Raising Great Kids on Your Own 2007-03-01

one parent households frame the new landscape of american family life but raising kids alone is hard work and single parenting is a struggle for most david and lisa frisbie provide a practical and proactive plan single moms or single dads can use to nourish their own souls maintaining a vibrant faith in god and a vital connection to family and friends nurture their children empowering kids to successfully process the trauma of divorce manage their households as they assume roles and tasks that may lie well outside their comfort zone build a future they can enjoy making choices about education careers finances and relationships the frisbies constant travel and ongoing counseling ministry provide a rich reservoir of effective strategies and ideas moms and dads who parent alone will find confidence and hope from this manageable and optimistic approach

Critical Sustainability Sciences 2023-08-02

this book explores critical sustainability sciences a new field of scientific inquiry into sustainability issues it builds on a highly novel integration of elements from relational ontologies critical theory political ecology and intercultural philosophy in support of emancipatory perspectives on sustainability and development the book begins by uncovering the weaknesses of mainstream sustainability science and debates on sustainable development the new field of critical sustainability sciences has grown out of a deep engagement with relational ontologies which helps to overcome the dualist ontology underlying mainstream notions of sustainability and development dualist ontologies reinforce problematic anthropocentric divisions for example between humans and nature subjects and objects mind and matter body and soul etc examples from indigenous peoples in bolivia india and ghana as well as integrative movements in chile brazil and europe show that relational conceptions of life rooted in ecosophy and cosmosophy can provide an intercultural philosophical foundation for critical sustainability sciences the book concludes by describing three key topics for exploration in critical sustainability sciences societal reorganization in view of emancipatory existential and cognitive self determination living labor and commons and the development of new comprehensive relational scientific paradigms this book will be of great interest to students scholars and practitioners of emancipatory and intercultural approaches to sustainability and development

Governance in the Extractive Industries 2017-09-01

greater understanding of the forms and consequences of investment and disinvestment in the extractive industries is required as a result of capitalist expansion recent declines in global commodity prices and claims that extractive sector projects especially in the global south are poverty reduction projects this book explores emergent forms of governance in mining and extractive industry projects around the world chapters examine efforts to govern extractive activities across multiple political scales through intermediaries instruments technologies discourses and infrastructures the contributions analyse how multiple micro processes of rule reverberate through societies to shape the material conditions of everyday life but also politics social relations and subjectivities in extractive economies detailed case studies are included from africa chad nigeria rwanda and são tomé and príncipe latin america bolivia ecuador and peru and the un climate conference

Global Chorus 2014-10-31

global chorus is a remarkable illustrated collection of 365 daily meditations around some very large and increasingly crucial themes do you think that humanity can find a way past the current global environmental and social crises will we be able to create the conditions necessary for our own survival as well as that of other species on the planet what would these conditions look like in summary then and in the plainest of terms do we have hope

and can we do it the contributors include writers environmentalists spiritual leaders politicians professors doctors athletes business people farmers chefs yogis painters architects musicians tv personalities humanitarians children concerned students and senior citizens carpenters factory workers activists ceos scientists essentially people who have something passionate and insightful to say about humanity s place on earth well known people on the list include environmentalists such as david suzuki paul hawken and jane goodall scientists such as stephen hawking and edward o wilson personalities such as jamie oliver maya angelou les stroud and bruce cockburn humanitarians such as nelson mandela and archbishop desmond tutu political figures such as mikhail gorbachev justin Trudeau and elizabeth may writers like temple grandin farley mowat and john ralston saul and spiritual leaders like his holiness the 14th dalai lama of tibet and lama surya das the vast majority of the contributions contained within global chorus are completely original with some coming from public speeches or previously published sources and all contributors to this fundraising book have generously and graciously donated their time and efforts as proceeds from the sales of global chorus will be distributed to a select group of organizations helping to recover protect and sustain life on earth

Ecological Restoration in International Environmental Law 2016-12-01

human activities are depleting ecosystems at an unprecedented rate in spite of nature conservation efforts worldwide many ecosystems including those critical for human well being have been damaged or destroyed states and citizens need a new vision of how humans can reconnect with the natural environment with its focus on the long term holistic recovery of ecosystems ecological restoration has received increasing attention in the past decade from both scientists and policymakers research on the implications of ecological restoration for the law and law for ecological restoration has been largely overlooked this is the first published book to examine comprehensively the relationship between international environmental law and ecological restoration while international environmental law iel has developed significantly as a discipline over the past four decades this book enquires whether iel can now assist states in making a strategic transition from not just protecting and maintaining the natural environment but also actively restoring it arguing that states have international duties to restore this book offers reflections on the philosophical context of ecological restoration and the legal content of a duty to restore from an international law european union law and national law perspective the book concludes with a discussion of several contemporary themes of interest to both lawyers and ecologists including the role of private actors protected areas and climate change in ecological restoration

Medical Report of the Society of the Lying-in Hospital of the City of New York ... 1897

this comprehensive encyclopedia is an indispensable resource in the area of law and development bringing together more than 80 entries the encyclopedia spans a variety of approaches contextualised histories recent developments and forward looking insights into the role of law in development it is an invaluable reference point for scholars seeking to engage with issues at the intersection of law and development from both within and outside of the legal field as well as a thorough but succinct overview for post graduate students

Encyclopedia of Law and Development 2021-01-29

green crimes and international criminal law examines crimes against the environment which impact not only humans but also wildlife and ecosystems more generally a significant point of discussion in the volume is whether green crimes can fit effectively into existing international criminal law frameworks or not chapter authors explore these crimes from both a definitional and theoretical perspective and in various contexts in different parts of the world questioning whether these violations have led to or are violations of international criminal law while the recognition of green crimes in the international criminal law community has been slow it has increasingly gained widespread attention this volume acknowledges the growing interest and seeks to promote debate among academics and professionals working on the subject the aim of these texts is to encourage meaningful action

around green crimes within the international criminal law community so that environmental justice can become established the collection will be of particular interest to practicing attorneys and academics studying international criminal law especially those keen on investigating how green crimes can be incorporated into the specific canon of international law

