seminar paper from the year 2019 in the subject didactics english pedagogy literature studies grade 2 university of applied sciences burgenland language english abstract the paper s primary concern is to outline strategies which teachers could use in order to support students in becoming self regulated by using language learning strategies maria montessori was one of the first pedagogues who emphasized independence a degree of student autonomy and learning strategies that highlight learning through action rather than lecture children have been seen as naturally eager for knowledge thus children are capable of initiating learning in a supportive thoughtfully prepared learning environment based on pedagogical observations it was discovered that children who were free to choose and act without restrictions within an environment prepared according to montessori s model would act spontaneously for optimal development unfortunately it is frequently observable that modern phenomena such as portable phones computers and television are a constant distraction even for young children and consequently tend to impede the students learning of self regulation
