Victims 2015-06-05

the study of victims of crime is a central concern for criminologists around the world in recent years some victimologists have become increasingly engaged in positivist debates on the differences between victims and non victims how these differences can be measured and what could be done to improve the victims experience of the criminal justice system written by experts in the field this book embraces a much wider understanding of social harms and asks which victims voices are heard and why mcgarry and walklate break new ground with this innovative and accessible book it offers a broad discussion of social harms the role of the victim in society and the inter relationship between trauma testimony and justice and asks how has harm been understood and under what circumstances have those harms been recognised how and under what circumstances are those harms articulated how and under what circumstances are the voices of those who have been harmed listened to each chapter draws on case studies and a range of questions designed to assist in reflection and critical engagement this book is perfect reading for students taking courses on victimology victims and society victims rights and criminal justice

Sexual Crime and Trauma 2020-10-02

this book explores the growing understanding and evidence base for the role of trauma in sexual offending it represents a paradigm shift in which trauma is becoming an important risk factor to be considered in the treatment of individuals convicted of sexual crime the authors consider the theoretical and historical explanations and understandings of sexual offending and its relationship with early trauma paving the way for a volume which considers client s treatment needs through a new trauma informed lens the experiences and challenges of specific groups are also explored including young people and women readable yet firmly anchored in a sound evidence base this book is relevant to psychologists therapists criminologists psychiatrists mental health nurses social workers students and to practitioners and the general public with an interest in learning more about the topic

Trauma-informed Criminal Justice 2024-06-07

this book is the first to examine trauma informed criminal justice responses to the commission of crime and its impact through empathy and humanity trauma informed criminal justice uses compassion to achieve a safer community for everyone there are three parts the first examines how adversity trauma and crime are related the second focuses on trauma informed criminal justice responses to people who have offended victims of crime and professionals at risk of vicarious trauma the third focuses on trauma informed sentencing and compassionate justice through therapeutic jurisprudence and judicial empathy each chapter is designed to be a stand alone resource

When Nature and Nurture Collide 2014

blumoff who is trained in psychology and law has spent the last decade trying to bring population wide observations from the brain sciences to the jurisprudence of criminal law thus producing a better model of human behavior for understanding criminal misconduct this work examines the neuropsychological injuries suffered by seriously abused and neglected children towards an explanation for why those children produce children who tend to abuse and neglect their own children and sometimes others this is just a brute social fact the book is structured in three parts part i engages the science of child development part ii addresses the jurisprudence of substantive criminal law which is still mired in the dualism and formalism of a much earlier era that largely neglects the actor s biography part iii speaks to anticipated objections and proposals for change the work ends by drawing on the work of the philosopher john rawls s well known original position a thought experiment on the treatment of damaged children this book should be of interest to anyone who teaches criminal law and procedure or is involved in the

administration of criminal justice including those individuals who provide social services to the incarcerated it could be an assigned text in a law and psychiatry course or a criminal law or jurisprudence seminar this book is also useful for students and teachers in specialized post graduate criminology programs federal and state law enforcement agencies that profile offenders specialists in the jurisprudence of punishment and some upper division courses in criminal justice

Lost Childhoods 2018-12-11

lost childhoods focuses on the life course histories of thirty young men serving time in the pennsylvania adult prison system for crimes they committed when they were minors the narratives of these young men their friends and relatives reveal the invisible yet deep seated connection between the childhood traumas they suffered and the violent criminal behavior they committed during adolescence by living through domestic violence poverty the crack epidemic and other circumstances these men were forced to grow up fast all while familial ties that should have sustained them were broken at each turn the book goes on to connect large scale social policy decisions and their effects on family dynamics and demonstrates the limits of punitive justice

Topography of Trauma: Fissures, Disruptions and Transfigurations 2019-08-26

through theoretical discussions presentations of literary works cultural artefacts and artistic performances as well as descriptions of novel therapeutic approaches topography of trauma engages in rethinking and re examining trauma to address the transformed self and empowering post traumatic developments