Green Crimes and International Criminal Law 2021-07-06

all parents want to believe their children will not experiment with drugs and alcohol unfortunately that is not realistic the authors provide the knowledge and tools parents need to help their kids stay or become drug free includes a helpful study guide for personal use and group discussion

How to Talk to Your Kids about Drugs 2007

barbara mora s paiute diné mother who passed away from diabetes complications struggled to confront the reality of the disease my mother would not deal with diabetes it was a big scary topic mora says she only saw the horrible things amputations dialysis and death when mora was diagnosed with diabetes 14 years ago she chose to deal with the disease differently as the fourth generation on her mother s side to suffer from diabetes many of mora s family members did not want her to talk about it i thought no i m not going to go quietly mora says i m going to find out everything i need to know about diabetes after her mother s death and her father s subsequent passing mora felt herself slipping into depression rather than falling victim to diabetes and depression mora relied on the diné tradition of praying each morning to restore her spirit then she channeled her emotional and spiritual journey with diabetes from denial to depression to staying active and healthy with the disease in the book using our wit and wisdom to live well with diabetes from indiancountrytodaymedianetwork com 2011 05 14 native life provides online health support network 34013

Using Our Wit and Wisdom to Live Well with Diabetes 2008

this book examines the ways in which universities can play a crucial role in inclusive development social innovation and social entrepreneurship it aims to prove the importance of inclusive development and inclusive innovation on economic growth and demonstrate the ways in which universities can be pioneers in this area through initiatives in social responsibility and social innovation for example providing access to a university education without discrimination of race gender income status or other factors would help to diminish the increasing income differentials currently being experienced in many countries especially in the developing world the research and studies included in this book provide insight into possible actions that can be taken by universities and public and private shareholders in inclusive development social innovation social entrepreneurship and overall regional economic and social development innovation is currently considered to be the most important and dynamic factor explaining growth and development at the same time the traditional view considering innovation as having to be commercialized at any price is being challenged lately there has been growing interest in innovation in the public sector particularly with respect to social innovations designed to reduce income inequality to address these concepts constant exchange of ideas and information between research groups became necessary unidev universities in development the evolving role of academic institutions in innovation systems and development is an international research group with researchers in twelve countries interested in the role of universities in development this book features the results of research performed by eleven research groups from unidev country communities presenting in depth and comparative case studies from universities around the world including latin america northern and eastern europe and sub saharan africa this title will be of interest to students academics researchers and policy makers interested in the role of universities in development social innovation and social entrepreneurship

Universities, Inclusive Development and Social Innovation

2016-10-25

destined to transform its field this volume features some of the most exciting feminist scholars and activists working within feminist political ecology including giovanna di chiro dianne rocheleau catherine walsh and christa wichterich offering a collective critique of the green economy it features the latest analyses of the post rio 20 debates alongside a nuanced reading of the impact of the current ecological and economic crises on women as well as their communities and ecologies this new politically timely and engaging text puts feminist political ecology back on the map

Practising Feminist Political Ecologies 2015-05-14

we are currently facing the sixth mass extinction of species in the history of life on earth biologists claim the first one caused by humans activists filmmakers writers and artists are seeking to bring the crisis to the public's attention through stories and images that use the strategies of elegy tragedy epic and even comedy imagining extinction is the first book to examine the cultural frameworks shaping these narratives and images ursula k heise argues that understanding these stories and symbols is indispensable for any effective advocacy on behalf of endangered species more than that she shows how biodiversity conservation even and especially in its scientific and legal dimensions is shaped by cultural assumptions about what is valuable in nature and what is not these assumptions are hardwired into even seemingly neutral tools such as biodiversity databases and laws for the protection of endangered species heise shows that the conflicts and convergences of biodiversity conservation with animal welfare advocacy environmental justice and discussions about the anthropocene open up a new vision of multispecies justice ultimately imagining extinction demonstrates that biodiversity endangered species and extinction are not only scientific questions but issues of histories cultures and values

Imagining Extinction 2016-08-10

a story of a mother's unconditional love for her daughter

Mother Daughter Bond 2015-11-30

though currently only partially understood evolving interactions among latin american communities of faith governments and civil societies are a key feature of the popular mobilizations and policy debates about environmental issues in the region this edited collection describes and analyses multiple types of religious engagement with environmental concerns and conflicts seen in modern latin american democracies this volume contributes to scholarship on the intersections of religion with environmental conflict in a number of ways firstly it provides comparative analysis of the manner in which diverse religious actors are currently participating in transnational national and local advocacy in places such as peru argentina brazil bolivia ecuador guatemala and mexico it also considers the diversity of an often plural religious engagement with advocacy including catholic evangelical and pentecostal perspectives alongside the effects of indigenous cosmological ideas finally this book explores the specific religious sources of seemingly unlikely new alliances and novel articulations of rights social justice and ethics for the environmental concerns of latin america the relationship between religion and environmental issues is an increasingly important topic in the conversations around ecology and climate change this book is therefore a pertinent and topical work for any academic working in religious studies environmental studies and latin american studies

Church, Cosmology and the Environment 2018-06-27

fifty years have passed since the first earth day on 22 april 1970 this accessible incisive and timely collection of essays brings together a diverse set of expert voices to examine how the earth's environment has changed over this past half century and what lies in store for our planet over the coming fifty years earth 2020 an insider's guide to a rapidly changing planet responds to a public increasingly concerned about the deterioration of earth's natural
