Approved Revenue, Recurrent and Capital Estimates 2001

this book is an important and original account of life in the new lean production workplace the car industry where it all began it brings together the two emblematic features of the twentieth century a working class meant to topple the social order and a product that largely provided the developmental model of that same order this book is neither a retrospective assessment nor a prediction for the future it reveals what has changed and what has remained the same in a workplace that remains a major part of the makeup of our society
