this book includes age and grade level appropriate activities that focus on health related issues such as nutrition exercise smoking safety and much more reproducible problem solving is the emphasis as students delve into diverse activities from all five nctm content standards empower your students to build new mathematical knowledge solve problems in context apply and adapt appropriate strategies and reflect on their thinking while reinforcing mathematical skills hands on activities in a variety of question formats make the mathematics accessible to all learning types student created problems help motivate students and communication prompts enhance mathematical speech and writing includes skill checks cumulative tests assessment guidelines and vocabulary cards the nctm standards correlation chart and the icons at the top of each page make it easy to identify which content and process standards are being utilized answer key provided master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade 2 the book supports nctm standards including length volume weight area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments master math and ace algebra using the standards algebra includes more than 100 reproducible activities that make algebra meaningful for students in grade 2 the book supports nctm standards including patterns and function situations and structures models and changes in context the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments helps young people become more familiar with south america through reading writing researching and illustrating daily warmups math problems puzzles is packed with a variety of engaging math problems and puzzles that teachers and parents can use daily for children in grade 2 included on each page are two reproducible problems that are challenging yet appropriate for second grade students and can be solved in about 10 minutes or less all problems and puzzles are based on the nctm standards these problems develop problem solving and other vital skills and get students warmed up and ready for further learning they are ideal for early morning or the beginning of math class exercises and can be worked independently or with a group answer key included 128 pages the top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book master math and ace algebra using the standards algebra includes more than 100 reproducible activities that make algebra meaningful for students in grade 3 the book supports nctm standards including patterns and function situations and structures models and changes in context the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments focus on 2 d and 3 d shapes size symmetry visual and spatial reasoning transformation location and position and coordinate geometry with these easy to use reproducible worksheets it includes hands on activities and timesaving teaching aids such as skill checks cumulative assessments and student created problems the vocabulary cards reinforce geometry terms and figures and the correlation chart and icons on each page make it easy to identify which standards are being used a pretest posttest and answer key are also provided master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade 3 the book supports nctm standards including length volume weight capacity temperature area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys cumulative assessments a 1 cm grid and reproducible rulers a top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book this reproducible math workbook contains teaching instructions examples directions and answers in both spanish and english to address the needs of a growing diverse population each page is designed to address all subject areas of nctm standards activities focus on addition subtraction more or less shapes taller or shorter and more the icons at the top of each page make it easy to identify effective activities using problem solving reasoning and proof communication connections and representation the book also includes an introduction and answer key in both english and spanish pretests and post tests skill checks and cumulative tests provides a unique and interesting

approach that goes beyond the traditional naming of our presidents to understanding the presidency and learning about those who have held the office master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade k the book supports nctm standards including length volume weight area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments daily warmups math problems puzzles is packed with a variety of engaging math problems and puzzles that teachers and parents can use daily for children in grade 5 included on each page are two reproducible problems that are challenging yet appropriate for fifth grade students and can be solved in about 10 minutes or less all problems and puzzles are based on the nctm standards these problems develop problem solving and other vital skills and get students warmed up and ready for further learning they are ideal for early morning or the beginning of math class exercises and can be worked independently or with a group answer key included 128 pages the top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade 4 the book supports nctm standards including length volume weight capacity temperature area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys cumulative assessments a 1 cm grid and reproducible rulers writing to explain is filled with fun high interest writing topics that will give your students a variety of opportunities to improve their writing skills the first activities focus on the fundamentals of explanatory writing such as using examples to make paragraphs more effective guided writing activities challenge students to compare and contrast objects and people write problem solution paragraphs write various types of letters and newspaper articles and much more a section on proofreading wraps up the book at the end all activities are reproducible students will use graphic planners such as webs and venn diagrams to organize their thoughts and ideas before writing writing to explain is the perfect tool to use when teaching your students the techniques of effective explanatory writing focusing on data analysis and probability this book includes activities on designing investigations collecting and interpreting data making inferences and predications and understanding probability with these easy to use reproducible worksheets includes hands on activities and timesaving teaching aids such as skill checks cumulative assessments and student created problems the vocabulary cards reinforce data analysis terms and figures and the correlation chart and icons on each page make it easy to identify which standards are being used pretest post test and answer key provided this resource helps school leaders focus on critical technology leadership issues and practical solutions for integrating technology into any school administration or professional development program master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade 1 the book supports nctm standards including length volume weight area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments problem solving is the emphasis as students delve into diverse activities from all five nctm content standards empower your students to build new mathematical knowledge solve problems in context apply and adapt appropriate strategies and reflect on their thinking while reinforcing mathematical skills hands on activities in a variety of question formats make the mathematics accessible to all learning types student created problems help motivate students and communication prompts enhance mathematical speech and writing includes skill checks cumulative tests assessment guidelines and vocabulary cards the nctm standards correlation chart and the icons at the top of each page make it easy to identify which content and process standards are being utilized answer key provided good writing requires knowledge and practice building writing skills provides both each page explains a basic writing skill concept offers an interesting exercise to learn the skill and helps students to acquire writing skills one at a time the objective easy to grade activities are perfect for reinforcing classroom learning providing additional practice and building confidence the pages also work as excellent tools to help teachers assess student abilities extension suggestions allow students to become authors and put skills to work immediately for additional reinforcement an invaluable addition to your classroom writing program reproducible 128 perforated pages fluency fun comprehension reading for every child fluency gives teachers the tools they need to develop fluent readers in the fifth grade classroom incorporating a variety of techniques including partner reading repeated reading choral reading and readers theater this book keeps students motivated as they make the bridge between word recognition and comprehension this 80 page book is based on reading first research and includes assessments and rubrics these standards based books stress the importance of proofreading and editing through activities with

