2009

how is meaning created by a poem through the invisible ideas and thoughts conveyed by the text or through the physical presence of book paper and print in bodies of poems the author argues that the material properties of poetic texts are meaningful in their own right but often ignored and made invisible in poetry criticism through a number of examples ranging from the introduction of print technology in the fifteenth century to late twentieth century poets such as adrienne rich and seamus heaney this study examines the ways in which poems are products of the contemporary state of print technology legal and social definitions of authors and texts and culturally and historically determined assumptions about the self and the body although indebted to recent innovative work in textual criticism this book is a pioneering attempt to place the study of poetic texts as material artefacts in a sustained historical narrative

there has been a growing awareness that ambiguity is not just a necessary evil of the language system resulting for instance from its need for economy or by contrast a blessing that allows writers to involve readers in endless games of assigning meaning to a literary text the present volume contributes to overcoming this alternative by focusing on strategies of ambiguity and the strategic avoidance of ambiguity both at the production and the reception end

of communication the authors examine ways in which speakers and hearers may use ambiguous words structures references and situations to pursue communicative ends for example the question is asked what it actually means when a listener strategically perceives ambiguity which may happen both synchronically e g in conversations as well as diachronically e g when strategically ambiguating biblical texts in order to make them applicable to moral lessons another example is the question whether ambiguity awareness increases the strategic use of ambiguity in prosody moreover the authors not only enquire into effects of ambiguous meanings but also into the strategic use of ambiguity as such for example as a response to censorship or as a means of provoking irritation this volume brings together several contributions from linguistics literary studies rhetoric psychology and theology and aims at providing a systematic approach to the strategic production and perception of ambiguity in a variety of texts and contexts the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives 4 0 license

from henry james fascination with burnt manuscripts to destroyed books in the

fiction of the blitz from junk mail in the work of elizabeth bowen to bureaucratic paperwork in vladimir nabokov modern fiction is littered with images of tattered and useless paper that reveal an increasingly uneasy relationship between literature and its own materials over the course of the twentieth century wastepaper modernism argues that these images are vital to our understanding of modernism disclosing an anxiety about textual matter that lurks behind the desire for radically different modes of communication at the same time that writers were becoming infatuated with new technologies like the cinema and the radio they were also being haunted by their own pages having its roots in the late nineteenth century but finding its fullest constellation in the wake of the high modernist experimentation with novelistic form wastepaper modernism arises when fiction imagines its own processes of transmission and representation breaking down when the descriptive capabilities of the novel exhaust themselves the wastepaper modernists picture instead the physical decay of the book s own primary matter bringing together book history and media theory with detailed close reading wastepaper modernism reveals modernist literature s dark sense of itself as a ruin in the making

when will american poetry and poetics stop viewing poetry by racialized persons as a secondary subject within the field dorothy j wang makes an impassioned case that now is the time thinking its presence calls for a radical rethinking of how american poetry is being read today offering its own reading as a roadmap while focusing on the work of five contemporary asian american poets li young lee marilyn chin john yau mei mei berssenbrugge and pamela lu the book contends that aesthetic forms are inseparable from social political and historical contexts in the writing and reception of all poetry wang questions the tendency of critics and academics alike to occlude the role of race in their discussions of the american poetic tradition and casts a harsh light on the double standard they apply in reading poems by poets who are racial minorities this is the first sustained study of the formal properties in asian american poetry across a range of aesthetic styles from traditional lyric to avant garde wang argues with conviction that critics should read minority poetry with the same attention to language and form that they bring to their analyses of writing by white poets
