop over time and how their development is influenced by state action and a variety of institutional and other factors the final chapter draws insightful conclusions about the political limitations and opportunities presented by current international discourse on poverty peter p houtzager is a fellow at the institute of development studies university of sussex he has been a visiting scholar at the center for latin american studies university of california berkeley visiting lecturer at stanford

university and lecturer at st mary s college a political scientist with broad training in comparative politics and historical institutional analysis he has written extensively on the institutional roots of collective action mick moore is a fellow at the institute of development studies university of sussex as well as director of the centre for the future state he has been a visiting professor at the massachusetts institute of technology his professional interests include political and institutional aspects of poverty reduction and of economic policy and performance the politics and administration of development and good government

Paths to State Repression 2000-03-15 why do human beings fight one another in this exhilarating and bracing book we learn the common logic driving vainglorious monarchs dictators mobs pilots football hooligans ancient peoples and fanatics distilling decades of economics political science psychology and real world interventions and through his time studying columbia chicago liberia and northern ireland christopher blattman lifts the lid on the underlying forces governing war and peace why did russia attack ukraine will china invade taiwan and launch wwiii and what can any of us do about it captivating and intelligent tim harford wise intriguing imaginative rory stewart nothing could be more relevant today than war and peace an outstanding and original book on this topic martin wolf financial times important readable radical david miliband a great storyteller with important insights for us all richard thaler co author of nudge essential for understanding the world we live in today james a robinson co author of why nations fail

Popular Politics and the Path to Durable Democracy 2022-11-22 politics unveiled is a comprehensive guidebook for individuals interested in politics or aspiring to be successful political leaders the book covers various topics such as building a political network winning elections communication skills social media negotiation team building conflict resolution civic engagement and the future of politics it also emphasizes the importance of understanding politics preparing oneself for it and maintaining one s image in the political field overall it is a must read for anyone curious about the nuances of the political world

The Path to Change 2018-08-09 margaret thatcher s premiership from 1979 to 1990 had a profound impact on scotland david stewart analyzes the impact of this period of conservative government on scotland while examining the extent to which conservative policy under thatcher represented a break from the post war consensus in british politics focusing on the origins and impact of the poll tax the campaign to save raven-s-craig steelworks the sharpening of the north south divide the 1984 85 miners strike and the balance of power within scottish civil society he makes substantial contributions to the debates surrounding

the decline of scottish unionism the roots of scottish devolution the legacy of thatcherism and the changing british constitution bloomsbury publishing

Changing Paths 2009-12-14 we are moving into a world where a power elite allocates jobs where commodities buy consumers where socialist as well as capitalist dogma is an obstacle to comprehension in this book andre gorz returns to marx s grundrisse and the prophecy of early nineteenth century socialists and rediscovers a vision of post capitalist society founded on the automation of work and the transcending of the exchange economy he argues that we have reached the precise stage where these utopian insights become a reality if the socialist movement is to have something to say to a generation whose identity is no longer shaped at work it must grasp these insights

Why We Fight 2022-04-21 traces johnson s life from his texas childhood through his rise to political power and his successful 1948 senatorial campaign and eventual presidency

POLITICS UNVEILED 2023-07-25 drawing on more than 40 years of experience with policy analysis best selling authors eugene bardach and eric m patashnik use practical tips and real world examples to equip effective accurate and persuasive policy analysts the seventh edition of a practical guide for policy analysis offers new case studies expanded discussion new guidance for policy analysis in a polarized age and step by step strategies for the budding analyst as well as the seasoned professional

