Poetics of Love in the Arabic Novel 2012-06-20 considers the arabic novel within the triangle of the nation state modernity and tradition wen chin ouyang explores the development of the arabic novel especially the ways in it engages with aesthetics ethics and politics in a cross cultural context and from a transnational perspective taking love and desire as the central tropes the story of the arabic novel is presented as a series of failed illegitimate love affairs all tainted by its suspicion of the legitimacy of the nation modernity and tradition and above all by its misgiving about its own propriety

Handbook of Developmental Cognitive Neuroscience, second edition 2008-07-11 the second edition of an essential resource to the evolving field of developmental cognitive neuroscience completely revised with expanded emphasis on social neuroscience clinical disorders and imaging genomics the publication of the second edition of this handbook testifies to the rapid evolution of developmental cognitive neuroscience as a distinct field brain imaging and recording technologies along with well defined behavioral tasks the essential methodological tools of cognitive neuroscience are now being used to study development technological advances have yielded methods that can be safely used to study structure function relations and their development in children s brains these new techniques combined with more refined cognitive models account for the progress and heightened activity in developmental cognitive neuroscience research the handbook covers basic aspects of neural development sensory and sensorimotor systems language cognition emotion and the implications of lifelong neural plasticity for brain and behavioral development the second edition reflects the dramatic expansion of the field in the seven years since the publication of the first edition this new handbook has grown from forty one chapters to fifty four all original to this edition it places greater emphasis on affective and social neuroscience an offshoot of cognitive neuroscience that is now

influencing the developmental literature the second edition also places a greater emphasis on clinical disorders primarily because such research is inherently translational in nature finally the book s new discussions of recent breakthroughs in imaging genomics include one entire chapter devoted to the subject the intersection of brain behavior and genetics represents an exciting new area of inquiry and the second edition of this essential reference work will be a valuable resource for researchers interested in the development of brain behavior relations in the context of both typical and atypical development

The Novel: An Alternative History 2013-09-17 encyclopedic in scope and heroically audacious the novel an alternative history is the first attempt in over a century to tell the complete story of our most popular literary form contrary to conventional wisdom the novel did not originate in 18th century england nor even with don quixote but is coeval with civilization itself after a pugnacious introduction in which moore defends innovative demanding novelists against their conservative critics the book relaxes into a world tour of the pre modern novel beginning in ancient egypt and ending in 16th century china with many exotic ports of call greek romances roman satires medieval sanskrit novels narrated by parrots byzantine erotic thrillers 5000 page arabian adventure novels icelandic sagas delicate persian novels in verse japanese war stories even mayan graphic novels throughout moore celebrates the innovators in fiction tracing a continuum between these pre modern experimentalists and their postmodern progeny irreverent iconoclastic informative entertaining the novel an alternative history is a landmark in literary criticism that will encourage readers to rethink the novel

The Unworthy Scholar from Pingjiang 2019-08-27 xiang kairan who wrote under the pen name the unworthy scholar from pingjiang is remembered as the father of modern chinese martial arts fiction

one of the most distinctive forms of twentieth century chinese culture and the inspiration for china s globally popular martial arts cinema in this book john christopher hamm shows how xiang kairan s work and career offer a new lens on the transformations of fiction and popular culture in early twentieth century china the unworthy scholar from pingjiang situates xiang kairan s career in the larger contexts of republican era china s publishing industry literary debates and political and social history at a time when writers associated with the new culture movement promoted an aggressively modernizing vision of literature xiang kairan consciously cultivated his debt to homegrown narrative traditions through careful readings of xiang kairan s work hamm demonstrates that his writings far from being the formally fossilized and ideologically regressive relics their critics denounced represent a creative engagement with contemporary social and political currents and the demands and possibilities of an emerging cultural marketplace hamm takes martial arts fiction beyond the confines of genre studies to situate it within a broader reexamination of chinese literary modernity the first monograph on xiang kairan s fiction in any language the unworthy scholar from pingjiang rewrites the history of early twentieth century chinese literature from the standpoints of genre fiction and commercial publishing

Reviewing Blindness in French Fiction, 1789-2013 2017-08-18 this book argues that the most interesting depictions of blindness in french fiction are those which call into question and ultimately undermine the prevailing myths and stereotypes of blindness which dominate western thought rather than seeing blindness as an affliction a tragedy or even a fate worse than death the authors examined in this study celebrate blindness for its own sake for them it is a powerful artistic and creative force which offers new and surprising ways of describing and relating to reality canonical and lesser known novels from a range of genres including the roman noir science fiction auto fiction and realism are analyzed in detail to show how the presence of blind characters invites the reader to abandon his or her traditional reliance on the sense of sight and engage with the world in sensual and hitherto unexpected ways this book challenges everything we thought we knew about blindness and invites us to revel in the pleasures and perils of reading blind

The Evolution of Intelligence 2013-06-17 how is one to understand the nature of intelligence one approach is through psychometric testing but such an approach often puts the cart before the horse the test before the theory another approach is to use evolutionary theory this criterion has been suggested by a number of individuals in the past from charles darwin in the more distant past to howard gardner stephen gould steven pinker carl sagan david stenhouse and many others the chapters in this book address three major questions 1 does evolutionary theory help us understand the nature of human intelligence 2 if so what does it tell us about the nature of human intelligence 3 and if so how has intelligence evolved the goal of this book is to present diverse points of view on the evolution of intelligence as offered by leading experts in the field in particular it may be possible to better understand the nature and societal implications of intelligence by understanding how and why it has evolved as it has this book is unique in offering a diversity of points of view on the topic of the evolution of human intelligence