different styles of writing such as letters journals newspaper articles expository persuasive informative writing and so on they teach students how to use standard proofreading and editing marks use this book to provide practice with a wide range of reading comprehension activities and encourage students to become netter readers reading selections from across the disciplines encourage students to understand evaluate and interpret what they have read focus on 2 d and 3 d shapes size symmetry visual and spatial reasoning transformation location and position and coordinate geometry with these easy to use reproducible worksheets it includes hands on activities and timesaving teaching aids such as skill checks cumulative assessments and student created problems the vocabulary cards reinforce geometry terms and figures and the correlation chart and icons on each page make it easy to identify which standards are being used a pretest posttest and answer key are also provided the top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book based on nctm standards these challenging and fun reproducible activities will utilize codes puzzles games and artwork to strengthen students mathematics aptitudes topics range from number exploration to geometry algebra measurement and data analysis and probability students will learn to convey math concepts and ideas determine financial pyramid schemes prime numbers theorems stock investments and the interest paid various uses of data and true randoms each page contains a notation of the nctm standard being addressed and the process standards are woven into the exercises on each page an answer key is also included and it features 128 perforated pages the top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book drawing on students love of mystery stories these high interest books combine important comprehension skills with fascinating puzzler texts daily warmups math problems puzzles is packed with a variety of engaging math problems and puzzles that teachers and parents can use daily for children in grade 1 included on each page are two reproducible problems that are challenging yet appropriate for first grade students and can be solved in about 10 minutes or less all problems and puzzles are based on the nctm standards these problems develop problem solving and other vital skills and get students warmed up and ready for further learning they are ideal for early morning or the beginning of math class exercises and can be worked independently or with a group answer key included 128 pages the top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book developing communication skills in mathematics is an important part of school curriculum and many standardized tests require written explanations on how math problems are solved this book provides teachers strategies to engage students in math discussions integrate the writing process and assess their work a writing checklist and a reflection page are also included for students there are opportunities to solve math problems and practice writing explanations on how the problems were solved the activities focus on number sense and operations geometry measurement and data analysis a scoring rubric and answer key is also provided turning average instruction into great instruction details a clear and concise approach to school improvement focusing school leaders on the critical factor that has the greatest impact on student achievement classroom instruction decades of research demonstrate that what happens between teachers and students in our nation s classrooms has the greatest impact on how well those students learn the current trend in school reform is to tackle all aspects of a school in order to improve student achievement forcing school leaders to attempt to focus on the school culture use of materials community relations teachers pre service training the school s physical design classroom decorations and instruction unfortunately such a wide scope leads to a lack of focus among school staff with his singular focus on classroom instruction what o connor suggests is an antithesis to that approach school leaders will develop a common understanding of the high impact instructional components that should be seen in every classroom o connor maps out how school leaders can align all personnel to systematically build training support and monitoring mechanisms that ensure that effective instruction becomes part of every classroom routine use these exciting collections of challenging and thought provoking activities to cultivate students critical thinking skills in math language arts science and social studies great fo substitutes reviews goal setting what to teach learning styles how to teach planning and record keeping resource addresses cover comprehension is the key to reading success reading for every child comprehension encourages fifth grade students to be stronger readers using a wide range of reading comprehension activities reading selections from across the disciplines encourages students to understand evaluate and interpret what they read this 80 page book includes projects worksheets games and graphic organizers it supports reading first and aligns with common core state standards these standards based books stress the importance of proofreading and editing through activities with different styles of writing such as letters journals newspaper articles expository persuasive informative writing and so on they teach students how to use standard proofreading and editing marks use these three jumbo volumes of engaging hands on activities to supplement and enrich your math program designed to support the use of funtastic frogs children will explore important math concepts ranging from matching and sorting to place value and beginning algebraic thinking each volume consists of previously published material an activity book reviewing reading language spelling mathematics social studies and science comprehension is the key to