The Path to Devolution and Change 2009 joe scarborough former republican congressman and the always insightful host of msnbc s morning joe takes a nuanced and surprising look at the unexpected rise and self inflicted fall of the republican party dominant in national politics for forty years under the influence of the conservative but pragmatic leadership of dwight eisenhower and ronald reagan the gop scarborough argues is in a self inflicted eclipse the only way forward recover the principled realism of the giants who led the party to greatness in the aftermath of lyndon johnson s 1964 landslide the republican party appeared to be on the verge of permanent irrelevance lbj s great society was institutionalizing sweeping liberal reforms and the united states had a thriving prosperous economy yet in an instant everything changed and the next four decades would witness an unprecedented era of republican ascendancy what happened in the right path joe scarborough looks back in time to discern how republicans once dominated american public life from eisenhower s refusal to let the perfect be the enemy of the good to reagan s charismatic but resolutely practical genius scarborough shows how principled pragmatism

combined with a commitment to core conservative values led to victory after victory now however political incaltrance is threatening to turn a once mighty party into a permanent minority opening with the passage of the voting rights act in 1965 the high water moment for liberalism and ending with the national disillusionment that set in after hurricane katrina ravaged new orleans the right path effortlessly blends american political history with astute analysis and pithy no holds barred commentary both a bracing call to arms and a commonsense history the right path provides an illuminating look at conservatism and its discontents and why the gop must regain its former tone and tradition if it hopes to survive praise for the right path this concise history of modern republican politics might just leave you optimistic about the chances that conservatives can govern again in the world of commentary we tend to obsess over the quotidian ebbs and flows assuming that every little bump in the road is a disaster but there s something about reading the history that allows one to take a longer view and put things in context and that s precisely what this book does very well the daily caller the right path is the right book at the right time to spark a much needed conversation about the future of the republican party doris kearns goodwin if you re interested in the republican future you need to read the right path i don t agree with all of it but joe scarborough has written a book that s both thought provoking and fun william kristol joe scarborough s lively provocative and instructive history of the modern republican party will stir up the gop which is exactly what he has in mind as the grand old party searches for a path to victory joe offers some important lessons to be learned tom brokaw joe scarborough s incisive original provocative and well argued book deploying american political history both distant and recent deserves to be widely read carefully considered and energetically debated michael beschloss

Paths to Paradise 1985 this new study brings together leading experts to show how the modern world began with the coming of the railway they clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world while the effect of railways on economic development is self evident little attention has been paid to their impact on international relations this is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the great powers this took many forms often as in east asia the competition for railway concessions reflected the clash of rival imperial interests the success or failure of this competition could determine which of the european powers was to dominate and exploit the markets of china and siam just

as often railways were linked with military matters prussia s success in the wars of german unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of german military thinking before the first world war so too did they for the russians whose vast empire required rail links capable of moving the tsarist army quickly and competently just as importantly railways could be vital for imperial defence as the british discovered on the north west frontier of india this book will be of much interest to students of international history military history and strategic studies

A Practical Guide for Policy Analysis 2023-07-17 the years of lyndon johnson is the political biography of our time no president no era of american politics has been so intensively and sharply examined at a time when so many prime witnesses to hitherto untold or misinterpreted facets of a life a career and a period of history could still be persuaded to speak the path to power book one reveals in extraordinary detail the genesis of the almost superhuman drive energy and urge to power that set lbj apart chronicling the startling early emergence of johnson s political genius it follows him from his texas boyhood through the years of the depression in the texas hill country to the triumph of his congressional debut in new deal washington to his heartbreaking defeat in his first race for the senate and his attainment nonetheless of the national power for which he hungered we see in him from earliest childhood a fierce unquenchable necessity to be first to win to dominate coupled with a limitless capacity for hard unceasing labor in the service of his own ambition caro shows us the big gangling awkward young lyndon raised in one of the country s most desperately poor and isolated areas his education mediocre at best his pride stung by his father s slide into failure and financial ruin lunging for success moving inexorably toward that ultimate impossible goal that he sets for himself years before any friend or enemy suspects what it may be we watch him while still at college instinctively and ruthlessly creating the beginnings of the political machine that was to serve him for three decades we see him employing his extraordinary ability to mesmerize and manipulate powerful older men to mesmerize and sometimes almost enslave useful subordinates we see him carrying out before his thirtieth year his first great political inspiration tapping and becoming the political conduit for the money and influence of the new oil men and contractors who were to

