Dec 15 2023

we provide an overview of the current status of the digital ecosystem in nephropathology which encompasses human expertise in renal pathology artificial intelligence ai omics science and

## *more than meets the eye the changing face of histopathology*

Nov 14 2023

now the face of histopathology is changing there is more than meets the eye molecular pathology therefore although the tissue diagnosis is still dominant the question arises of whether its basis in morphology is likely to weaken in an era of molecular medicine
