This is a book about possibilities not finalities about all the different ways that people deal with loss and bereavement and how solution focused brief therapy can be helpful in making sense of the experience that people go through when facing death. Harry Korman MD solution focused practice challenges the conventional approach to bereavement counseling by emphasizing solution building over simple problem solving. Joel Simon with over 16 years of experience in the field demonstrates how this therapy can help clients think of possibilities rather than limitations when facing death or the loss of a loved one. This book presents a general overview of solution focused practice tools and methodologies for practitioners. Simon also provides real life vignettes and verbatim transcripts from actual patients in end of life or bereavement counseling. This book provides insight into the philosophy and practice of solution focused therapy as applied to clients with life limiting conditions and their loved ones. Key topics discussed include the use of language in solution focused practice, theory, meaning making, and the role of emotions. Tools of solution building with questions, troubleshooting guidelines, and tips for evaluating outcomes. The distinction between problem solving and solution building. Constructing goals with clients. Applying solution focused principles to hospice, grief, and bereavement practice. This resource serves as an invaluable tool for social workers, hospice workers, psychologists, and other bereavement and grief counseling professionals.

The Literal Sense and the Gospel of John in Late Medieval Commentary and Literature *2013-12-16*

focusing on the famous medieval commentator nicolas of lyra and the anonymous middle english biblical adaptation of the gospel of john the cursor mundi this book examines the development of the analytical tools of biblical literary criticism showing how late medieval commentators negotiated the paradoxical interdependence of the literal and spiritual senses as transmitted by traditional and inherited vocabularies through a focus on narrative structure mark hazard combines an enlightening account of the actual practice of professional commentators the history of gospel interpretation and cultural history to reveal that remarkable shift in the treatment of the bible that modern scholars would regard as having laid the groundwork for the historical critical methods in biblical research as such this book sheds light not only on the 14th century practice of biblical interpretation but will also be of value to those currently engaged in reading and writing about the bible