grow with him to immense power we follow close up the radical fluctuations of his relationships with the formidable mr sam rayburn who loved him like a son and whom he betrayed and with fdr himself and we follow the dramas of his emotional life the intensities and complications of his relationships with his family his contemporaries his girls his wooing and winning of the shy lady bird his secret love affair over many years with the mistress of one of his most ardent and generous supporters johnson driving his people to the point of exhausted tears equally merciless with himself johnson bullying cajoling lying yet inspiring an amazing loyalty johnson maneuvering to dethrone the unassailable old jack garner then vice president of the united states as the new deal s connection in texas and seize the power himself johnson raging johnson hugging johnson bringing light and indeed life to the worn hill country farmers and their old at thirty wives via the district s first electric lines we see him at once unscrupulous admirable treacherous devoted and we see the country that bred him the harshness and nauseating loneliness of the rural life the tragic panorama of the depression the sudden glow of hope at the dawn of the age of roosevelt and always in the foreground on the move lbj here is lyndon johnson his texas his washington his america in a book that brings us as close as we have ever been to a true perception of political genius and the american political process

The Right Path 2013-11-12 this edition of women and elective office offers the latest research on women as candidates and officeholders it provides a comprehensive look at the history and status of women in elective office their prospects for the future and why women in elected office matter to american democracy it features all new essays and up to the minute research by leading experts in the field including the latest political trends and events such as hillary rodham clinton s run for the presidency women s representation on the state and local level the diversity of women officeholders experiences and circumstances and female judges women and elective office is an essential guide to understanding the past present and future of women in all echelons of government

Railways and International Politics 2012-09-10 transforms the arguments about why women are not found in more and higher positions of political power from their lack of self confidence or a biased political sphere by expanding the definition of political sphere beyond elective office

Politics and Economy and Law in Developing Asia: A Reflection on Law and Development 2022-10-15 a new edition of a book that takes a comprehensive look at the ways economic processes affect global

environmental outcomes this comprehensive and accessible book fills the need for a political economy view of global environmental politics focusing on the ways international economic processes affect environmental outcomes it examines the main actors and forces shaping global environmental management particularly in the developing world moving beyond the usual emphasis on international agreements and institutions it strives to capture not only academic theoretical debates but also views on politics economics and the environment within the halls of global conferences on the streets during antiglobalization protests and in the boardrooms of international agencies nongovernmental organizations and industry associations the book maps out an original typology of four contrasting worldviews of environmental change those of market liberals institutionalists bioenvironmentalists and social greens and uses them as a framework to examine the links between the global political economy and ecological change this typology provides a common language for students instructors and scholars to discuss the issues across the classical social science divisions the second edition of this popular text has been thoroughly revised and updated to reflect recent events including the food crisis of 2007 2008 the financial meltdown of 2008 and the copenhagen climate conference of 2009 topics covered include the environmental implications of globalization wealth poverty and consumption global trade transnational corporations and multilateral and private finance

The Path to Power 1982-11-12 winner of the 1999 best book in ecological and transformational politics presented by the american political science association s section on ecological and transformational politics the discipline of political science has reached a crossroads the frequency with which terms such as post liberal post modern post patriarchal post materialist and post structural are used in contemporary political discourse testifies to the pervasive conviction that an era has ended similarly phrases such as new world order new paradigm new age and third wave convey the widely shared expectation that what lies ahead politically will be qualitatively unlike what has gone before transformational politics argues that traditional political science is failing to identify and address fundamental political phenomena of our time and proposes an alternative value based political science that not only studies phenomena but also uses knowledge to promote democracy sustainability and social conscience part i of the book defines transformational political theory as an emerging paradigm and draws on a wide array of theories empowerment feminist democratic communitarian chaos quantum conflict resolution self actualization part ii examines how a transformational perspective guides the study of

politics in both research and teaching part iii offers guidance about how to practice the theory and apply the study with a concern for creating a better world