Post-Traumatic Therapy And Victims Of Violence 2013-06-17

frank ochberg one of the pioneers in the field has brought together nationally and internationally recognized experts who have treated thousands of victims in such subspecialty areas as rape incest and battering as well as vietnam veterans and refugees they provide a wealth of knowledge about post traumatic therapy ptt within these populations ptt is not just a series of techniques but a clinical philosophy that requires empathic understanding of the victim collaboration between therapist and client and recognition of empowerment as a therapeutic tool ptt centers on stress and coping focuses on the strengths of the victim and is integrative with respect to biological psychological and social fears

The Broken Country 2017

the broken county explores the cultural and psychological effects of vietnam on both southeast asian refugees and returning u s veterans rekdal examines the complicated ways in which we struggle to comprehend and memorialize the war

Mental Health Assistance to Victims of Crime and Their Families 1985

trauma informed forensic practice argues for placing trauma informed practice and thinking at the heart of forensic services it is written by forensic practitioners and service users from prison and forensic mental health youth justice and social care settings it provides a compassionate theoretical framework for understanding the links between trauma and offending it also gives practical guidance on working with issues that are particularly associated with a history of trauma in forensic settings such as self harm and substance use as well as on working with groups who are particularly vulnerable to trauma such as those with intellectual disabilities

and military veterans finally it considers organisational aspects of delivering trauma informed care not just for service users but for the staff who work in challenging and dangerous forensic environments the book is the first of its kind to address such a broad range of issues and settings it is aimed at forensic practitioners who wish to develop their own trauma informed practice or trauma responsive services it also provides an accessible introduction to trauma informed forensic practice for undergraduate and postgraduate students

Trauma-informed Criminal Justice 1985

renowned scientists and practitioners provide a concise summary of current theory research and clinical practice regarding traumatic stress an integrative biopsychosocial theory of trauma response provides a framework for the book chapters consider the frequency and likely mental health consequences of a wide range of traumatic events including military trauma violent crime natural and technological disasters accidental injury and torture this comprehensive reference features state of the art psychosocial and biological treatments and community based intervention strategies

mercy tells the story of the author s battle with cancer and her simultaneous obsession with true crime tv with candor and dark humor mercy examines the costs of existing as a woman in a world where men have the power to save or end her life

Traumatic Stress 1995-07-13

for a parent there are few things more frightening than the thought of one's child or a close family member becoming the victim of trauma how do i help them cope can i help them cope what if i'm not even able to cope myself these are some of the automatic responses that could flash through a parent's mind at the prospect of having to deal with an unexpected painful or traumatic experience or with the fear or threat of such trauma becoming a reality these experiences can be damaging and life changing on many levels and in many societies they have indeed become an everyday reality the chapters in how children experience trauma and how parents can help them cope address a number of different types of trauma and they offer sound and tested advice on each one among others they deal with trauma related to crime to accidents untimely death and devastating loss they cover peer group and relationship issues including bullying and abuse and each one presents a number of illustrative case studies to help parents relate to and understand what they and their children might be experiencing internally the authors explain some typical emotional and physiological reactions that may arise during immediately after and some time after the trauma they provide parents and caregivers with the theoretical as well as some practical tools to guide their children and themselves towards recovery and healing all trauma although accompanied by loss often terrifying and terrible loss gives us an opportunity to put life into perspective encourages us to evaluate relationships and possibly to shed that which is toxic or unhelpful and to retain that which is healthy by presenting the theory and examining the therapeutic options available meg fargher and helen dooley draw on their extensive training and experience in this field to help parents and children access the resilience that is part of every human being allowing them to heal and move on different but potentially stronger

Intimate Betrayal 2019-11-18

the way people cope as victims of crime depends largely on their experiences and on how others treat them immediately after the crime as a law enforcement officer you are usually the first official to interact with victims for this reason you are in a unique position to help victims cope with the immediate trauma of the crime as well as to help them regain a sense of security and control over their lives

