i was going through a box one day which contained all the journals i've kept over the past 20 years or so i decided to read through them what was going on in my life back when as i read through the pages the memories began to flow and i found myself reliving those experiences i thought if i had the chance to change anything during the course of those years would i be here in this place then i decided to combine all the journals into one and have it published as a book while i've been somewhat reluctant about exposing my life to the world i thought perhaps there's someone out there who's having or have had some of the same experiences and can identify with them perhaps the journey i take you on in this book may touch you in some way if so i can rest in knowing i've had something to leave behind and my living has not been in vain