Women and Elective Office 2014-01-02 this book explores pendular politics in latin america focusing on electoral cycles with a pattern of similar results latin america has been neoliberal in the 1990s leftist during the 2000s then conservative in 2016 2018 and progressist again since 2018 the reference to a right left right left sequence over a period of thirty years undoubtedly accounts for a singular pendulum pattern yet proves to be excessively simplistic the right left dichotomy hides fractures and nuances that characterize each political camp this book seeks to explain why some elections result in alternations and others do not based on an innovative theoretical framework and a unique collection of case studies the book offers a rich understanding of latin america s contemporary political evolutions voters are getting accustomed to punishing incumbents for not delivering in time of crises resulting in frequent alternations it might be good for democracy not so much for governability

All Roads Lead to Power 2019 this book traces the development environment discourse in india and examines the multi layered interaction between society and nature in the light of the role of the state judiciary and the civil society through an array of perspectives the volume challenges the conventional approach to understanding the environmental politics in south asia without considering the role of the civil society and other informal actors which has radically altered the conventional articulation of the phenomenon the volume underlines distinct structural characteristics of developmental politics in india and the social concerns and challenges which come in the way of environmental policy and governance in india it is a meaningful intervention in unearthing significant socio political and economic processes which are critical to the environmental governance in india the book will not only be helpful in studying the state of policy administration and politics of environmental discourse in india but also guide the policymakers to explore the sustainable ways of environmental governance in south asia insightful and lucid this book will be useful to the students researchers and faculty working in the field of political science public administration public policy political sociology political economy and governance studies it will also be an invaluable and interesting reading for those interested in south asian studies

Paths to a Green World, second edition 2011-03-11 what are the relationships among religion politics and narratives what makes prophetic political narratives congenial or hostile to democratic political

life david s gutterman explores the prophetic politics of four twentieth and twenty first century american christian social movements the reverend billy sunday and his vision of muscular christianity dr martin luther king jr and the civil rights movement the conservative christian male organization promise keepers and the progressive antipoverty organization call to renewal gutterman develops a theory based on the work of hannah arendt and others and employs this framework to analyze expressions of the prophetic impulse in the political narrative of the united states in the process he examines issues about the tense and intricate relationship between religion and politics jacket

Transformational Politics 1998-08-13 through the intervention of the european union the lives of people living in bosnia herzegovina serbia and kosovo have been transformed beyond recognition from the perspective of the western balkans today the eu looks and acts like a development agency with a broad brief and deep pockets yet until the end of the twentieth century external relations and foreign policy were minor aspects of eu activity how and why has the role of the eu changed so dramatically and what does this reveal about the future development of the balkan states europe s balkan dilemma offers the first comprehensive analysis of the impact of eu assistance and intervention in bosnia herzegovina serbia and kosovo adam fagan places the fundamental question of what has been achieved through the eu s increased involvement in the region in the context of the eu s ambitions in global security and conflict management beyond the balkan states europe s balkan dilemma will be a vital resource not only for students of international relations and european studies but also for anyone involved in helping to equip this tumultuous region for the next phase in its eventful history

Latin America's Pendular Politics 2023-03-22 by revealing the contextual conditions which promote or hinder democratic development comparative politics shows how democracy may not be the best institutional arrangement given a country s unique set of historical economic social cultural and international circumstances addresses the contextual conditions which promote or hinder democratic development reveals that democracy may not be the best institutional arrangement given a country s unique set of historical economic social cultural and international circumstances applies theories and principles relating to the promotion of the development of democracy to the contemporary case studies