Mercy 2012-09-28

despite mounting references to the transgenerational transmission of violence we still lack a compelling understanding of the linkage between the interpersonal violence of early life and the criminal violence of adulthood in prologue to violence abby stein draws on the gripping narratives of 65 incarcerated subjects and extensive material from law enforcement files to remedy this lacuna in both the forensic and psychodynamic literature in the process she calls into question prevailing beliefs about criminal character and motivation for stein the early trauma to which adult criminals are subjected remains unformulated and as such unavailable for reflection contrary to common belief these criminals especially sex murderers do not commit their crimes in a rational or fully conscious way they are not driven by deviant fantasy their psychopathy is not inborn and they rarely commit acts of violence without conscience stein's interdisciplinary analysis of her data infuses contemporary relational psychoanalysis with the insights of neuroscience traumatology criminology and cognitive and narrative psychology a powerful challenge to offender treatment programs to address the shaping impact of childhood trauma rather than merely to correct the cognitions of violent offenders prologue to violence will be equally compelling to researchers and academics investigating child abuse and adult violence its mental health readership will be broad and deep ranging beyond clinicians who work with offender populations to all therapists who wrestle with experiences of dissociation and aggressive enactment in everyday life

How Children Experience Trauma and How Parents Can Help Them Cope 2014-10-09

Trauma, Psychopathology, and Violence 2018-06

dr miller s counseling crime victims is extremely effective and it will occupy a central spot on my bookshelf it is really a golden find society for police and criminal psychology here is the gold standard the book for mental health clinicians helping crime victims sort through one of life s most difficult and traumatic experiences

richard l levenson jr psy d cts licensed psychologist new york state as more and more mental health professionals are becoming involved in the criminal justice system as social service providers victim advocates court liaisons expert witnesses and clinical therapists there has not been a commensurate improvement in the quality of text material to address this expanding and diverse field until now students and practicing professionals have had to content themselves with either overly broad texts on criminology or trauma theory or exceeding narrow tracts on one or another sub area of victim services counseling crime victims provides a unique approach to helping victims of crime by distilling and combining the best insights and lessons from the fields of criminology victimology trauma psychology law enforcement and psychotherapy this book presents an integrated model of intervention for students and working mental health professionals in the criminal justice system the book blends solid empirical research scholarship with practical hit the ground running recommendations that mental health professionals can begin using immediately in their daily work with victims counseling crime victims is a practical guide and reference book that working mental health clinicians will consult again and again in their daily practices this book will also be of use to attorneys judges law enforcement officers social service providers and others who work with crime victims in the criminal justice system it can also serve as a college and graduate level text for courses in psychology and criminal justice key features of this book victim assistance is becoming a full fledged field for social workers and counselors a practical hands on guide which offers counselors techniques for dealing with victims of a wide variety of crimes shows counselors how to guide their clients through the legal and judicial system

Impact 2012-06-14

winner of the victorian prize for literature sarah krasnostein s the trauma cleaner one woman s extraordinary life in the business of death decay and disaster is the fascinating biography of one of the people responsible for tidying up homes in the wake of natural and unnatural catastrophes and fatalities homicides and suicides fires and floods hoarders and addicts when properties are damaged or neglected it falls to sandra pankhurst founder of specialized trauma cleaning stc services pty ltd to sift through the ashes or sweep up the mess of a person s life or death her clients include law enforcement real estate agents executors of deceased estates and charitable organizations representing victimized mentally ill elderly and physically disabled people in houses and buildings that have fallen into disrepair sandra airs out residents smells throws out their weird porn their photos their letters the last traces of their dna entombed in soaps and toothbrushes the remnants and mementoes of these people s lives resonate with sandra before she began professionally cleaning up their traumas she experienced her own first as a little boy raised in violence and excluded from the family home then as a husband and father drag queen gender reassignment patient sex worker small businesswoman and trophy wife in each role she played all sandra wanted to do was belong the trauma cleaner is the extraordinary true story of an extraordinary person dedicated to making order out of chaos with compassion revealing the common ground sandra pankhurst and everyone shares with those struck by tragedy

