**Paul** 2022-05-26 a major study of the apostle to the gentiles combining exceptional scholarship with an unusual approach schoeps interprets paul s theology in the light of his jewish background which coloured and conditioned his christological teaching paul s conception of jesus differs from that of the synoptics what and how extensive the difference is and whence it is derived are among the questions schoeps examines after surveying major problems in pauline research the author relates the apostle to primitive christianity discussing his eschatology and his teachings on salvation the law and saving history the final chapter shows that paul s distinctive doctrines result from two converging factors that paul never saw jesus in the flesh and the influence of jewish teaching the consequence was his concern with the resurrected saviour of the world the pre-existent and eternal son of god schoeps shows that paul betrayed a fundamental misconception of the law and the covenantal agreement between god and his chosen people the result is a thought provoking and somewhat startling study of the first the greatest and the most difficult of all christian theologians

*Paul, the Founder of Christianity* 2021-12-01 although many scholars have studied paul s theology  
they have not provided satisfactory interpretation this is because his genuine epistles were studied  
as they have been left in the new testament rather from a redactional point of view paul the  
founder of christianity approaches paul s seven epistles romans 1 corinthians 2 corinthians  
galatians philippians 1 thessalonians and philemon the book reconstructs his life and uncovers the  
compilation of sixteen short letters into seven epistles accordingly these can be divided according  
to the chronological order of composition when the transformation of paul s theology is traced one  
can see a progressive development of christology the death of jesus christ redemption and salvation  
the law the end of world the spirit of god and the church of god as a result it can be argued that  
after the antioch incident paul had conflict with the apostles of jerusalem and founded christianity  
for gentiles an argument that is presented in detail based on the evidence found in paul s sixteen  
letters