Health, Hygiene, and Nutrition, Grades 3 - 4

2012-10-22

this book includes age and grade level appropriate activities that focus on health related issues such as nutrition exercise smoking safety and much more reproducible

Using the Standards - Problem Solving, Grade 1

2012-10-22

problem solving is the emphasis as students delve into diverse activities from all five nctm content standards empower your students to build new mathematical knowledge solve problems in context apply and adapt appropriate strategies and reflect on their thinking while reinforcing mathematical skills hands on activities in a variety of question formats make the mathematics accessible to all learning types student created problems help motivate students and communication prompts enhance mathematical speech and writing includes skill checks cumulative tests assessment guidelines and vocabulary cards the nctm standards correlation chart and the icons at the top of each page make it easy to identify which content and process standards are being utilized answer key provided

Using the Standards: Measurement, Grade 2

2009-01-04

master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade 2 the book supports nctm standards including length volume weight area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments

Using the Standards: Algebra, Grade 2

2009-01-04

master math and ace algebra using the standards algebra includes more than 100 reproducible activities that make algebra meaningful for students in grade 2 the book supports nctm standards including patterns and function situations and structures models and changes in context the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments

South America, Intermediate

1995

helps young people become more familiar with south america through reading writing researching and illustrating

Daily Warmups, Grade 2

2012-10-22

daily warmups math problems puzzles is packed with a variety of engaging math problems and puzzles that teachers and parents can use daily for children in grade 2 included on each page are two reproducible problems that are challenging yet appropriate for second grade students and can be solved in about 10 minutes or less all problems and puzzles are based on the nctm standards these problems develop problem solving and other vital skills and get students warmed up and ready for further learning they are ideal for early morning or the beginning of math class exercises and can be worked independently or with a group answer key included 128 pages the top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book

Using the Standards: Algebra, Grade 3

2009-01-04

master math and ace algebra using the standards algebra includes more than 100 reproducible activities that make algebra meaningful for students in grade 3 the book supports nctm standards including patterns and function situations and structures models and changes in context the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments

Using the Standards, Grade 4

2012-10-22

focus on 2 d and 3 d shapes size symmetry visual and spatial reasoning transformation location and position and coordinate geometry with these easy to use reproducible worksheets it includes hands on activities and timesaving teaching aids such as skill checks cumulative assessments and student created problems the vocabulary cards reinforce geometry terms and figures and the correlation chart and icons on each page make it easy to identify which standards are being used a pretest posttest and answer key are also provided

Using the Standards: Measurement, Grade 3

2009-01-04

master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade 3 the book supports nctm standards including length volume weight capacity temperature area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page

book includes pretests posttests answer keys cumulative assessments a 1 cm grid and reproducible rulers

Math Practice, Grade 3

2012-10-22

a top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book this reproducible math workbook contains teaching instructions examples directions and answers in both spanish and english to address the needs of a growing diverse population each page is designed to address all subject areas of nctm standards activities focus on addition subtraction more or less shapes taller or shorter and more the icons at the top of each page make it easy to identify effective activities using problem solving reasoning and proof communication connections and representation the book also includes an introduction and answer key in both english and spanish pretests and post tests skill checks and cumulative tests

The Presidents

1994

provides a unique and interesting approach that goes beyond the traditional naming of our presidents to understanding the presidency and learning about those who have held the office

Using the Standards: Measurement, Grade K

2009-01-04

master math with measurement using the standards measurement has more than 100 reproducible activities to make measurement meaningful for students in grade k the book supports nctm standards including length volume weight area time standard and nonstandard units and tools for measuring the vocabulary cards reinforce math terms and the correlation chart and icons on each page identify which content and process standards are being utilized this 128 page book includes pretests posttests answer keys and cumulative assessments

Daily Warmups, Grade 5

2012-10-22

daily warmups math problems puzzles is packed with a variety of engaging math problems and puzzles that teachers and parents can use daily for children in grade 5 included on each page are two reproducible problems that are challenging yet appropriate for fifth grade students and can be solved in about 10 minutes or less all problems and puzzles are based on the nctm standards these problems develop problem solving and other vital skills and get students warmed up and ready for further learning they are ideal for early morning or the beginning of math class exercises and can be worked independently or with a group answer key included 128 pages the top selling teacher resource line the 100 series tm features over 100 reproducible activities in each book

Using the Standards: Measurement, Grade 4