Trauma, Psychopathology, and Violence 2008-03-24

restorative justice is gaining acceptance for addressing harm and crime interventions have been developed for a wide range of wrongdoing this book considers the use of restorative justice in response to sexual abuse rather than a blueprint or detailing a specific set of programs it is more about mapping possibilities it allows people to carefully consider its use in responding to violent crimes such as sexual abuse criminal justice approaches tend to sideline and re traumatize victims and punish offenders to the detriment of accountability alternatively restorative justice centers on healing for victims while holding offenders meaningfully accountable criminal justice responses tend to individualize the problem and catch marginalized communities such as ethnic minorities within its net restorative justice recognizes that sexual abuse is a form of gender based violence community based practices are needed sometimes in conjunction with and sometimes to counteract traditional criminal justice responses this book describes impacts of sexual abuse and explanations for sexual offending demonstrating how restorative justice can create hope through trauma

Counseling Crime Victims 2018-04-10

most youth who come in conflict with the law have experienced some form of trauma yet many justice professionals are ill equipped to deal with the effects trauma has on youth and instead reinforce a system that further traumatizes young offenders while ignoring the needs of victims by taking a trauma informed perspective this text provides a much needed alternative one that allows for interventions based on principles of healing and restorative justice rather than on punishment and risk assessment in addition to providing a comprehensive historical overview of youth justice in canada judah oudshoorn addresses the context of youth offending by examining both individual trauma including its emotional cognitive and behavioural effects and collective trauma the author tackles some of the most difficult problems facing youth justice today especially the ongoing cycles of intergenerational trauma caused by the colonization of indigenous peoples and patriarchal violence and demonstrates how a trauma informed approach to youth justice can work toward preventing crime and healing offenders victims and communities featuring a foreword written by howard zehr case stories from the author s own work with victims and offenders questions for reflection and annotated lists of recommended readings this engaging text is the perfect resource for college and university students in the field of youth justice

The Trauma Cleaner 2015-10-27

in this fascinating new book vincent henry a 21 year veteran of the nypd who recently retired to become a university professor explores the psychological transformations and adaptations that result from police officers encounters with death police can encounter death frequently in the course of their duties and these encounters may range from casual contacts with the deaths of others to the most profound and personally consequential confrontations with their own mortality using the survivor psychology model as its theoretical base this insightful and provocative research ventures into a previously unexplored area of police psychology to illuminate and explore the new modes of adaptation thought and feeling that result from various types of death encounters in police work the psychology of survival asserts that the psychological world of the survivor one who has come in close physical or psychic contact with death but nevertheless managed to live is characterized by five themes psychic numbing death guilt the death imprint suspicion of counterfeit nurturance and the struggle to make meaning these themes become manifest in the survivor s behavior permeating his or her lifestyle and worldview drawing on extensive interviews with police officers in five nominal categories rookie officers patrol sergeants crime scene technicians homicide detectives and officers who survived a mortal combat situation in which an assailant or another officer died henry identifies the impact such death encounters have upon the individual the police organization and the occupational culture of policing he has produced a comprehensive and highly textured interpretation of police psychology and police behavior bolstered by the unique insights that come from his personal experience as an officer his intimate familiarity with the subtleties and nuances of the police culture s value and belief systems and his meticulous research and rigorous method death work provides a unique prism through which to view the individual organizational and social dynamics of contemporary urban policing with a foreword by robert jay lifton and a chapter devoted to the local police response to the world trade center attacks death work will be of interest to psychologists and criminal justice experts as well as police officers eager to gain insight into their unique relationship to death

