there are many books for learning chinese there are books that can teach you survival phrases or the first 300 characters but i have yet to come across a book that teaches you everything you need to know to master the language through self study i know this because i bought so many chinese learning books years ago and while some were a bit helpful for starting out none of them taught me step by step what i needed to do to truly master the language the hsk books by the confucius institute are phenomonal and i am a big fan of them but even they do not tell you how to study many expats living here in china for more than ten years are still struggling to get by with their beginner chinese quite a few have gotten slightly beyond the beginner level but unfortunately are just stuck in a state of complacency because they believe that they do not have the time or energy to take chinese seriously they seem to be willing to spend the rest of their time here with just whatever they have picked up along time way expats from both of these groups often become extremely sensitive when the topic of mandarin is brought up because almost all of them secretly wish they had taken their studies more seriously and are thinking about getting back on the horse and learning for real this time if this describes you then congratulations because this book will help you tremendously and save you so much time and energy i have strived and learned so much in such a short period of time however i must admit there are some truly remarkable expats that i have come across who have lived here for many years and have a much better handle on chinese than i do they are some of the most awe inspiring people i have ever met i am not the expat with the best chinese in all of china heck i m not even in the top ten in sichuan province but i did go from zero to fluency in an incredibly short period of time and i want to save you a ton of frustration and time as i share my secrets with you testimonials lawrence has developed a clear road map of how to go about learning chinese which he created out of his desire to simplify the process for himself and others it will save you a lot of time and make the process much easier he is very motivational and his enthusiasm will rub off on you highly recommended justin d expat writer and researcher lawrence 我是一名在加拿大生活了十年的中国移民，我一直在学习普通话，但进展缓慢。直到我读了这本书，我才真正开始掌握这门语言。这本书不仅提供了实用的词汇和语法，还教会了我如何与当地人交流。我强烈推荐这本书给所有想学习普通话的人。 chinese teacher i have witnessed the author s grasp of mandarin in person so i am eager and excited to get my hands on his book i have been looking for a guide to help me improve my mandarin and in the quickest way possible

lawrence was able to become fluent in just a couple years so i am looking forward to reading his insight nathan g expat science professor 英语口语口语口语 英语口语口语口语口语 英语口语口语口语口语 英语口语 langmonde 英语口语 英语口语 英语口语 英语口语 andy founder of langmonde bilingual podcasts after recently traveling to china i didn t realize the culture shock i would endure as an american citizen i went to china for about a week and despite using a vpn three english to chinese translation books and using charades to get my point across communication was such a daunting task lawrence s book illustrates and highlights key points to chinese communication all while learning the language
