specific application of these procedures to the calibration of bridges and potentiometers is explained it is expected that this paper will be of considerable help to the many company and governmental standardizing laboratories now being established

The Literacy Coaching Challenge

2008-04-30

with reading the obscene jordan carroll reveals new insights about the editors who fought the most famous anti censorship battles of the twentieth century while many critics have interpreted obscenity as a form of populist protest reading the obscene shows that the editors who worked to dismantle censorship often catered to elite audiences composed primarily of white men in the professional managerial class as carroll argues transgressive editors such as h l mencken at the smart set and the american mercury william gainses and al feldstein at ec comics hugh hefner at playboy lawrence ferlinghetti at city lights books and barney rossel at grove press taught their readers to approach even the most scandalizing texts with the same cold calculation and professional reserve they employed in their occupations along the way these editors kicked off a middle class sexual revolution in which white collar professionals imagined they could control sexuality through management science obscenity is often presented as self shattering and subversive but with this provocative work carroll calls into question some of the most sensational claims about obscenity suggesting that when transgression

becomes a sign of class distinction we must abandon the idea that obscenity always overturns hierarchies and disrupts social order winner of the 2022 mla prize for independent scholars sponsored by the modern language association

Report of the National Reading Panel : Teaching Children to Read : an Evidence-based Assessment of the Scientific Research Literature on Reading and Its Implications for Reading Instruction 2000

this comprehensive professional resource and text is based on cutting edge research in each chapter leading scholars provide an overview of a particular aspect of comprehension offer best practice instructional guidelines and policy recommendations present key research questions still to be answered and conclude with stimulating questions for individual study or discussion coverage includes such timely topics as differentiated instruction technology and reading comprehension teaching english language learners and the implications of current neuroscientific findings

Teaching Children to Read: Reports of the subgroups 2000