Solution-Focused Brief Therapy with Clients Managing Trauma 2020-05-29

americans have long been asked to support the troops and care for veterans psychological wounds who though does this injunction serve as acclaimed scholar nadia abu el haj argues here in the american public s imagination the traumatized soldier stands in for destructive wars abroad with decisive ramifications in the post 9 11 era across the political spectrum the language of soldier trauma is used to discuss american warfare producing a narrative in which traumatized soldiers are the only acknowledged casualties of war while those killed by american firepower are largely sidelined and forgotten in this wide ranging and fascinating study of the meshing of medicine science and politics abu el haj explores the concept of post traumatic stress disorder and the history of its medical diagnosis while antiwar vietnam war veterans sought to address their psychological pain even as they maintained full awareness of their guilt and responsibility for perpetrating atrocities on the killing fields of vietnam by the 1980s a peculiar convergence of feminist activism against sexual violence and reagan s right wing war on crime transformed the idea of ptsd into a condition of victimhood in so doing the meaning of vietnam veterans trauma would also shift moving away from a political space of reckoning with guilt and complicity to one that cast them as blameless victims of a hostile public upon their return home this is how in the post 9 11 era of the wars on terror the injunction to support our troops came to both sustain us militarism and also shields american civilians from the reality of wars fought ostensibly in their name in this compelling and crucial account nadia abu el haj challenges us to think anew about the devastations of the post 9 11 era

Women's Pathways Through the Criminal Legal System 2012-09-17

this volume comprehensively addresses racial trauma from a clinical lens equipping mental health professionals across all disciplines to be culturally responsive when serving black men written using a transdisciplinary approach yamonte cooper presents a unified theory of racism utr integrated model of racial trauma imrt transgenerational trauma points ttp plantation politics black male negation bmn and race based shame rbs to fill a critical and urgent void in the mental health field and emerging scholarship on racial trauma chapters begin with specific definitions of racism before exploring specific challenges that black men face such as racial discrimination and health trauma criminalization economic deprivation anti black misandry and culturally specific stressors emotions such as shame and anger and coping mechanisms that these men utilize after articulating the racial trauma of black men in a comprehensive manner the book provides insight into what responsive care looks like as well as clinical interventions that can inform treatment approaches this book is invaluable reading for all established and training mental health clinicians that work with black men such as psychologists marriage and family therapists social workers counselors and psychiatrists

Encyclopedia of Trauma 2007-05-08

the only comprehensive text to focus on trauma stress crisis and disaster counseling from a clinical practice perspective this overarching text intended both for mental health practitioners in training and for practicing clinicians focuses on the impact of stress crisis trauma and disaster on diverse populations across the lifespan as well as on effective treatment strategies the second edition is newly grounded in a trauma scaffold providing foundational information that therapists can build upon step by step to treat individuals affected by more complex trauma events this resource newly addresses the mental health implications of covid 19 which has had an enormous impact on multitudes of people since the beginning of the pandemic its repercussions likely to continue for some time into the future the text also is updated to provide the most recent diagnostic information regarding trauma in the dsm 5 two new chapters address the confluence of crises related to anthropogenic climate change and the effects of mass violence this unrivalled resource emphasizes stress management and crisis intervention skills as important building blocks for working with more complex issues of trauma and disaster it underscores the idea that trauma must be approached from multiple perspectives and in multiple dimensions encompassing individual community societal and systemic implications along with multicultural and diversity frames of reference the text integrates the latest findings from neuropsychology and psychopharmacology with an emphasis on polyvagal theory additionally the text highlights the importance of clinical supervision in trauma care and examines ethical dimensions and the need for self care among trauma counselors purchase includes digital access for use on most mobile devices or computers new to the second edition reconceptualizes the text with the concept of a trauma scaffold as a foundation upon which to understand and develop treatment for increasingly complex trauma events addresses the covid 19 pandemic and its profound effect on the mental health of vast numbers of people includes two new chapters on the confluence of crises related to anthropogenic climate change and the effects of mass violence includes powerpoint slides to accompany an updated instructor s manual key features delivers both introductory and advanced clinical information addressing complex trauma addresses trauma from a bioecological framework with emphasis on trauma informed practices multicultural pluralism diversity and social justice considers neurobiological responses to trauma with new research and the contributions of polyvagal theory examines individual familial community society and systemic understandings of stress crisis trauma and disaster includes a wealth of resources for further study text boxes and case studies to reinforce learning