Reading Sideways 2019-07-02 reading sideways explores the pivotal role that various art forms played in american literary fiction in direct relation to the politics of gender and sexuality in works of modern american literature it tracks the crosswise circulation of aesthetic ideas in fiction and

argues that at stake in the aesthetic turn of these works was not only the theorization of aesthetic experience but also an engagement with political arguments and debates about available modes of sociability and sexual expression to track these engagements its author dana seitler performs a method she calls lateral reading a mode of interpretation that moves horizontally through various historical entanglements and across the fields of the arts to make sense of and see in a new light their connections challenges and productive frictions each chapter takes a different art form as its object sculpture portraiture homecraft and opera these art forms appear in some of the major works of literature of the period central to negotiations of gender race and sexuality including those by henry james davis willa cather du bois sarah orne jewett and mary wilkins freeman but the literary texts that each chapter of this book takes as its motivation not only include a specific art form or object as central to its politics they also build an alternative aesthetic vocabulary through which they seek to alter challenge or participate in the making of social and sexual life by cultivating a counter aesthetics of the unfinished the uncertain the small the low and the allusive these fictions recognize other ways of knowing and being than those oriented toward reductively gendered accounts of beauty classed imperatives established by the norms of taste or apolitical treatises of sexual disinterestedness and within them and through reading sideways we can witness the coming into legibility of a set of diffuse practices that provide a pivot point for engaging the political methods of minoritized subjects at the turn of the twentieth century

Tarnished Halos 2012-02-29 the purpose of this volume is to investigate the crucial role played by the return of knowledge of greek in the transformation of european culture both through the translation of texts and through the direct study of the language it aims to collect and organize in one database all the digitalised versions of the first editions of greek grammars lexica and school texts available in europe in the 14th and 15th centuries between two crucial dates the start of chrysoloras s teaching in florence c 1397 and the end of the activity of aldo manuzio and andrea asolano in venice c 1529 this is the first step in a major investigation into the knowledge of greek and its dissemination in western europe the selection of the texts and the first milestones in teaching methods were put together in that period through the work of scholars like chrysoloras guarino and many others a remarkable role was played also by the men involved in the council of ferrara 1438 39

where there was a large circulation of greek books and ideas about ten years later giovanni tortelli together with pope nicholas v took the first steps in founding the vatican library research into the return of the knowledge of greek to western europe has suffered for a long time from the lack of intersection of skills and fields of research to fully understand this phenomenon one has to go back a very long way through the tradition of the texts and their reception in contexts as different as the middle ages and the beginning of renaissance humanism however over the past thirty years scholars have demonstrated the crucial role played by the return of knowledge of greek in the transformation of european culture both through the translation of texts and through the direct study of the language in addition the actual translations from greek into latin remain poorly studied and a clear understanding of the intellectual and cultural contexts that produced them is lacking in the middle ages the knowledge of greek was limited to isolated areas that had no reciprocal links as had happened to many latin authors all greek literature was rather neglected perhaps because a number of philosophical texts had already been available in translation from the seventh century ad or because of a sense of mistrust due to their ethnic and religious differences between the 12th and 14th century ad a change is perceptible the sharp decrease in greek texts and knowledge in the south of italy once a reference point for this kind of study was perhaps an important reason prompting italian humanists to go and study greek in constantinople over the past thirty years it has become evident to scholars that humanism through the re appreciation of classical antiquity created a bridge to the modern era which also includes the middle ages the criticism by the humanists of medieval authors did not prevent them from using a number of tools that the middle ages had developed or synthesized glossaries epitomes dictionaries encyclopaedias translations commentaries at present one thing that is missing however is a systematic study of the tools used for the study of

greek between the 15th and 16th century this is truly important because in the following centuries greek culture provided the basis of european thought in all the most important fields of knowledge this volume seeks to supply that gap

The Evolution of Cognition 2000 much has been researched and written about the emergence of improvisation processes within organizational contexts although still scarce research on organizational improvisation has evolved from a jazz and theater metaphor to empirical and conceptual organizational frameworks creating a consolidated organizational theoretical body this elgar introduction discusses major theoretical advances in organizational improvisation which the authors view as the process of improvisation that occurs within an organizational context whether at the individual team or organizational level grounded in rigorous academic work to date this book speaks both to scholars interested in developing research on organizational improvisation and to managers who face rapid change with crucial consequences

The Edinburgh Festival 2022-08-01 retracing his own spiritual journey while conducting interviews with other pastors michael w palmer examines the ability of pastors to maintain their pastoral authenticity through resignation and termination in good pastor bad fit the author explores best practices for dealing with internal church conflict and hostility that can lead to pastors quitting or being fi red get answers to questions such as how does congregational conflict and hostility suppress a pastor s gifts what does it mean to practice authenticity as a pastor what lessons can pastors going through a life transition learn from the life of job the book emphasizes that it is imperative that pastors understand not only what they are vocationally but also who they are related to their calling especially when forced to consider transitioning from a church the calling to be a pastor is not a simple matter of god matching a pastor with a specific congregation it is about him

carefully placing a pastor within a body of believers where their god given gifts can make disciples and glorify god
