we will then examine the heideggerian roots of post foundationalism around the four concepts of event moment freedom and difference which will put us in a better position to detect the commonalities between the heideggerians of the left discussed in chapters 3 6 postfoundationalism aims to accommodate the postmodern critique of neutral episteme without collapsing into relativist hermeneutics conversely it affirms the modernist interest in general patterns of rationality but rejects foundationalist absolutism after an overview of current trends in social post foundationalism and a genealogical chapter on the historical emergence of the difference between the concepts of politics and the political the work of individual theorists is presented and discussed at length post foundationalism views the moment of the empty universal as a consequence of modernity since democracy discourse can no longer claim transcendental legitimacy following Žižek one can criticize authors like laclau and mouffe for not being able to grasp this argument as a decisive a priori due to their implicit theory of history postfoundationalism is a theory of epistemology denoting a rejection of an assumed or given authority for a specific action or belief but arguing in dialectical fashion for a rationale for action or belief 1 it is also an introductory overview of post foundationalism and the tradition of left heideggerianism the political thought of contemporary theorists who make frequent use of the idea of political difference jean luc nancy claude lefort alain badiou and ernesto laclau post foundationalism along with post modernism and post structuralism is assailed for its perceived absence of scholarly rigor and proper theoretical grounding in short many modern scholars wonder if there is a foundation to post foundationalism laclau pursues a consistent post foundationalist position and focuses on the hegemonic logic underlying the construction of social collectives he trusts in the failure of demarcations and fixations of sense mouffe however practices a normative post foundationalism after an overview of current trends in social post foundationalism and a genealogical chapter on the historical emergence of the difference between the concepts of politics and the chapter 7 founding post foundationalism a political ontology in post foundational political thought political difference in nancy lefort badiou and laclau pp 154 178 edinburgh edinburgh university press this chapter first discusses post foundationalism and democracy before turning to the political displacement of politics political thought as first philosophy and the political difference as political difference first we discuss the classical concept of critique and how it ran into problems as demonstrated in many post foundational theories then we present the work of luhmann s epistemology and its particular problematization of the lack of any stable foundation for critique in general those social theories which imply that different social phenomena are grounded on principles that are 1 undeniable and immune to revision and 2 placed outside and beyond the phenomena can be classified as foundationalism herzog 1985 p 20 marchart 2007 p 11 combining an insightful and at times critical investigation of the philosophy and concepts behind this perspective he makes a compelling case for what post foundationalism is and how it should guide political thought and action an excellent work of post foundational and post structural thinking exposing key underpinnings to western political thinking though superfluous wording and awkward syntax make for a demanding read in it s own right the pithy arguments make it effort well spent post foundationalism equips geographers to deal with unforeseen events to cope with crumbling social political and spatial conditions to operationalize and care for them during empirical investigation and ultimately to plunge into empirical realities in which conflicts dominate politics and space situating agonistic democracy within and against debates about radical democracy foundationalism liberal democracy and pluralism institutionalizing agonistic democracy engages the texts of mouffe connolly ranciere tully honig owen and others to fully map the contours of agonistic democratic theories foundationalism concerns philosophical theories of knowledge resting upon non inferential justified belief or some secure foundation of certainty such as a conclusion inferred from a basis of sound premises post foundationalism is a way of studying the world that recognizes the short comings of traditional western canons to explain global realities and so it seeks to develop a better understanding through the interaction of many perspectives and ontologies especially those that have been historically marginalized or excluded the edited volume puts contemporary debates arising from the spatial turn in cultural and social sciences in a dialogue with post foundational theories of space and place to devise post foundationalism as radical approach to urban studies
