1955 this classic in the series of highly respected swokowski cole  
mathematics texts retains the elements that have made it so popular  
with instructors and students alike it is clearly written the time tested  
exercise sets feature a variety of applications its exposition is clear its  
uncluttered layout is appealing and the difficulty level of problems is  
appropriate and consistent now this ninth edition of fundamentals of  
algebra and trigonometry has been improved in three important ways  
first discussions have been rewritten to enable students to more easily  
understand the mathematical concepts presented second exercises have  
been added that require students to estimate approximate interpret a  
result write a summary create a model explore or find a generalization  
third graphing calculators have been incorporated to a greater extent  
through the addition of examples and exercises as well as the inclusion  
of a cross referenced appendix on the use of the ti 82 83 all of this has  
been accomplished without compromising the mathematical integrity  
that is the hallmark of this text the student solutions manual provides  
worked out solutions to the odd numbered problems in the text this book  
contains practical exercises and didactic examples ranging from  
arithmetic to calculus including fundamental themes of the algebra and  
analytic geometry it is specialized in the teaching and learning of  
mathematics in his book and essential levels arises from the problems  
detected in the knowledge of mathematics at different educational levels  
with the skill and judgment of the teacher the parent or student this  
material can be a useful and valuable tool in the rapprochement and  
gradual mastery of relevant and be mesmerized field of mathematics  
with math everything nothing without mathematics it could be the  
human world he has created and developed the mathematical  
knowledge as a tool or a key device in the civilizing technological work  
motto mathematical knowledge is also a tool to challenge and  
intellectual growth invaluable in the development of the most important  
brain cognitive abilities