Environmental Policy, Governance and Politics 2024-07-26 why have some states in the developing world been more successful at facilitating industrialization than others challenging theories that privilege

industrial policy and colonial legacies this book focuses on state structure and the politics of state formation arguing that a cohesive state structure is as important to developmental success as effective industrial policy based on a comparison of six asian cases including both capitalist and socialist states with varying structural cohesion tuong vu proves that it is state formation politics rather than colonial legacies that have had decisive and lasting impacts on the structures of emerging states his cross national comparison of south korea vietnam republican and maoist china and sukarno s and suharto s indonesia which is augmented by in depth analyses of state formation processes in vietnam and indonesia is an important contribution to understanding the dynamics of state formation and economic development in asia

Prophetic Politics 2006 world politics review special reports are detailed compilations of recent wpr articles on a special theme this report focuses on the arab spring summary more than two years after a wave of protests swept through much of the arab world the countries of the arab spring are on sharply divergent paths this wpr special report examines the internal political and security issues facing those countries as well as attempts to manage them from the outside with an extended focus on syria

Europe's Balkan Dilemma 2012-11-05 the rainforests of equatorial africa cover an area almost as large as western europe and some 12 million people live there so why has this area remained without a historiography vansina disputes the myth of an unchanging past in a hostile environment and demonstrates that there are rich and complex political social and economic histories to be uncovered as varied as the forest habitats themselves north america university of wisconsin press

Comparative Politics 2011-03-01 the years of lyndon johnson is the political biography of our time no president no era of american politics has been so intensively and sharply examined at a time when so many prime witnesses to hitherto untold or misinterpreted facets of a life a career and a period of history could still be persuaded to speak the path to power book one reveals in extraordinary detail the genesis of the almost superhuman drive energy and urge to power that set lbj apart chronicling the startling early emergence of johnson s political genius it follows him from his texas boyhood through the years of the depression in the texas hill country to the triumph of his congressional debut in new deal washington to his heartbreaking defeat in his first race for the senate and his attainment nonetheless of the national power for which he hungered we see in him from earliest childhood a fierce unquenchable necessity to be first to win to dominate coupled with a limitless capacity for hard unceasing labor in the service of his own

ambition caro shows us the big gangling awkward young lyndon raised in one of the country s most desperately poor and isolated areas his education mediocre at best his pride stung by his father s slide into failure and financial ruin lunging for success moving inexorably toward that ultimate impossible goal that he sets for himself years before any friend or enemy suspects what it may be we watch him while still at college instinctively and ruthlessly creating the beginnings of the political machine that was to serve him for three decades we see him employing his extraordinary ability to mesmerize and manipulate powerful older men to mesmerize and sometimes almost enslave useful subordinates we see him carrying out before his thirtieth year his first great political inspiration tapping and becoming the political conduit for the money and influence of the new oil men and contractors who were to grow with him to immense power we follow close up the radical fluctuations of his relationships with the formidable mr sam rayburn who loved him like a son and whom he betrayed and with fdr himself and we follow the dramas of his emotional life the intensities and complications of his relationships with his family his contemporaries his girls his wooing and winning of the shy lady bird his secret love affair over many years with the mistress of one of his most ardent and generous supporters johnson driving his people to the point of exhausted tears equally merciless with himself johnson bullying cajoling lying yet inspiring an amazing loyalty johnson maneuvering to dethrone the unassailable old jack garner then vice president of the united states as the new deal s connection in texas and seize the power himself johnson raging johnson hugging johnson bringing light and indeed life to the worn hill country farmers and their old at thirty wives via the district s first electric lines we see him at once unscrupulous admirable treacherous devoted and we see the country that bred him the harshness and nauseating loneliness of the rural life the tragic panorama of the depression the sudden glow of hope at the dawn of the age of roosevelt and always in the foreground on the move lbj here is lyndon johnson his texas his washington his america in a book that brings us as close as we have ever been to a true perception of political genius and the american political process

Paths to Development in Asia 2010-03-22 climate change differs from any other problem that as collective humanity we face today if it goes unchecked the consequences are likely to be catastrophic for human life on earth yet for most people and for many policy makers too it tends to be a back of the mind issue this book argues controversially we do not have a systematic politics of climate change politics as usual won t allow us to deal with the problems we face while the recipes of the main
